APPLICATION OF LONGFELLOW ENERGY, L.P.
FOR COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO

CASE NO. 25804

THIRD NOTICE OF REVISED EXHIBITS

Longfellow Energy, L.P. (“LFE”), applicant in the above referenced case, gives notice that it is filing the attached revised exhibits for acceptance into the record.

LFE Revised CPAC is a checklist that corrects typos.

LFE Revised Exhibit A-1 are revised C-102s that remove the signature from the certification block and include the pool name and pool code.

LFE Revised Exhibit A-2 corrects the well names on page 1 and the total acreage in Tract 2 on page 2 of the exhibit.

LFE Revised Exhibit B that removes duplicate information already included in the proposal (Exhibit A-4).

Respectfully submitted,

HOLLAND & HART LLP

OIL CONSERVATION DIVISION**

**APPLICATION OF LONGFELLOW ENERGY, L.P.
FOR COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO**

Case No. 25804

APPLICATION

Longfellow Energy, LP, OGRID No. 372210 ("Longfellow" or "Applicant"), through its undersigned counsel Spencer Fane, LLP (Sharon T. Shaheen), hereby files this application with the Oil Conservation Division pursuant to the provisions of NMSA 1978, § 70-2-17, for an order pooling all mineral interests in the Yeso formation (CEDAR LAKE; GLORIETA-YESO [96831]) in a standard ~320-acre, more or less, horizontal spacing and proration unit ("HSU"), with proximity tracts, comprised of the South Half of Section 33, Township 16 South, Range 31 East in Eddy County, New Mexico. In support of its application, Longfellow states as follows:

1. Longfellow is a working interest owner in the proposed HSU and has the right to drill thereon.
2. Longfellow seeks to dedicate the following eight ~1.0-mile wells to the proposed HSU:
 - Van Halen 33CD Fed Com 001H, well, to be horizontally drilled from a SHL approximately 1,802' FEL & 2,251' FSL of Section 32-16S-31E and a bottomhole location approximately 20' FEL & 2,310' FSL of Section 33-16S-31E;
 - Van Halen 33CD Fed Com 002H well, to be horizontally drilled from a SHL approximately 1,800' FEL & 2,231' FSL of Section 32-16S-31E and a bottomhole location approximately 20' FEL & 2,158' FSL of Section 33-16S-31E;
 - Van Halen 33CD Fed Com 003H well, to be horizontally drilled from a SHL approximately 1,798' FEL & 2,211' FSL of Section 32-16S-31E and a bottomhole location approximately 20' FEL & 1,784' FSL of Section 33-16S-31E;
 - Van Halen 33CD Fed Com 004H well, to be horizontally drilled from a SHL approximately 1,796' FEL & 2,191' FSL of Section 32-16S-31E and a bottomhole location approximately 20' FEL & 1,409' FSL of Section 33-16S-31E;

- Van Halen 33CD Fed Com 005H well, to be horizontally drilled from a SHL approximately 1,780' FEL & 1,117' FSL of Section 32-16S-31E and a bottomhole location approximately 20' FEL & 1,249' FSL of Section 33-16S-31E.
- Van Halen 33CD Fed Com 006H well, to be horizontally drilled from a SHL approximately 1,791' FEL & 1,101' FSL of Section 32-16S-31E and a bottomhole location approximately 20' FEL & 874' FSL of Section 33-16S-31E.
- Van Halen 33CD Fed Com 007H well, to be horizontally drilled from a SHL approximately 1,803' FEL & 1,084' FSL of Section 32-16S-31E and a bottomhole location approximately 20' FEL & 500' FSL of Section 33-16S-31E.
- Van Halen 33CD Fed Com 008H well, to be horizontally drilled from a SHL approximately 1,814' FEL & 1,068' FSL of Section 32-16S-31E and a bottomhole location approximately 20' FEL & 339' FSL of Section 33-16S-31E.

3. The Van Halen 33CD Fed Com 005H well is a proximity well.

4. With the proximity tracts, the completed intervals will meet the standard setback requirements. The first and last take points will meet the standard setback requirements.

