

**STATE OF NEW MEXICO
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION COMMISSION**

IN THE MATTER AND CONSIDERATION OF:

**AMENDED APPLICATION OF ALPHA ENERGY
PARTNERS II, LLC, FOR COMPULSORY
POOLING, EDDY COUNTY, NEW MEXICO**

**OCD CASE NO. 25496
OCC CASE NO. 25695
ORDER NO. 23989**

**RESPONSE TO AMERICAN ENERGY RESOURCES LLC'S APPLICATION FOR *DE*
NOVO HEARING AND EMERGENCY STAY OF ORDER NO. 23989**

Alpha Energy Partners, II, LLC, and affiliate AEP II Operating, LLC (collectively "Alpha"), through its undersigned attorneys, submits to the Oil Conservation Commission ("Commission" or "OCC") this Response ("Response") to American Energy Resources LLC's ("AER") Application for De Novo Hearing and Emergency Stay of Order No. 23989 ("Application" and "Motion to Stay" respectively). In support of its Response, Alpha provides the following:

I. Procedural Background and Matters Relevant to AER's Application for a Hearing *De Novo*.

1. AER has not provided or filed any competing applications for the right to operate the Subject Lands under review in Order No. 23989, those being the S/2 N/2 of Sections 17 and 18 all of Sec 18, Township 22 South, Range 27 East, NMPM, Eddy County, New Mexico, comprised of 316.92 acres, more or less ("Subject Lands"). AER's Application is solely based on objections to a select procedural matter that has been fully adjudicated by the Oil Conservation Division ("Division" or "OCD") as being a nonmaterial concern because AER has been provided the due process of a hearing. At stake in this hearing *de novo* is Alpha's grant of operatorship to develop the Subject Lands and the right of approximately more than 700 owners who are waiting to receive

their just and equitable share of production pursuant to Order No. R-23989, NMSA 1978 §70-2-17.C, and NMSA 1978 §70-2-33.H (describing the correlative rights owned to the owners). *See also* Alpha's Ownership Exhibit in Case No. 25496, attached hereto as Exhibit 1.

2. On January 1, 2025, AER filed an entry of appearance in Case No. 25496, based on a claim of interest in the Subject Lands, such claim limited to the N/2 of Section 17. AER's claim of interest is predicated on leases entered into more than fifty (50) years ago, the leases dating from 1961 through 1974 ("Subject Leases"). *See* AER's Exhibit E, attached to its *De Novo* Application. A typical oil and gas lease has a term of three (3) to (5) years unless held by production; thus, the primary terms of these leases have expired long ago. Furthermore, Division records show that the spacing unit encompassing the N/2 of Section 17 ("Saik Unit") had been non-productive from 2008 to 2024, approximately thirteen (16) years, and therefore, the leases listed in AER's Exhibit E are expired and have terminated by lack of production. *See* OCD Production Records for the Saik Well, attached hereto as Exhibit 2; *see also* List of AER's Leases showing their expired and supplanted status after Alpha performed due diligence on the Leases, attached hereto as Exhibit 10.

3. The Saik #001 Well (API No. 30-015-20971) ("Saik Well") was the well originally assigned to the Saik Unit. The Saik Well was drilled into the Morrow formation in 1973 and later recompleted into the Carlsbad; Wolfcamp, East (Code 74160) in 1996, which is a completely different formation and pool than the Bone Spring formation (Esperanza, Bone Spring [Code 97755] assigned to the Hollywood Star wells in the present case. *See* Exhibit 3, attached hereto. Subsequently, the Saik well ceased production from 2008 to 2021, and no production was reported thereafter through December 31, 2024, resulting in the termination of all AER's leases in the Saik Unit and the termination of AER's ownership in the Subject Lands. *See* Exhibit 2, attached hereto. Despite its lack of a good faith claim to ownership, AER filed a Form C-145 with the Division on

January 7, 2025, by which AER as the new operator of the Saik Well assumed all liabilities and consequences associated with acquiring a non-producing well without ownership rights for producing the well. *See* AER's Form C-145 attached hereto as Exhibit 4.

4. In fact, eight (8) years ago, the Energy, Minerals and Natural Resources Department ("EMNRD") sent a Letter of Violation, dated March 2, 2017 ("NOV Letter"), to the operator of the Saik Well demanding that corrective action be taken to address the Saik Well's lack of production, which included the option of (1) immediately restoring the well to production; (2) request temporary abandoned status pursuant to Rule 19.15.25.13; or (3) proceed with plugging the well. The deadline for taking corrective action was eight (8) years ago, June 5, 2017, and no corrective action was taken for the Saik Well. Missing the deadline by years provides the Commission with the authority and jurisdiction to compel AER to plug the well. *See* NOV Letter, attached hereto as Exhibit 7. Not only did AER acquire leases to the Saik Well that have expired and terminated by lack of production, but AER acquired the Saik Well in such a condition that the only remaining option for the Commission at this point in time is to enforce the plugging of the well pursuant to the terms of the NOV Letter.

5. Because AER's fifty-year-old leases had expired, all the mineral owners in the N/2 of Section 17 had become unleased, and consequently, Alpha was able to obtain new leases from the owners in the N/2 of Section 17 (covering the Saik Unit) which contributed to Alpha being able to acquire majority interest in the Subject Lands covered Order No. R-23989. *See* Exhibit 5, attached hereto, showing Alpha's current ownership of the N/2 of Section 17, which further demonstrates that AER owns no interest in the Saik Unit or in Alpha's spacing unit for the Hollywood Star wells covering the Subject Lands; *see also* Exhibit 1, attached hereto, showing Alpha's ownership in the Subject Lands; *see also* Exhibit 10, attached hereto, showing that AER's Leases have expired and been supplanted. In fact, Alpha currently owns almost 100% of the

leasehold rights of all the tracts in the Saik Unit, and Alpha has effectively pooled the remaining unleased owners.

6. Alpha recognizes that the Commission does not have jurisdiction to determine the validity of any title or the continuation in force and effect of any oil and gas lease. *See* R-11700-B, ¶ 27. However, “[i]t is the responsibility of the operator filing an application for a permit to drill to do so under a good faith claim to title and a good faith belief that it is authorized to drill the well applied for.” *Id.* (emphasis added). Alpha respectfully submits that this criteria -- that an operator must have a good faith claim to title along with a good faith belief it is authorized to drill, operate and/or produce a well -- equally applies when a party submits a form for a change of operator to acquire a wells for the purpose of producing the well or when a party submits an application to recompleate a well for purpose of producing the well, as AER has done. *See* AER’s Form C-145 for change of operator to acquire the Saik Well, attached hereto as Exhibit 4; *see also* AER’s application to recompleate the Saik Well for purposes of production, attached hereto as Exhibit 6. Furthermore, such good faith claim to title and good faith belief should also apply to a party when it purports to have the right and privilege to be a party of record and object to development plans.

7. If an operator makes such filings without a good faith claim to title and a good faith belief it is qualified to operate a well and is allowed to produce a well without a good faith claim of ownership in the unit, the operator will produce the well in direct violation of the correlative rights of the legitimate owners, which is prohibited under the Oil and Gas Act (“OGA”), § 70-2-1 *et seq.* Therefore, Alpha respectfully submits that the Commission has jurisdiction under the OGA to determine whether an operator filed such forms and applications “under a good faith claim to title” and “good faith belief” it has the prerequisite rights to produce the well because such a determination of “good faith” in both instances is not a determination of title or ownership but is a determination of whether the claim to title presented to the Commission was provided in good

faith. Thus, the Commission's ruling on "good faith" in the present case would directly protect correlative rights. *See, e.g.*, NMSA 1978 § 70-2-11 (stating that the Commission has concurrent jurisdiction with the Division "to protect correlative rights" and has authority "to do whatever may be reasonably necessary to carry out the purpose of this act, whether or not indicated in any section hereof.") Thus, under the present cases, the Commission has authority and jurisdiction to rule against AER and enforce plugging of the Saik Well pursuant to its jurisdiction to protect correlative rights under the OGA and pursuant to the express terms of the NOV Letter. *See* Exhibit 7, attached hereto.

II. AER Did Not Acquire Operatorship of the Saik Well Under a Good Faith Claim to Title or a Good Faith Belief that it Can Legitimately Produce the Well and Therefore Fails the Criteria for Prudent Operatorship.