5. Longfellow has in good faith sought and been unable to obtain voluntary agreement for the development of these lands from all of the mineral interest owners in the HSU.

6. Approval of the proposed HSU and the pooling of all mineral interest owners in the Yeso formation underlying the HSU will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.

7. In order to permit Longfellow to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in this HSU should be pooled and Longfellow should be designated the operator of the HSU.

WHEREFORE, Longfellow requests that this application be set for hearing before an examiner of the Oil Conservation Division on October 9, 2025, and that, after notice and hearing as required by law, the Division enter an order:

A. Approving a standard 320-acre, more or less, HSU, with proximity tracts, comprised of the South Half of Section 33, Township 16 South, Range 31 East in Eddy County, New Mexico;

- B. Pooling all mineral interests in the Yeso formation underlying the HSU;
- C. Allowing the drilling of the following eight ~1.0-mile wells in the proposed HSU: Van Halen 33CD Fed Com 001H, Van Halen 33CD Fed Com 002H, Van Halen 33CD Fed Com 003H, Van Halen 33CD Fed Com 004H, Van Halen 33CD Fed Com 005H, Van Halen 33CD Fed Com 006H, Van Halen 33CD Fed Com 007H, and Van Halen 33CD Fed Com 008H.
- D. Designating Longfellow as operator of the HSU and the wells to be drilled thereon;
- E. Authorizing Longfellow to recover its costs of drilling, equipping, and completing the wells;
- F. Approving the operating charges and costs of supervision while drilling of \$12,000/month and, after completion, \$1,200/month, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- G. Imposing a 200% penalty for the risk assumed by Longfellow in drilling and completing the well against any interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

SPENCER FANE, LLP

Attorneys for Longfellow Operating Partners, LLC

Application of Longfellow Operating Partners, LLC for Compulsory Pooling, Eddy County, New Mexico. Applicant in the above-styled cause seeks an order from the Oil Conservation Division approving a standard ~320-acre horizontal spacing and proration unit (“HSU”), with proximity tracts, comprised of the South Half of Section 33, Township 16 South, Range 31 East in Eddy County, New Mexico and pooling all mineral interests in the Yeso formation (CEDAR LAKE; GLORIETA-YESO [96831]) underlying the HSU. Applicant proposes to drill the following 1.0-mile wells in the HSU: Van Halen 33CD Fed Com 001H, well, to be horizontally drilled from a surface hole location (“SHL”) approximately 1,802' FEL & 2,251' FSL of Section 32-16S-31E and a bottomhole location (“BHL”) approximately 20' FEL & 2,310' FSL of Section 33-16S-31E; Van Halen 33CD Fed Com 002H well, to be horizontally drilled from a SHL approximately 1,800' FEL & 2,231' FSL of Section 32-16S-31E and a BHL approximately 20' FEL & 2,158' FSL of Section 33-16S-31E; Van Halen 33CD Fed Com 003H well, to be horizontally drilled from a SHL approximately 1,798' FEL & 2,211' FSL of Section 32-16S-31E and a BHL approximately 20' FEL & 1,784' FSL of Section 33-16S-31E; Van Halen 33CD Fed Com 004H well, to be horizontally drilled from a SHL approximately 1,796' FEL & 2,191' FSL of Section 32-16S-31E and a BHL approximately 20' FEL & 1,409' FSL of Section 33-16S-31E; Van Halen 33CD Fed Com 005H well, to be horizontally drilled from a SHL approximately 1,780' FEL & 1,117' FSL of Section 32-16S-31E and a BHL approximately 20' FEL & 1,249' FSL of Section 33-16S-31E; Van Halen 33CD Fed Com 006H well, to be horizontally drilled from a SHL approximately 1,791' FEL & 1,101' FSL of Section 32-16S-31E and a BHL approximately 20' FEL & 874' FSL of Section 33-16S-31E; Van Halen 33CD Fed Com 007H well, to be horizontally drilled from a SHL approximately 1,803' FEL & 1,084' FSL of Section 32-16S-31E and a BHL approximately 20' FEL & 500' FSL of Section 33-16S-31E; and Van Halen 33CD Fed Com 008H well, to be horizontally drilled from a SHL approximately 1,814' FEL & 1,068' FSL of Section 32-16S-31E and a BHL approximately 20' FEL & 339' FSL of Section 33-16S-31E. The Van Halen 33CD Fed Com 005H well is a proximity well. With proximity tracts, the completed intervals will meet standard setback requirements. The first and last take points will meet the setback requirements set forth in the statewide rules for horizontal oil wells. Additional considerations will be the cost of drilling and completing the well and allocation of such costs, the designation of Applicant as operator of the HSU and wells to be drilled thereon, and a 200% charge for the risk involved in drilling and completing the well. The well and lands are located approximately 6 miles West of Maljamar, New Mexico.

APPLICATION OF LONGFELLOW ENERGY, L.P.
FOR COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO

Case No. 25804

SELF-AFFIRMED STATEMENT OF LANDMAN STUART GASTON

I, Stuart Gaston, do hereby state and affirm the following:

1. I am over the age of 18 and have the capacity to execute this statement, which is based on my personal knowledge.
2. I am a landman employed as Senior Landman with Longfellow Energy, L.P. (“LFE” or “Applicant”), and I am familiar with the subject application and the lands involved.
3. This testimony is submitted in connection with the filing by LFE of the above-referenced compulsory pooling application (the “Application”) pursuant to 19.15.4.12(A)(1) NMAC.
4. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum land matters. My credentials as a petroleum landman have previously been accepted by the Division and made a matter of record. A summary of my education and work experience is as follows: I graduated from Texas Tech University in 2012 with a Bachelor’s Degree in Business Management and Texas Tech University in 2017 with a Master’s Degree in Business Administration. I worked as a landman for various oil and gas companies since 2013 and have been employed with LFE as Senior Landman since 2022.

5. In this case, LFE seeks an order pooling all uncommitted mineral interests in the Yeso formation (CEDAR LAKE; GLORIETA-YESO [96831]) in a standard ~320-acre, more or

less, horizontal spacing and proration unit (“HSU”), with proximity tracts, comprised of the South Half of Section 33, Township 16 South, Range 31 East in Eddy County, New Mexico.

6. LFE proposes to drill the following one-mile wells in the proposed HSU:

- Van Halen 33CD Fed Com 001H well, to be horizontally drilled from a SHL approximately 1,802' FEL & 2,251' FSL of Section 32-16S-31E and a bottomhole location approximately 20' FEL & 2,310' FSL of Section 33-16S-31E. The first take point will be approximately 100' FWL and 2,310' FSL of Section 33-16S-31E, and the last take point will be located approximately 100' FEL and 2,310' FSL of Section 33-16S-31E.
- Van Halen 33CD Fed Com 002H well, to be horizontally drilled from a SHL approximately 1,800' FEL & 2,231' FSL of Section 32-16S-31E and a bottomhole location approximately 20' FEL & 2,158' FSL of Section 33-16S-31E. The first take point will be approximately 100' FWL and 2,158' FSL of Section 33-16S-31E, and the last take point will be located approximately 100' FEL and 2,158' FSL of Section 33-16S-31E.
- Van Halen 33CD Fed Com 003H well, to be horizontally drilled from a SHL approximately 1,798' FEL & 2,211' FSL of Section 32-16S-31E and a bottomhole location approximately 20' FEL & 1,784' FSL of Section 33-16S-31E. The first take point will be approximately 100' FWL and 1,784' FSL of Section 33-16S-31E, and the last take point will be located approximately 100' FEL and 1,784' FSL of Section 33-16S-31E.
- Van Halen 33CD Fed Com 004H well, to be horizontally drilled from a SHL approximately 1,796' FEL & 2,191' FSL of Section 32-16S-31E and a bottomhole location approximately 20' FEL & 1,409' FSL of Section 33-16S-31E. The first take point will be approximately 100' FWL and 1,409' FSL of Section 33-16S-31E, and the last take point will be located approximately 100' FEL and 1,409' FSL of Section 33-16S-31E.
- Van Halen 33CD Fed Com 005H well, to be horizontally drilled from a SHL approximately 1,780' FEL & 1,117' FSL of Section 32-16S-31E and a bottomhole location approximately 20' FEL & 1,249' FSL of Section 33-16S-31E. The first take point will be approximately 100' FWL and 1,249' FSL of Section 33-16S-31E, and the last take point will be located approximately 100' FEL and 1,249' FSL of Section 33-16S-31E.
- Van Halen 33CD Fed Com 006H well, to be horizontally drilled from a SHL approximately 1,791' FEL & 1,101' FSL of Section 32-16S-31E and a bottomhole location approximately 20' FEL & 874' FSL of Section 33-16S-31E. The first take point will be approximately 100' FWL and 874' FSL of Section 33-16S-31E, and the last take point will be located approximately 100' FEL and 874' FSL of Section 33-16S-31E.