8. The Commission, as well as the Division, is authorized under precedent and policy to determine whether a party or operator acts in good faith between parties and before the Division and Commission. Under the seven (7) factors the Commission considers when evaluating a pooling application, the third factor, in the top half of the list, is a review of whether a party made a "good faith" effort in its actions with parties before the Division and Commission. *See* OCC Order No. R-21416, ¶ 9. This requirement for a party's "good faith" actions with parties before the Division and Commission, combined with the requirement in Order No. R-11700-B, ¶ 28, that an operator only qualifies for permission to drill and operate a well "under a good faith claim to title," demonstrates that the Commission has jurisdiction to evaluate and determine whether a party's claim to title is made in good faith.

9. Thus, while the Commission does not have jurisdiction to examine a title instrument to determine the validity of title itself, Alpha respectfully submits that the Commission (under Orders such as No. R-21416, ¶ 9, and No. R-11700-B, ¶ 27) has jurisdiction to review evidence in order to evaluate a party's actions to determine the "good faith" element of a request

to operate, and/or drill, recomplete a well, or the “good faith” element of claiming ownership in order to request a hearing. In other words, because ownership of mineral interest is a pre-requisite to producing and claiming production from a well and is a pre-requisite for standing in a hearing, the Commission has jurisdiction (for the protection of correlative rights and the prevention of waste) to determine whether applicants requesting such privileges as permission to operate a well, permission to drill a well, and/or permission to recomplete a well, or the privilege to participate in a hearing and object to an application, were made under a “good faith” claim to title and ownership. A determination and evaluation of the “good faith” element in such a claim is distinguishable and separate from determining the validity of title and ownership itself.

10. The standard for whether a claim to title is made in good faith is informed by the fourth factor that the Commission may consider when evaluating a pooling application -- the evaluation of a party to “prudently operate” the property. *See* Order No. R-21416 ¶ 9. Thus, the Commission has jurisdiction to evaluate whether an operator is a prudent operator and/or acted in a prudent manner toward its operatorship of a well. *See id.* Black’s Law Dictionary, 7th ed., p. 1241, defines “prudent” as “circumspect or judicious in one’s dealings; circumspect.” Alpha submits that a prudent operator would not acquire fifty-year-old leases, without performing due diligence, for the purpose of operating a non-producing well (the Saik Well) under conditions that prevent an operator from making a “good faith” claim to title or having a “good faith” belief it has the right to operate, recomplete and produce the well. In the present matter, a cursory review of the records in Eddy county immediately reveals that the mineral tracts in the N/2 of Section 17 had subsequently been leased after the expiration of AER’s Leases; thus, AER had both constructive and actual notice that it is not possible to make a “good faith” claim of title or to have a “good faith” belief it could produce the Saik Well. *See* Alpha’s list of leases covering minerals in the N/2 of Section 17 (the Saik Unit) that have supplanted and superseded AER’s fifty-year-old leases,

attached hereto as Exhibit 5; *see also* Exhibit 10, attached hereto, showing that after proper due diligence is performed on AER's Leases, that all of AER's Leases have expired and been supplanted. Thus, AER has failed to show the Commission it is a prudent operator.

11. Furthermore, it is an important standard in the oil and gas industry for a prudent operator, who decides to acquire -- for the purpose of producing a well -- old leases that on their face have expired and terminated, to take the initiative to review the production history of the leases to see if they are held by production and to chain the title of the leases from their inception to the present to determine whether new leases have been taken for the same lands and/or to identify new royalty owners to whom payments must be made. Such efforts of due diligence are what parties are required to undertake for a pooling hearing before the Division during which they present the current status of the ownership in a unit in the form of an ownership exhibit, which includes all updated leasehold ownership. The Division reviews the ownership to determine whether the applicant is seeking to pool the unit under a good faith claim to title and whether correlative rights are protected. In the present case, AER acquired leases that reference mineral owners from more than 50 years ago, and these leases have not been updated nor has AER provided to the Commission a report on the status of their current ownership. Consequently, AER has not and cannot make a good faith claim to title for the Saik Well and Unit.

12. A prudent operator would never attempt to drill, operate, and/or produce a well based on such leases without first updating the ownership of the leases (1) to determine whether the leases could be valid; (2) to identify the current royalty owners of the leases to whom payments would be sent if the leases could be valid; and (3) to review subsequent filings of record to determine if the operator is subject to notice that the leases had been supplanted and superseded by newer leases. In the oil and gas industry, a party cannot apply for drilling, operating or recompleting a well under a good faith claim to title or a good faith belief it has the right to

operate and produce a well unless such efforts are undertaken. If AER had exercised such necessary due diligence pursuant to the customs and standards of the oil and gas industry by reviewing the instruments of record, by updating the chain of title for its leases, and by checking the production history of the Saik Well, AER would have discovered that its leases had expired and terminated under their own terms and new leases had supplanted and superseded the leases that AER had acquired by assignment. *See, e.g.,* Exhibit 10, attached hereto, showing the expired and supplanted status AER's Leases after proper due diligence. Alpha acquired its new leases in the N/2 of Section 17 prior to November 2018 and filed its Assignment of the leases prior to AER's change of operatorship and AER's application to recompleat the Saik Well; therefore, AER had constructive notice at the time it filed its C-145 and C-103 forms that it had no right to production from the N/2 of Section 17 (Saik Unit).

13. AER obtained its expired leases by Assignment dated December 17, 2018, recorded in Book 1117, Page 1122 (Reception No. 1820128) and appears to have invested no funds or resources for the necessary due diligence and title analysis that form the basis of a "good faith" claim to title. In comparison, Alpha has spent several millions of dollars on chaining and analyzing title to ensure that the ownership exhibits it provided to the Division are based on a good faith claim to title. Because the Subject Lands cross into the city limits of Carlsbad, New Mexico, they contain numerous tracts and hundreds of owners. Although the Commission cannot determine title itself, it can review and evaluate the due diligence, investments, and other good faith measures a prudent operator must undertake to present to the Division and Commission a good faith claim to title.

14. And, although the Commission cannot confirm and verify the exact percentages of working interest in the ownership exhibit that an applicant is required to provide to the Commission, the Commission does have authority and jurisdiction to compare the percentage of

working interest presented in the ownership exhibits and make decisions whether a party should or should not be granted operatorship based on a comparison of the amounts of working interest presented. *See, e.g.*, Order No. R-21416-A, ¶ 9 (The Commission may consider an “evaluation of the mineral ownership held by each party at the time the application was heard.”) Clearly, the Commission’s established policy and practices allow it to compare the amounts of mineral ownership to determine whether a party qualifies to be an operator of a well and unit. On this basis, Alpha is asking the Commission to exercise its authority to review ownership to compare the amount of mineral interest Alpha owns in the N/2 of Section 17 (the Saik Unit) (almost 100% ownership) and in the Subject Lands (approximately 70% ownership) to the amount of mineral interest AER has shown the Commission it owns in the N/2 of Section 17 (none) and in the Subject Lands (none). *See* Alpha’s Ownership Exhibit in Case No. 25496 attached hereto as Exhibit 1; *see also* Exhibit 5 attached hereto (showing that Alpha has acquired almost all the mineral interest in the N/2 of Section with its new leases); Exhibit 10, attached hereto, showing the expired and supplanted status of AER’s Leases after due diligence is performed.

15. Thus, the Commission has the authority¹ to evaluate and should evaluate and determine whether AER was a prudent operator who made good faith efforts to determine it had, and presented to the Commission, a good faith claim to title and a good faith belief it had a right to produce the Saik Well when it applied for operatorship and recompletion of the Saik Well and when it entered its appearance in Case No. 25496 to protest and object to Alpha’s pooling application based on a purported ownership in the N/2 of Section 17. Review of the facts and evidence provided herein shows that AER did not file its C-145 to acquire operatorship of the Saik Well under a good faith claim to title or a good faith belief, nor did AER file its application to

¹ The prudence of an operator is the fourth item on the list of criteria that the Commission is authorized to consider and has jurisdiction to consider. *See* OCC Order No. R-21416 ¶ 9.

recomplete the Saik Well under a good faith claim to title or good faith belief. In both instances, no prudent operator would have applied for operatorship for the purpose of producing the Saik Well based on fifty-year-old leases without having completed the necessary due diligence to confirm it had a good faith claim to title and good faith belief in its right to produce the well. Furthermore, such lack of prudence and good faith shows that AER did not enter an appearance in Case No. 25496, nor did it file its appeal with Commission, under a good faith claim to title or a good faith belief that it has the right to produce the Saik Well. Clearly, AER has acted in bad faith in order to interfere with, undermine, and directly violate the correlative rights of more than 700 owners in the Subject Lands who are waiting for their just and equitable share of production as authorized by Order No. R-23989.

16. Moreover, AER wrongly claims that Order No. R-23989 is improper because the Division Examiner disregarded NMSA 1978 §70-1-5. *See* AER's *De Novo* Application at ¶ 4. The Division Examiner did not disregard §70-1-5 as this statute is inapplicable and irrelevant to AER's claim of title. First, AER wrongly cites this statute, as it is not part of the OGA which starts on NMSA 1978 § 70-2-1, *et seq.* Section 70-1-5 only stands for the proposition that before a landowner or mineral owner (that is, a lessor) can bring a cause of action against a lessee for failing to release a lease, the landowner must first demand release of the lease prior to the action. Second, this statute has nothing to do with the expiration and termination of AER's Leases by their own terms or the right of a landowner or mineral owner to execute another subsequent lease with a different lessee after the expiration of an existing lease. AER misrepresents and misapplies this statute and cannot use it to make a good faith claim to title based on its expired fifty-year-old leases and its non-productive Saik Well.

III. When AER Acquired the Non-producing Saik Well, It Acquired Only the Personal Property of Salvage Materials and the Obligation to Plug the Well and Clean Up the Wellsite.

17. Given the evidence provided herein showing AER's failure to present a good faith claim to title and its lack of prudence as an operator of the Saik Well, Alpha respectfully moves the Commission to exercise its authority to compel AER to properly plug and abandon the well and perform any necessary clean-up of the well site.

18. The Saik Well became non-productive as far back as 2008, and Division records indicate zero production from the Saik Well from 2008 to 2021, and no reports had been submitted to the OCD from 2021 to December 2024.² Pursuant to 19.15.25.8A and B NMAC, an operator of a well "shall plug" the well within 90 days after "a period of one year in which a well has been continuously inactive." 19.15.25.8.B(3) NMAC. In 2017, when Wildcat Energy LLC ("Wildcat") was operator of the non-producing well, the Energy, Minerals and Natural Resources Department ("EMNRD") recognized the need for the operator of the Saik Well to plug and abandon ("P&A") the well. *See* Letter of Violation re Inactive Well(s) dated March 2, 2017, attached hereto as Exhibit 7. In the NOV Letter, EMNRD mandated that either the Saik Well (1) be "immediately" restored to production, or (2) be placed on "Temporary Abandoned" status, or (3) proceed with plugging procedures. Records show that no action was taken by the EMNRD and the Saik Well continued to be non-productive from 2017 to 2024, another seven years. Wildcat assigned the fifty-year-old leases covering the N/2 of Section 17 to AER by Assignment dated December 17, 2018, recorded in Book 1117, Page 1122 (Reception No. 1820128), and AER acquired

² There are recent reports of nominal production in 2025, a very minimal 1 MCF per month, filed by AER. However, this production is self-reported without verification or confirmation. AER has reported exactly 1 MCF per month which is highly unusual and suspicious because production amounts, even minimal amounts, will always show variations in the amounts from month to month if there is actual production and will not be an exact and consistent amount each month. Therefore, Alpha questions the veracity of AER's reports and whether there is actual production starting in 2025.

operatorship of the Saik Well from Wildcat on January 7, 2025, when it filed a C-145 Form. Given that the NOV Letter had been issued eight (8) years ago and that any attempt now by AER to produce the well would violate the correlative rights of the legitimate working interest owners in the Subject Lands, Alpha submits that the non-productive Saik Well should be plugged and requests the Commission to compel AER to plug it for the protection of correlative rights and the prevention of waste.

19. Despite its lack of due diligence, lack of prudence, and lack of a good faith claim to title, AER assumed operatorship of the Saik Well fully aware that it had assumed all liabilities and consequences associated with acquiring a non-producing well in which AER has no ownership of production.³ In its Change of Operator Form, AER certified to the Division that “I understand that New Mexico requires wells that have been inactive for certain periods to be plugged or placed in approved temporary abandonment.” *See* 19.15.25.8 NMAC. “I understand the requirements for plugging and approved temporary abandonment in 19.15.25 NMAC.” *See id.*; *see also* Wildcat’s *Lis Pendens*, III. Factual Background, p. 5, ¶ 13, attached hereto as Exhibit 8 (Wildcat confirming that Jonathan Samaniego, representative of AER, contacted Wildcat “about acquiring three non-producing wells” in Eddy County for Wildcat: “The Rio Penasco KD #3, the Henry 2 Well and the Saik #001 Well.”) (emphasis added). Furthermore, the NOV Letter provides the Commission with plenary jurisdiction and authority to compel AER to plug the Saik Well, as the NOV Letter states that enforcement of the NOV Letter may include the EMNRD office to apply to the Division for an order summoning you to a hearing before the Division Examiner to show cause why you should not be ordered to permanently plug and abandon this well. See Exhibit 7, attached hereto.

³ AER acquired the expired leases by an assignment in 2017 yet has done nothing from that time to the present to demonstrate it had performed the necessary due diligence to show the Division and Commission that it has a good faith claim to title.

Based on this authority, Alpha respectfully requests the Commission to take the opportunity of this *de novo* hearing to exercise its concurrent jurisdiction and order AER to plug the Saik Well based on the terms of the NOV Letter and on the basis of the arguments and evidence presented, both of which standing alone justify the plugging of the Saik Well.

20. Considering that Alpha had acquired leasehold interest in almost all the N/2 of Section 17 (Saik Unit) prior to AER filing the change of operator form, in upwards of 95% or more of the interest, and planned to pool (and successfully has pooled) the remaining unleased interest, it is understandable and reasonable that Alpha did not consider AER's claim to the non-producing Saik Well as a valid claim to a producing well and unit or to a well and unit capable of legitimate production, especially since AER's claim is based on fifty-year-old-leases that have terminated by their own terms and have been supplanted and superseded by new leases that Alpha entered into with the current mineral owners in the N/2 of Section 17. Furthermore, given the NOV Letter issued by the Division in 2017 ordering the operator of the Saik Well to proceed with plugging the Saik Well or take immediate action to address its non-productive status and that no action had been taken for eight years, Alpha considered the Saik Well and unit defunct and inert when it first made application on October 11, 2024 to pool mineral interests underlying the Subject Lands. *See, e.g.*, OCD Case No. 24944.

21. Nonetheless, AER made appearances in the original Case No. 24944 and the subsequent Case No. 25496 objecting to Alpha's pooling application. When a party makes an objection in a pooling hearing based on a claim of an overlapping unit under 19.15.16.16.B(9)(b) NMAC, the Division can overrule the objection and proceed with approving the pooling application after the hearing has been concluded, which is what the Division did in Case No. 25496 when it issued Order No. R-23989. *See, e.g.*, 19.15.16.16.B(9)(b) NMAC and 19.15.15.12.B(3)(b) NMAC (the OCD can approve the application and overrule the objection after

a hearing). AER made the same objections before the Division in Case No. 25496 that it is currently making before the Commission in the present case; thus, AER's right to due process in these proceedings regarding any concern of an overlapping unit have been fully satisfied.

Furthermore, in Case No. 25496 and Order No. R-23989, the Alpha's wells are in the Bone Spring formation and Esperanza, Bone Spring Pool [Code 97755], which is a completely different formation and pool than the Carlsbad; Wolfcamp, East (Code 74160) and Morrow formation associated with the Saik Well; therefore, there is no issue of an overlapping unit with Case No. 25496 and Order No. R-23989.

22. When a party is awarded operatorship by means of a pooling hearing, the Division thoroughly evaluates the extent to which the applicant is a prudent operator, the extent to which the applicant has made a good faith presentation of ownership in the unit, and the extent to which the applicant will protect correlative rights and prevent waste. In Case No. 25496, the Division thoroughly evaluated Alpha's pooling application under these criteria and found that Alpha is a prudent operator, and its development plan protects correlative rights and prevents waste.