- Van Halen 33CD Fed Com 007H well, to be horizontally drilled from a SHL approximately 1,803' FEL & 1,084' FSL of Section 32-16S-31E and a bottomhole location approximately 20' FEL & 500' FSL of Section 33-16S-31E. The first take point will be approximately 100' FWL and 500' FSL of Section 33-16S-31E, and the last take point will be located approximately 100' FEL and 500' FSL of Section 33-16S-31E.
- Van Halen 33CD Fed Com 008H well, to be horizontally drilled from a SHL approximately 1,814' FEL & 1,068' FSL of Section 32-16S-31E and a bottomhole location approximately 20' FEL & 339' FSL of Section 33-16S-31E. The first take point will be approximately 100' FWL and 339' FSL of Section 33-16S-31E, and the last take point will be located approximately 100' FEL and 339' FSL of Section 33-16S-31E.

7. The Van Halen 33CD Fed Com 005H well is a proximity well. With the proximity tracts, the completed intervals will meet standard setback requirements.

8. The first and last take points of all wells will meet standard setback requirements.

9. Approval of the HSU and pooling of all mineral interest owners therein will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.

10. A Form C-102 for each well is included as **Exhibit A-1**. The Form C-102 also indicates the locations of each surface hole, bottom hole, and the first and last take points.

11. A plat of the proposed spacing unit showing tracts, lists of tract ownership, and applicable lease numbers are included in **Exhibit A-2**.

12. **Exhibit A-3** includes the unit recap, highlighting the pooled parties.

13. A sample of the well proposal letter and the authority for expenditure (“AFE”) for each well is included in **Exhibit A-4**. The estimated costs of the wells set forth in the AFEs are fair, reasonable, and comparable to the costs of other wells of similar depths and lengths drilled in this area of New Mexico.

14. A chronology of contacts with the non-joined working interest owners is attached as **Exhibit A-5**.

15. **Exhibit A-6** provides a list of owners, commitment status, and type of agreement with or notice provided to each.

16. There are no depth severances in the formations being pooled.

17. I have conducted a diligent search of the public records in Eddy County, New Mexico, where the wells will be located, and conducted phone directory and computer searches to obtain contact information for parties entitled to notification. I mailed all working interest owners a well proposal, including an Authorization for Expenditure (“AFE”), for each well.

18. LFE has made a good faith effort to obtain voluntary joinder of the working interest owners in the proposed wells.

19. LFE requests the Division to approve operating charges and costs of supervision while drilling of \$12,000/month and, after completion, \$1,200/month, together with a provision adjusting the rates pursuant to the COPAS accounting procedures.

20. LFE requests the maximum cost, plus 200% risk charge, be assessed against non-consenting working interest owners.

21. LFE requests that it be designated operator of the wells.

22. The exhibits attached hereto were prepared by me or compiled from LFE’s business records under my supervision.

23. The granting of the applications is in the interests of conservation, the prevention of waste, and the protection of correlative rights.