23. However, in contrast, the process through which a party, such as AER, gains operatorship by filing a two-page C-145 Change of Operatorship Form is highly problematic and highly lacking. The Change of Operator form can allow a party to bypass the kind of scrutiny and evaluation that an applicant must go through and satisfy in a compulsory pooling hearing for ensuring that correlative rights are protected and waste is prevented. Thus, a C-145 can be used by an imprudent operator and bad faith actor as a loophole to bypass the kind of evaluation and scrutiny that an operator would undergo during a pooling hearing to earn a grant of operatorship, which is exactly what AER did when it filed its C-145 form.

24. Alpha submits that AER failed the industry standards of due diligence and prudence when it acquired fifty-year-old leases in the N/2 of Section 17 despite constructive and

actual notice showing that the mineral interest in the N/2 of Section 17 had subsequently been acquired by new leases. *See, e.g.*, Exhibit 10, attached hereto. Notwithstanding such failure, AER proceeded to file a Change of Operator form eight (8) years after it acquired the expired leases and three (3) months after Alpha first submitted an application to pool the Subject Lands. The Change of Operator form allowed AER to acquire operatorship of the Saik Well without a hearing and with only cursory review and accountability. Alpha submits that when it filed its initial pooling application for the Subject Lands, AER exploited the Change of Operator form-based process to interfere with and undermine Alpha's development plans in direct violation of the correlative rights of owners in the Subject Lands.

25. Therefore, Alpha requests the Commission to do what should have been done eight (8) years ago when the Division issued the NOV Letter. Alpha respectfully moves the Commission to find that AER has acted in bad faith throughout its efforts to seek operatorship of the Saik Well and throughout the proceedings in Case No. 25496 and has failed to show that it is a prudent operator. On the basis of these findings and conclusions, and the authority provided by the NOV Letter itself, Alpha requests the Commission to order AER to plug and abandon the Saik Well to protect correlative rights and prevent waste and to clean up and restore the wellsite and property for the protection of the environment and public health.

IV. Alpha Respectfully Requests that the Commission Adopt a Three-prong Test to Determine Whether a Party has Made a Good Faith Claim to Title.

26. Just as the Commission and Division has implemented a multi-prong test to determine whether a party can claim to be a party of record under the OGA (*see, e.g.*, Order No. R-21679, § II, ¶ e), Alpha requests that the Commission adopt a three-prong test to determine whether a party's request to drill, operate, and/or recomplete a well is made under a good faith claim to title as required by Order No. R-11700-B, ¶ 29. As explained herein, the Commission

cannot determine the validity of a lease or a claim of ownership, but the Commission can and must review the nature, characteristics, and quality of a claim to title, not to determine the validity of title instruments themselves, but to determine whether the claim is made in “good faith” and in a prudent manner in order to protect correlative rights under the OGA.

27. Such review and determination are the same kinds of review and determination the Division and Commission make when they require applicants to submit an ownership exhibit -- containing the percentage of working interest each party owns -- for the Division’s or Commission’s review in a pooling hearing or appeal. The Commission does not review the ownership exhibit to validate the title itself or the exact percentage of ownership presented but reviews the ownership to ensure that ownership is accounted for, that it is presented under a good faith claim to title, and that correlative rights are protected-- all criteria over which the Commission has jurisdiction to rule on, separate and distinct from determining or adjudicating title itself. Such review to determine whether a party was prudent and presented a good faith claim to title would prevent parties from acting in bad faith and intentionally acquiring outdated leases that have expired under their own terms and present them to the Division and Commission in order to undermine legitimate proceedings and approved development plans. Without a means for the Commission to determine whether a party’s claim to title is prudent and made in good faith, the Commission would not be able to address the violation of and damage to correlative rights that a party acting imprudently and in bad faith would cause if its actions were not stopped. A bad actor should not be able to thwart the Commission’s obligation to protect correlative rights and prevent waste on the basis that the Commission cannot adjudicate title or determine the validity of a lease when in fact the Commission has authority to determine whether an operator satisfies the requirements of “good faith” and “prudence” in its claims to title and ownership and its claims that it has the right to operate and produce a well.

28. On this basis, Alpha respectfully proposes a three-prong test that would provide the Commission with the means and tools to address whether a party acted in a prudent manner and made a good faith claim to title by exhibiting due diligence in accordance with the customs and standards of the oil and gas industry. First, in order for a party to establish that its claim to title was made in good faith, the party should chain the title to update it to its current status as a prudent operator would do, thereby providing the Commission with a current ownership exhibit as is done in a pooling hearing. Second, the party should demonstrate to the Commission that it had reviewed applicable records, such as the county records, to determine if the party's claim is subject to any constructive or actual notice that informs whether the claim can be made in good faith. For example, if there is a subsequent set of newer leases that cover the same lands executed by the same mineral owners and/or their heirs or successors in interest, then such notice would call into question whether a party is in a position to make a good faith claim to title. And third, a prudent operator following the custom and standards of the oil and gas industry should review the production records of a well to determine whether the leases it planned to acquire for purposes of drilling, operating, or recompleting the well would have been sustained by the history of production. This three-prong test reflects what Alpha and any prudent operator would do when they acquire a lease or encounter a lease in the record; a prudent operator vets the status of the lease to determine whether it is valid and should be included in the ownership exhibit that is presented to the Division and/or Commission for review.

29. In the present case, AER made no effort and showed no initiative to ensure that it was making a good faith claim to title with the fifty-year-old leases it had acquired from Wildcat, thus failing the first prong of the proposed test. When it sold AER the Saik Well, Wildcat viewed the Saik Well as a non-productive well whose leases had long ago terminated due to lack of production. *See* Affidavit of the President of Wildcat, attached hereto as Exhibit 9. After it

acquired the fifty-year-old leases, AER did not exercise due diligence or appropriate prudence by reviewing the county records and updating the leases to determine and present their current status as would be shown in the kind of ownership exhibit submitted to the Division and Commission in a standard pooling hearing. In fact, the Division Examiner acknowledged AER's failure to exercise such due diligence by concluding that the evidence shows that AER does not have an interest in Case No. 25496. *See* Transcript ("Tr.") for Case 25496 (Aug. 7, 2025), 168: 8-10. Thus, presenting the fifty-year-old leases without the necessary prudence and due diligence to update the leases caused the Division to rightly rule that AER did not present sufficient evidence to show a good faith claim of ownership. *See, e.g.*, Exhibit 10, attached hereto, showing what would have been found if AER had performed proper due diligence, that all AER's Leases have expired and have been supplanted by new leases.

30. Furthermore, had AER made a good faith attempt to follow the chain of title from the execution of the fifty-year-old leases to the present, AER would have discovered that almost all the mineral owners in the N/2 of Section 17 (the Saik Unit) had executed new leases with Alpha. *See* Alpha's list of current leases showing Alpha good faith claim to title, attached hereto as Exhibit 5. No prudent operator would have applied for operatorship of a well and assumed all the liabilities of operating a well when faced with a record of constructive and actual notice showing that the leases associated with the well had been superseded and supplanted, which is why Alpha proposes as the second prong to the test for a good faith claim whether the operator reviewed the record for constructive and actual notice.

31. If such an operator continued to believe that it could still make a good faith claim of title after reviewing the record, the only option left would be to review of the well's history of production and any history of shut-in payments that might have been made to determine whether a lease could be held by production. The Saik Well has not produced for sixteen (16) years, long

past the term of the Habendum Clause. AER only became operator of the Saik Well in January 2025, so AER would not have made any shut-in payments during the sixteen (16) year period, and importantly, has not claimed to have made any shut-in payments. Furthermore, Wildcat, the prior operator of the Saik Well, did not make any shut-in payment on the fifty-year-old leases. *See* Affidavit of the President of Wildcat, attached hereto as Exhibit 9. Therefore, AER would fail the third prong of the proposed test for a good faith claim to title.

32. The Commission has a duty and obligation to protect correlative rights, and if a party abuses the adjudicative process by acquiring expired leases that do not support the production the Saik Well but only function to violate the correlative rights of legitimate leasehold owners, then the Commission should have a means of protecting the correlative rights. Alpha respectfully offers a means for the Commission and Division to address and protect correlative rights in such situations, a three-prong test that allows the Commission to determine that AER failed to make a good faith claim to title because it failed to perform the kind of due diligence that a prudent operator would have performed for each part of the three-prong test. Once the Commission determines that each prong of the test has not been satisfied, it would have jurisdiction to rule that a good faith claim to title has not been made and any objections asserted by a party who failed to show the elements of good faith claim should be summarily dismissed.

33. Because AER availed its itself of the jurisdiction of the Commission and has failed to show that it is prudent operator with respect to the Saik Well; has failed to show a good faith claim to title as a basis for operating the Saik Well; and thus has presented a flawed and unsubstantiated basis for objecting to Alpha's development plans, the Commission should exercise its authority over AER and the Saik Well and (1) find that AER did not make a good faith claim to title and therefore cannot object to the Alpha's development plans and (2) find that AER is not a prudent operator of the Saik Well and does not have a good faith claim to title to support the

production of the Saik Well without violating the correlative rights of the legitimate leasehold owners. Furthermore, on the basis of such findings, Alpha respectfully requests that the Commission issue an order compelling AER to plug and abandon the Saik Well in order to protect the correlative rights of the legitimate owners of the minerals underlying the Subject Lands and to perform the necessary clean-up of the Saik wellsite to protect the environment and public health. AER, or any party, should not be allowed to undermine legitimate development plans by acquiring expired and defunct leases that have been supplanted by new leases and use the terminated leases as a claim to title for the purpose of violating correlative rights. When encountering this kind of abuse of process, the Commission and Division should be able to use its authority and jurisdiction to address and resolve this problem without forcing the victims of such bad faith actions to incur the cost, burden, and delay of a quiet title action. AER's abuse of process should not be tolerated, and Alpha respectfully requests to the Commission to use the means and tools of the proposed three-prong test to resolve this problem.

V. AER's Request for a Stay Should be Denied Because it Fails to Meet both the Legal Criteria for Granting a Stay and the Procedural Requirements under the Rules for Requesting a Stay.

34. First, under NMAC 19.15.4.23.B, when a party files a motion requesting a stay of a Division order, as AER has done, the party "shall attach" a proposed stay order of the motion. AER filed a motion requesting a stay of Order No. R-23989 but failed the requirement of providing the Commission with a proposed stay order. On the basis of this failure alone, AER's request for a stay should be denied.

35. Furthermore, the standard for the granting a stay to a party is governed by the four-prong test adopted by the Commission in *Tenneco Oil Co. v. N.M. Water Quality Control Comm'n*, 1986-NMCA-033, ¶ 10 as applied in Commission Order No. R-14300-A, ¶ 5. The first prong that AER must meet is (1) a showing of the likelihood that applicant will prevail on the merits of the

appeal. AER has presented no competing plan that would better protect correlative rights and prevent waste than Alpha's development plan that was approved by Division. The only purported basis provided by AER for the stay is that it had a right to notice as an operator of an overlapping unit and objects because AER did not receive notice. However, this issue has been addressed by a hearing at the Division in which AER made an appearance and expressed its objection, and AER has been granted an appeal pursuant to § 70-2-13 in which it has restated its objection to Order No. R-23989 on the purported basis. Thus, AER has been provided rights of due process in the adjudication of this issue.

36. At the hearing before the OCD, the Division Examiner concluded that based on the evidence, AER did not have an interest in Case No. 25496. *See* Tr. Case 25496 (Aug. 7, 2025), 168: 8-10. This finding remains valid and should be upheld by the Commission because under the facts and circumstances of the present case, AER failed to have made a showing to the Division in Case No. 25496 of a good faith claim to title or that AER is a prudent operator and has further failed to make such showing to the Commission in the present case. While the Division and Commission cannot determine the validity of a lease, both agencies have the authority and jurisdiction to protect correlative rights and prevent waste by determining whether a claim to title was presented in good faith and both agencies have the authority and jurisdiction to determine whether a party is a prudent operator to protect correlative rights and prevent waste. AER, as shown herein, failed to show that its claim to title was made in good faith and failed to show that it qualified as prudent operator.

37. In fact, throughout the proceedings, AER has acted imprudently and in bad faith regarding its claims to title and operatorship. Imposing a stay on Alpha's Order would serve no purpose and would benefit no interests under OGA because AER is in not in a position, and does not qualify as an prudent operator, to recomplete and produce the Saik Well without violating the

correlative rights of more than 700 leased and/or pooled owners in the Subject Lands who are entitled to receive their just and equitable share of production pursuant to Order No. R-23989.

Thus, AER is not likely to prevail on the merits of its appeal, and therefore, cannot satisfy the first prong of the *Tenneco* test.

38. For the second prong, AER must show irreparable harm to the applicant unless the stay is granted. In the present case, AER cannot show that it would suffer irreparable harm. The only objection that AER has presented is the claim that it did not receive notice for the overlapping unit of the Saik Well. Even with notice, the Division and Commission have a practice of approving the simultaneous production of overlapping units after a hearing has been provided. AER has received a hearing before the Division that has considered, addressed and ruled on AER's objection, and in the present case before the Commission, AER is receiving a second hearing. Thus, AER has received no harm from the approval of Alpha's development plan because all of AER's concerns and objection have been addressed pursuant to the statewide rules. Furthermore, as shown herein, AER is not in a position to prudently operate and produce the Saik Well, and AER's operation and production of the Saik Well under current conditions would violate the correlative rights of owners in the Subject Lands.

39. The third prong of the *Tenneco* test requires AER to make a showing of evidence that no substantial harm will result to other interested persons, which AER cannot satisfy. AER has failed to demonstrate that it is a prudent operator who would operate and produce the Saik Well under a good faith claim to title. AER acquired fifty-year-old leases and disregarded the necessary due diligence required by the standards and customs of the oil and gas industry for a good faith showing that its leases could be valid. Furthermore, AER failed to review the chain of title for updating the leases; failed to account for constructive and actual notice that showed newer leases had been taken that replace and supplant AER's Leases; and failed to address whether the sixteen

years of lack of production and the lack of shut-in royalty payments have resulted in the termination of the leases. Because AER has claimed title in bad faith and has failed to establish that it is a prudent operator, any efforts made by AER to operate and produce the Saik Well would directly violate the correlative rights of the legitimate owners in the Subject Lands and would cause waste, among other transgressions described in Part VI below. Furthermore, a stay of Alpha's Order and development plan would deprive and cause harm to more than 700 legitimate owners in the Subject Lands, depriving them of their just and equitable share of production from Alpha's Hollywood Star wells and would accomplish nothing and benefit no one because AER offers no alternative development plan for the protection of correlative rights and proposes only to drain the Subject Lands by means of the illegitimate and unauthorized production of the Saik Well.

40. Finally, to prevail on a request for a stay, AER must show that no harm will ensue to the public interest. AER obtained outdated leases that even the Assignor of the leases, Wildcat itself, views as expired and terminated and providing no basis for operating and producing the Saik Well. *See* Wildcat's Affidavit regarding the status of AER's leases attached hereto as Exhibit 9. A party should not be allowed to obtain outdated leases and present them as the basis for having ownership and standing to drill, operate, recomplete, and/or produce a well, especially without performing the necessary due diligence to at least show that the leases could be valid. If a stay is granted, it will incentivize parties to act in bad faith by claiming any interest in a unit, no matter how tenuous or invalid the claim, knowing that the Division and/or Commission will not take any action or make any ruling against the parties on the basis that the agencies cannot determine the validity of title. However, the Commission must not advance or endorse a policy that allows a party to exploit such a loophole which provides leverage and opportunity to undermine and sabotage an applicant's legitimate development plans. The Commission has proper authority and jurisdiction, and the means and tools at hand, to determine whether a party has acted prudently and

in good faith to the extent that its objections should be considered. If a party has not acted in good faith before the Commission, then its objections should be dismissed and its requests denied.

41. If AER is allowed to pursue its claims in bad faith, such precedent will directly harm the public interest. Alpha respectfully submits that the Commission has the authority and jurisdiction to prevent AER's abuse of process by adjudicating whether a party qualifies as a "prudent" operator under the OGA and whether a claim to title is made in "good faith." See Paragraphs 25-32 above. While determining the validity a lease is outside the jurisdiction of the Division and Commission, determining whether a party was sufficiently "prudent" to have satisfied the "good faith" element of a claim to title in order to protect correlative rights and prevent waste is well within the Division's and Commission's authority and jurisdiction. AER's request for a stay, if granted, would harm the public interest by rewarding bad faith actors who abuse the adjudicative process in order to thwart legitimate development plans.

42. Thus, AER cannot satisfy any of the four prongs of the *Tenneco* test for granting a stay; and therefore, AER's motion for a stay must be denied.

43. Alpha presumes that AER opposes the request to plug the Saik Well.

VII. Conclusion:

For the reasons stated above, Alpha respectfully requests that the Commission overrule the objections and claims AER asserted in its Application for *De Novo* Hearing and uphold Order No. R-23989 as a valid Order under which Alpha may proceed immediately with its plan for developing the Subject Lands. Furthermore, Alpha respectfully asks the Commission to deny AER's request for a stay of Order No. R-23989 on the basis that AER has failed to meet the four-pronged criteria under *Tenneco* for issuance of a stay. Finally, Alpha respectfully requests that the Commission enforce the terms of the NOV Letter, attached hereto as Exhibit 7, and order AER to plug and abandon the Saik Well and clean up the wellsite and property (an order long overdue) for

the protection of correlative rights, prevention of waste, and the protection of the environment and public safety. A proposed order for Alpha's request regarding the plugging of the Saik Well is attached hereto as Exhibit 11 for the Commission's consideration.

Respectfully Submitted,

Permit 380818

State of New Mexico
Energy, Minerals and Natural
Resources
Oil Conservation Division
1220 S. St Francis Dr.
Santa Fe, NM 87505
Change of Operator

Previous Operator Information

OGRID: 209564
Name: WILDCAT ENERGY LLC
Address: P.O. Box 13323

City, State, Zip: Odessa, TX 79768

New Operator Information

Effective Date: Effective on the date of approval by the OCD
OGRID: 372991
Name: American Energy Resources LLC
Address: P.O. BOX 114

City, State, Zip: Hagerman, NM 88232

I hereby certify that the rules of the Oil Conservation Division ("OCD") have been complied with and that the information on this form and the certified list of wells is true to the best of my knowledge and belief.

Additionally, by signing below, American Energy Resources LLC certifies that it has read and understands the following synopsis of applicable rules.

PREVIOUS OPERATOR certifies that all below-grade tanks constructed and installed prior to June 16, 2008 associated with the selected wells being transferred are either (1) in compliance with 19.15.17 NMAC, (2) have been closed pursuant to 19.15.17.13 NMAC or (3) have been retrofitted to comply with Paragraphs 1 through 4 of 19.15.17.11(i) NMAC.

American Energy Resources LLC understands that the OCD's approval of this operator change:

1. constitutes approval of the transfer of the permit for any permitted pit, below-grade tank or closed-loop system associated with the selected wells; and
2. constitutes approval of the transfer of any below-grade tanks constructed and installed prior to June 16, 2008 associated with the selected wells, regardless of whether the transferor has disclosed the existence of those below-grade tanks to the transferee or to the OCD, and regardless of whether the below-grade tanks are in compliance with 19.15.17 NMAC.

EXHIBIT
4

As the operator of record of wells in New Mexico, American Energy Resources LLC agrees to the following statements:

1. Initials JA I am responsible for ensuring that the wells and related facilities comply with applicable statutes and rules, and am responsible for all regulatory filings with the OCD. I am responsible for knowing all applicable statutes and rules, not just the rules referenced in this list. I understand that the OCD's rules are available on the OCD website under "Rules," and that the Water Quality Control Commission rules are available on the OCD website on the "Publications" page.
2. Initials JA I understand that if I acquire wells from another operator, the OCD must approve the operator change before I begin operating those wells. See Subsection B of 19.15.9.9 NMAC. I understand that if I acquire wells or facilities subject to a compliance order addressing inactive wells or environmental cleanup, before the OCD will approve the operator change it may require me to enter into an enforceable agreement to return those wells to compliance. See Paragraph (2) of Subsection C of 19.15.9.9 NMAC.
3. Initials JA I must file a monthly C-115 report showing production for each non-plugged well completion for which the OCD has approved an allowable and authorization to transport, and injection for each injection well. See 19.15.7.24 NMAC. I understand that the OCD may cancel my authority to transport from or inject into all the wells I operate if I fail to file C-115 reports. See Subsection C of 19.15.7.24 NMAC.
4. Initials JA I understand that New Mexico requires wells that have been inactive for certain time periods to be plugged or placed in approved temporary abandonment. See 19.15.25.8 NMAC. I understand the requirements for plugging and approved temporary abandonment in 19.15.25 NMAC. I understand that I can check my compliance with the basic requirements of 19.15.25.8 NMAC by using the "Inactive Well List" on OCD's website.
5. Initials JA I must keep current with financial assurances for well plugging. I understand that New Mexico requires each state or fee well that has been inactive for more than two years and has not been plugged and released to be covered by a single-well financial assurance or a "blanket plugging financial assurance for wells in temporarily abandoned statuses", even if the well is also covered by a blanket financial assurance and even if the well is on approved temporary abandonment status. See Subsection C of 19.15.8.9 NMAC. I understand that I can check my compliance with the financial assurance requirement by using the "Inactive Well Additional Financial Assurance Report" on the OCD's website.
6. Initials JA I am responsible for reporting and remediating releases pursuant to 19.15.29 NMAC. I understand the OCD will look to me as the operator of record to take corrective action for releases at my wells and related facilities, including releases that occurred before I became operator of record. I am responsible for conducting my own due diligence for any releases that have occurred prior to becoming operator of my wells and related facilities and am responsible for any open releases or unreported releases.
7. Initials JA I have read 19.15.5.9 NMAC, commonly known as "Part 5.9," and understand that to be in compliance with its requirements I must have the appropriate financial assurances in place, comply with orders requiring corrective action, pay penalties assessed by the courts or agreed to by me in a settlement agreement, and not have too many wells out of compliance with the inactive well rule (19.15.25.8 NMAC). If I am in violation of Part 5.9, I may not be allowed to drill, acquire or produce any additional wells, and will not be able to obtain any new injection permits. See 19.15.16.19 NMAC, 19.15.26.8 NMAC, 19.15.9.9 NMAC and 19.15.14.10 NMAC. If I am in violation of Part 5.9 the OCD may, after notice and hearing, revoke my existing injection permits and seek other relief. See 19.15.26.8 NMAC and 19.15.5.10 NMAC.
8. Initials JA For injection wells, I understand that I must report injection on my monthly C-115 report and must operate my wells in compliance with 19.15.26 NMAC and the terms of my injection permit. I understand that I must conduct mechanical integrity tests on my injection wells at least once every five years. See 19.15.26.11 NMAC. I understand that when there is a continuous one-year period of non-injection into all wells in an injection or storage project or into a saltwater disposal well or special purpose injection well, authority for that injection automatically terminates. See 19.15.26.12 NMAC. I understand that if I transfer operation of an injection well to another operator, the OCD must approve the transfer of authority to inject, and the OCD may require me to demonstrate the well's mechanical integrity prior to approving that transfer. See 19.15.26.15 NMAC.
9. Initials JA I am responsible for providing the OCD with my current address of record and emergency contact information, and I am responsible for updating that information when it changes. See Subsection C of 19.15.9.8 NMAC. I understand that I can update that information on the OCD's website under "Electronic Permitting."
10. Initials JA If I transfer well operations to another operator, the OCD must approve the change before the new operator can begin operations. See Subsection B of 19.15.9.9 NMAC. I remain responsible for the wells and related facilities and all related regulatory filings until the OCD approves the operator change. I understand that the transfer will not relieve me of responsibility or liability for any act or omission which occurred while I operated the wells and related facilities.
11. Initials JA No person with an interest exceeding 25% in the undersigned company is, or was within the last 5 years, an officer, director, partner or person with a 25% or greater interest in another entity that is not currently in compliance with Subsection A of 19.15.5.9 NMAC.
12. Initials JA NMOC Rule Subsection E and F of 19.15.16.8 NMAC: An operator shall have 90 days from the effective date of an operator name change to change the operator name on the well sign unless the division grants an extension time, for good cause shown, along with a schedule for making the changes. Each sign shall show the (1) well number, (2) property name, (3) operator's name, (4) location by footage, quarter-quarter section, township and range (or unit letter can be substituted for the quarter-quarter section), and (5) API number.

LETTER OF VIOLATION - Inactive Well(s)

Dear Operator:

A review of our records and recent inspection(s) indicate that the subject well(s) has been shut-in for an extended period of time. Rule 19.15.25.8 of the Rules and Regulation of the Oil Conservation Division provides that a well may be shut-in no longer than sixty days after suspension of drilling operations, upon determining that this well is no longer usable (e.g., a dry hole), or one year after last production. To comply with guidelines as established in the Rules and Regulations, corrective actions must be taken immediately and the well(s) brought into compliance.

The detail section below indicates preliminary findings and/or probable nature of the violation.

The following options are available:

1. Immediately restore the well(s) to production, injection or disposal as applicable.
2. Request 'Temporary Abandoned' status pursuant to Rule 19.15.25.13, which requires that you set a plug and conduct a mechanical integrity test.
3. Submit a proposal to 'Plug and Abandon' the well(s) pursuant to Rule 19.15.25.9, proceed with plugging procedures on a timely basis after the proposal has been evaluated, amended and/or approved.

In the event that a satisfactory response is not received to this letter of direction by the "Corrective Action Due By:" date shown above, further enforcement will occur. Such enforcement may include this office applying to the Division for an order summoning you to a hearing before a Division Examiner in Santa Fe to show cause why you should not be ordered to permanently plug and abandon this well. Such a hearing may result in imposition of CIVIL PENALTIES for your violation of OCD rules.

COMES NOW, Wildcat Energy, L.L.C., and pursuant to NMSA §38-1-14 gives notice that on the 21st day of October, 2024, it filed its Original Complaint against **Jonathan Samaniego** and **American Energy Resources, LLC**, in the above-referenced matter:

1. The purpose of this suit is to obtain judgment for debt and money due, rescission of the deeds at issue, and quieting title forever in the Property in favor of Plaintiff Wildcat Energy, L.L.C..
2. The real property at issue is Section 7: Lot 1, Insofar and only insofar as said Lot 1 covers operating rights from the surface down to a Depth of 1,452 feet and below 11,600 feet, T20S-R29E NMPM, consisting of the Superior-Fed KJ Com #1 and associated mineral rights (the "Superior Well"). See attached Exhibit 2 to the attached Exhibit A for a complete description.
3. A copy of the filed complaint is attached hereto as Exhibit A and incorporated by reference. The Complaint sets forth (i) the names of the parties to this action; (ii) description of the property, real and personal, affected by this action, and (iii) the interests of the parties.
4. The entire world is hereby put on notice of Plaintiff's claims to the Superior Well.
5. Pursuant to NMRA §38-1-14, this Notice of Lis Pendens need not be acknowledged to entitle it to be recorded.

COMES NOW, Wildcat Energy, L.L.C., by and through her counsel, and files her Original Complaint against **Jonathan Samaniego** and **American Energy Resources, LLC**, and states:

I. SUMMARY OF COMPLAINT

1. This action is to recover an ownership interest in an oil and gas well and lease in Eddy County, New Mexico, that Defendants stole from Plaintiff.

II. PARTIES, JURISDICTION AND VENUE

2. Plaintiff **Wildcat Energy LLC** ("*Plaintiff*" or "*Wildcat*") is a Texas limited liability company with an address of PO Box 13323 Odessa, Texas, 79768-3323.
3. Defendant **Jonathan Samaniego** ("*Samaniego*") is an individual resident of Eddy County and may be served with process at 511 Leavel Drive, Carlsbad, New Mexico or at the residence at 294 Des Moines Road, Hagerman, New Mexico, or wherever he may be found.
4. Defendant **American Energy Resources, LLC** ("*American Energy*") is a New Mexico limited liability company with its primary place of business in Eddy County, New Mexico. American Energy may be served with process at its mailing address, P.O. Box 425 Loving, New Mexico, 88256, at its principal place of business, 3103 National Parks Highway, Carlsbad, NM 88220, or through its registered agent, Jonathan Samaniego, 511 Leavel Drive, Carlsbad New Mexico, 88220, or wherever he may be found. Defendant Samaniego is the managing member and an owner of Defendant American Energy.
5. Defendant Samaniego performed his wrongful conduct at issue herein as an agent, manager and/or representative of Defendant American Energy Resources, LLC.
6. This Court has personal and subject matter jurisdiction over this matter because Defendants reside in Eddy County, New Mexico, because Defendants regularly engage in business in Eddy County, the real property at issue is in Eddy County, New Mexico, and/or the causes of action arise out of conduct in Eddy County, New Mexico.
7. Venue is proper in Eddy County, New Mexico, pursuant to NMSA 1978 § 38-3-1 because:

- a. Defendants are residents of Eddy County, New Mexico;
- b. The causes of action and/or occurrences at issue originated in Eddy County; and/or
- c. The lands or an interest in lands are the object of this suit in whole or in part, and such lands are situated in Eddy County, New Mexico.

III. FACTUAL BACKGROUND

8. Plaintiff files this lawsuit because it was swindled out of property by Jonathan Samaniego.
9. In fact, Jonathan Samaniego has swindled many other people and entities out of their property.
10. In 2018, Wildcat became one of the many victims of Jonathan Samaniego.
11. The property at issue in this lawsuit is the Superior-Fed KJ Com #1 (the "*Superior Well*") located in Eddy County, Section 7, Township 20S, Range 29E.
12. The legal description of the Superior Well is Section 7: Lot 1, Insofar and only insofar as said Lot 1 covers operating rights from the surface down to a Depth of 1,452 feet and below 11,600 feet. T20S-R29E NMPM. Section 6: Lots 6 & 7, E/2 SW/4, SE/4. Section 7: NE/4 NW/4 (See Exhibit 2).
13. Defendant Samaniego contacted Plaintiff in early 2018 about acquiring three non-producing wells in Eddy County from Plaintiff: The Rio Penasco KD #3 (the "*Rio Penasco Well*"); the Henry 2 Well and the SAIK Well.¹
14. Plaintiff and Defendants agreed Plaintiff would transfer Defendants those three wells in Eddy County.
15. The agreement was for the transfer of *only* those three wells in Eddy County.
16. Plaintiff executed three separate conveyance documents for those three wells: Three wells and three separate agreements.
17. Plaintiff (through President Roger Becker) executed the Assignment, Bill of Sale, and Conveyance (the "*Assignment*") on November 26, 2018 transferring the Rio Penasco Well.
18. Attached as Exhibit 1 hereto is the Assignment transferring the Rio Penasco Well.

¹ The agreement included another well in Lea County that Plaintiff also transferred by separate agreement.

19. The Assignment states Plaintiff transfers all property and interests in "Exhibit A."
20. When Plaintiff executed the Assignment, the document was only four pages long and contained only one page marked Exhibit "A."
21. When Plaintiff executed the Assignment, Exhibit A only included the Rio Penasco Well.
22. Defendants subsequently added an additional Exhibit "A" -- a fifth page -- to the Assignment and recorded it on December 17, 2018.
23. The fifth page of the Assignment -- the mysterious extra Exhibit A -- is attached hereto as Exhibit 2.
24. The fifth page of the Assignment purports to provide the Superior Well is part of Exhibit A and thus part of the Plaintiff's conveyance.
25. The fifth page of the Assignment was fraudulently added by the Defendants after Plaintiff signed and executed the document.
26. Alternatively, Plaintiff certainly did not intend to sign and convey a deed to Defendants conveying them the Superior Well or any interests in the Superior Well.
27. Plaintiff agreed to transfer to Defendants the Rio Penasco Well.
28. Defendants provided no consideration to Plaintiff at all, and certainly no consideration for the Superior Well.
29. Plaintiff did not intend to and would not have conveyed to Defendants the Superior Well.
30. The Superior Well is worth over \$200,000.00.
31. Defendant Samaniego is the president and owner of Defendant American Energy Resources, LLC.
32. Defendant Samaniego is the alter ego of Defendant American Energy.
33. Defendants now claim they own the Superior Well.
34. Defendants never provided any (or sufficient) consideration for the Superior Well.
35. Defendants simply swindled Plaintiff out of its property, through slight-of-hand, forgery and/or fraud.
36. Plaintiff did not discover the wrongs alleged herein until this year, 2024.

37. Plaintiff brings this suit to recover its property, to quiet title in the property, and to procure all of Plaintiff's actual damages, as well as punitive damages and restitution of all ill-gotten gain.

IV. CAUSES OF ACTION

Count One: Conversion, Forgery, Mistake, Failure of Acknowledgement and Rescission

38. Plaintiff incorporates the above and below paragraphs.
39. Plaintiff pleads conversion, forgery, mistake, and/or failure of acknowledgement.
40. Plaintiff did not agree to sell the Superior Well, or any portion of the Superior Well, to Defendants for any price.
41. Plaintiff certainly did not agree to sell Defendant Samaniego the Superior Well worth over \$200,000.00 for no monetary compensation.
42. Plaintiff contends the Assignment including the fifth page is a forgery and it was not signed with the fifth page added.
43. To the extent the Assignment contained the fifth page, it was the result of trickery, artifice and fraud, and was not knowingly and willingly signed by Plaintiff.
44. Plaintiff has a superior possessory interest in the Superior Well.
45. Defendants intentionally interfered with Plaintiff's possession and ownership and/or converted the Superior Well.
46. Defendants are liable to Plaintiff for actual damages resulting from the improper forgery and/or conversion of the Superior Well.
47. Defendants and/or their agents' actions and omissions were intentional, wanton, willful, malicious, and/or reckless in their actions.

AFFIDAVIT OF ROGER BECKER

I, Roger Becker, state and present this Affidavit under oath as being accurate and true to the best of my knowledge.

I am over 18 years of age, have personal knowledge of the matters in this affidavit, and am competent to address these matters.

I am the President of Wildcat Energy LLC ("Wildcat") and have held this position for 24 years. I have been involved in the oil and gas industry for more than 45 years, and I am fully familiar with what constitutes a prudent operator acting in good faith pursuant to the customs and standards of the oil and gas industry.

On November 26, 2018, I executed an assignment of oil and gas leases ("Subject Leases") to American Energy Resources LLC ("AER"), owned by Jonathan Samaniego, as part of AER purchasing several non-producing wells, including the non-producing Saik #001 Well (API No. 30-015-20971) ("Saik Well"). Most of the Subject Leases are at least 50 years old or

older and all of them were executed and filed in the 1960s and 1970s. At the time they were executed and filed, they covered the N/2 of Section 17, Township 22 South, Range 27 East, NMPM, Eddy County, New Mexico, and were associated with the Saik Well. Their primary terms had expired long ago and the Saik Well ceased producing in 2008 and for 16 years thereafter. I have never paid shut-in royalty fees on these leases. There is every indication by the terms of the leases, the history of lack of production, and the standards of the oil and gas industry, that the Subject Leases, have expired and terminated by their own terms in relation to the Saik Well, which is a non-productive well consisting only of salvage equipment and materials.

I am fully aware of the standards and customs of the oil and gas industry can state that a prudent operator would never attempt to operate, recompleat or produce a non-producing well based on the current status and circumstances of the Subject Leases. As an operator myself, had I acquired a non-producing well such as the Saik Well, and wanted to produce the well, I would have entered into new leases with mineral owners on which to base production of the well. A prudent operator acquiring a non-producing well would review the history of production, the status of the leases, and the chain of title from the Subject Leases forward and note any constructive and actual notice of newer leases having been taken since the execution of the Subject Leases. To produce a well without taking such prudent measures would result in illegitimate and unauthorized production and transgressions such as trespass and conversion and certainly the violation of correlative rights and waste.

FURTHER AFFIANT SAYETH NAUGHT

A handwritten signature in blue ink, appearing to read "R.L. Becker", is written over a horizontal line.

**[PROPOSED] ORDER OF THE COMMISSION TO REVIEW AND
DETERMINE THE NEED TO PLUG THE SAIK #001 WELL**

THIS MATTER came before the New Mexico Oil Conservation Commission (“Commission”) as a “Written Application for De Novo Hearing and Emergency Stay of Division Order” in the above-referenced cases, filed by American Energy Resources LLC (“AER”), as represented *pro se* by Jonathan Samaniego.

AER claims to own leasehold interest in the N/2 of Section 17, Township 22 South, Range 27 East, NMPM, Eddy County, New Mexico (“Saik Lands”), which is approximately 320 acres, more or less, within Sections 17 and 18, Township 22 South, Range 27 East, NMPM, Eddy County, New Mexico (“Subject Lands”), and therefore AER claims it has a right to object to the above-referenced pooling orders (Order Nos. R-23961, R-23989, and R-23977) issued to AEP II Operating, LLC, an affiliate of Alpha Energy Partners II, LLC. Furthermore, AER claims it is the operator of the Saik #001 Well (API No. 30-015-20971) (“Saik Well”) located within the Saik Lands.

The Commission does not have jurisdiction to determine the validity of any title or the continuation in force and effect of any oil and gas lease. *See* R-11700-B, ¶ 27. However, the Commission recognizes it is the responsibility of a party who claims a right to produce and operate a well to support claims under a good faith claim to title and a good faith belief that it is authorized to drill, recomplete, produce, and/or operate the well. *See Id.* at 28. And, when a party or operator avails itself of the jurisdiction of the Commission, the party subjects itself to the valid authority of the Commission to determine the “good faith” element of any claim to title or operatorship, over which the Commission does have the authority to exercise under the New Mexico Oil and Gas Act (“OGA”), NMSA 1978 § 70-2-1, *et seq.* in order to fulfill its duties of protecting correlative rights and preventing waste. *See, e.g.*, OCC Order No. R-21416, ¶ 9. Under

its authority, the Commission can determine whether a party or operator took the proper steps to ensure that its claim to title is a “good faith claim;” the Commission can determine whether such steps reflect the steps a “prudent” operator would take under the standards and customs of the oil and gas industry; and once a party presents to the Division and/or Commission its good faith claim to title in the form of an ownership exhibit, the Commission has the jurisdiction and authority to make decisions to protect correlative rights based on the percentages of working interest presented and assigned to the owners in the exhibit. *See id.*

The three-prong test that Alpha Energy Partners II, LLC (“Alpha”), proposes in its response is well taken, and the Commission adopts it as the proper method for addressing the kinds of issues and matters raised by the present cases. Pursuant to review of AER’s claims, the Commission finds that the claims were not made in “good faith” and do not demonstrate the type of “prudence” necessary for the claims to have merit. AER misrepresents and misapplies NMSA 1978 § 70-1-5, which does not support a good faith claim to title. Furthermore, a prudent operator would have reviewed the county records, updated the ownership of fifty-year-old leases, and provided an ownership exhibit for the Division and Commission to review, which AER has not done. Therefore, the Commission finds as persuasive the Division’s finding that “AER did not provide evidence that demonstrates AER had an interest in the Unit,” thereby AER has not made a “good faith” claim before the Division and Commission. *See* Order No. R-23961, ¶ 15.

Furthermore, Alpha has provided an updated ownership exhibit to the Commission showing what it proposes to be the current ownership of the Subject Lands, as supported by Alpha’s due diligence of reviewing the county records for signs of constructive and actual notice and reviewing the Saik Well’s production records, in accordance with the precautions a prudent operator would undertake before attempting to drill, recomplete, operate, or produce a well.

On the basis of evidence presented in Alpha’s response, the Commission finds and concludes the following: (1) AER has not shown or satisfied the requirement of “good faith” in the support of its claims; (2) the Saik Well has shown no production for at least sixteen (16) years since 2008, resulting in the issuance in 2017 of a Letter of Violation (“NOV”) to address the lack of production, which included a request to plug and abandon the Saik Well; (3) although AER initiated actions as early as 2018 to acquire the Saik Well and subsequently assumed responsibility for operation of the well, the NOV received no response for more than seven (7) years; and (4) because AER has failed to make a good faith claim and establish a good faith belief that it has a right to produce and receive production from the Saik Well, the correlative rights of more than 700 owners waiting for their just and equitable share of production under Order No. Order Nos. R-23961, R-23989, and R-23977 are directly threatened and harmed by the prospect of the Saik Well taking their hydrocarbons if allowed to be produced.

Thus, based on these findings and conclusions and on the authority granted to the Commission by the Letter of Violation dated March 2, 2017, the Commission will exercise its jurisdiction during the proceedings of the present cases to enforce the Letter of Violation by reviewing the need for AER to plug and abandon the Saik Well. The Letter of Violation has not received a response or compliance by its stated Corrective Action Due Date (June 5, 2017) and was disregarded with no response for seven (7) years after AER initiated purchase of the Saik Well and acquired its leases for the Well in 2018. By submission of OCD Form C-145, AER designated itself as operator of the Saik Well, with full responsibility of the well and claiming operatorship of the Saik Well as the basis for its standing in this hearing before the Commission. Therefore, AER will be given the opportunity, as provided by the Letter of Violation, to show

cause why, as operator, it should not be ordered to permanently plug and abandon the Saik Well, with opportunity for Alpha to respond; after which, the Commission will make a final ruling on the plugging of the Saik Well.

IT IS SO ORDERED.