24. The foregoing is correct and complete to the best of my knowledge and belief.

I affirm under penalty of perjury under the laws of the State of New Mexico that this statement is true and correct.

Stuart Gaston

OPERATOR CERTIFICATIONS

I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief, and, if the well is a vertical or directional well, that this organization either owns a working interest or unleased mineral interest in the land including the proposed bottom hole location or has a right to drill this well at this location pursuant to a contract with an owner of a working interest run leased mineral interest, or to a voluntary pooling agreement or a compulsory pooling order here to fore entered by the division.

If this well is a horizontal well, I further certify that this organization has received the consent of at least one lessee or owner of a working interest or unleased mineral interest in each tract (in the target pool or formation) in which any part of the well's completed interval will be located or obtained a compulsory pooling order from the division.

Date of Survey
APRIL 30, 2025

SURVEY NO. 10423

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

OPERATOR CERTIFICATIONS

I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief, and, if the well is a vertical or directional well, that this organization either owns a working interest or unleased mineral interest in the land including the proposed bottom hole location or has a right to drill this well at this location pursuant to a contract with an owner of a working interest run leased mineral interest, or to a voluntary pooling agreement or a compulsory pooling order here to fore entered by the division.

If this well is a horizontal well, I further certify that this organization has received the consent of at least one lessee or owner of a working interest or unleased mineral interest in each tract (in the target pool or formation) in which any part of the well's completed interval will be located or obtained a compulsory pooling order from the division.

SURVEY NO. 10426

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

OPERATOR CERTIFICATIONS

I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief, and, if the well is a vertical or directional well, that this organization either owns a working interest or unleased mineral interest in the land including the proposed bottom hole location or has a right to drill this well at this location pursuant to a contract with an owner of a working interest run leased mineral interest, or to a voluntary pooling agreement or a compulsory pooling order here to fore entered by the division.

If this well is a horizontal well, I further certify that this organization has received the consent of at least one lessee or owner of a working interest or unleased mineral interest in each tract (in the target pool or formation) in which any part of the well's completed interval will be located or obtained a compulsory pooling order from the division.

SURVEYOR CERTIFICATIONS

I hereby certify that the well location shown on this plat was plotted from field notes of actual surveys made by me or under my supervision, and that the same is true and correct to the best of my belief.

Signature and Seal of Professional Surveyor
FILIMON F. JARAMILLOCertificate Number **PLS 12797** Date of Survey **APRIL 28, 2025**SURVEY NO. **10429**

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

Re: Well Proposals – Van Halen Federal Com 33CD 001H, 002H, 003H, 004H, 005H, 006H, 007H, 008H
 South Half (S/2) of Section 33-16S-31E, Eddy County, New Mexico

To whom it may concern:

Longfellow Energy, LP (“Longfellow”) hereby proposes to drill and complete the following wells “back to back”:

- Van Halen Federal Com 33CD 001H, with an approximate true vertical depth of 5,202', as a horizontal well in the Yeso formation (with an approximate measured depth of 10,885') and an estimated cost of \$6,096,876 for a completed producing well, as set forth in detail on the enclosed AFE Well Cost Estimate dated 8/01/2025. Surface Hole Location is 1,802' FEL & 2,251' FSL of Section 32-16S-31E; with a Bottom Hole Location of 20' FEL & 2,310' FSL of Section 33-16S-31E.
- Van Halen Federal Com 33CD 002H, with an approximate true vertical depth of 6,129', as a horizontal well in the Yeso formation (with an approximate measured depth of 11,782') and an estimated cost of \$6,096,876 for a completed producing well, as set forth in detail on the enclosed AFE Well Cost Estimate dated 8/01/2025. Surface Hole Location is 1,800' FEL & 2,231' FSL of Section 32-16S-31E; with a Bottom Hole Location of 20' FEL & 2,158' FSL of Section 33-16S-31E.
- Van Halen Federal Com 33CD 003H, with an approximate true vertical depth of 5,547', as a horizontal well in the Yeso formation (with an approximate measured depth of 11,239') and an estimated cost of \$6,096,876 for a completed producing well, as set forth in detail on the enclosed AFE Well Cost Estimate dated 8/01/2025. Surface Hole Location is 1,798' FEL & 2,211' FSL of Section 32-16S-31E; with a Bottom Hole Location of 20' FEL & 1,784' FSL of Section 33-16S-31E.
- Van Halen Federal Com 33CD 004H, with an approximate true vertical depth of 5,202', as a horizontal well in the Yeso formation (with an approximate measured depth of 10,960') and an estimated cost of \$6,096,876 for a completed producing well, as set forth in detail on the enclosed AFE Well Cost Estimate dated 8/01/2025. Surface Hole Location is 1,796' FEL & 2,191' FSL of Section 32-16S-31E; with a Bottom Hole Location of 20' FEL & 1,409' FSL of Section 33-16S-31E.
- Van Halen Federal Com 33CD 005H, with an approximate true vertical depth of 6,143', as a horizontal well in the Yeso formation (with an approximate measured depth of 11,796') and an estimated cost of \$6,096,876 for a completed producing well, as set forth in detail on the enclosed AFE Well Cost Estimate dated 8/01/2025. Surface Hole Location is 1,780' FEL & 1,117' FSL of Section 32-16S-31E; with a Bottom Hole Location of 20' FEL & 1,249' FSL of Section 33-16S-31E.
- Van Halen Federal Com 33CD 006H, with an approximate true vertical depth of 5,541', as a horizontal well in the Yeso formation (with an approximate measured depth of 11,215') and an estimated cost of \$6,096,876 for a completed producing well, as set forth in detail on the enclosed AFE Well Cost Estimate dated 8/01/2025. Surface Hole Location is 1,791' FEL & 1,101' FSL of Section 32-16S-31E; with a Bottom Hole Location of 20' FEL & 874' FSL of Section 33-16S-31E.

BEFORE THE OIL CONSERVATION DIVISION

Santa Fe, New Mexico

Exhibit No. A-4

Submitted by: Longfellow Energy, L.P.

Hearing Date: February 5, 2026

Case No. 25804

August 1, 2025

Van Halen Federal Com 33CD 001H, 002H, 003H, 004H, 005H, 006H, 007H, 008H

Well Proposals

- Van Halen Federal Com 33CD 007H, with an approximate true vertical depth of 5,191', as a horizontal well in the Yeso formation (with an approximate measured depth of 10,918') and an estimated cost of \$6,096,876 for a completed producing well, as set forth in detail on the enclosed AFE Well Cost Estimate dated 8/01/2025. Surface Hole Location is 1,803' FEL & 1,084' FSL of Section 32-16S-31E; with a Bottom Hole Location of 20' FEL & 500' FSL of Section 33-16S-31E.
- Van Halen Federal Com 33CD 008H, with an approximate true vertical depth of 6,139', as a horizontal well in the Yeso formation (with an approximate measured depth of 11,849') and an estimated cost of \$6,096,876 for a completed producing well, as set forth in detail on the enclosed AFE Well Cost Estimate dated 8/01/2025. Surface Hole Location is 1,814' FEL & 1,068' FSL of Section 32-16S-31E; with a Bottom Hole Location of 20' FEL & 339' FSL of Section 33-16S-31E.

To facilitate these wells and for efficient development, Longfellow proposes to form a Drilling Spacing Unit (the "DSU") covering the South Half (S/2) of Section 33-16S-31E, containing approximately 320 acres. For development of horizontal Yeso wells within the DSU, Longfellow proposes a new horizontal joint operating agreement dated January 1, 2026, a modified 2015 Horizontal AAPL Form 610 Operating Agreement, (hereinafter referred to as the "HJOA") to govern horizontal Yeso development within the DSU, to supersede existing JOAs (if any), containing the following provisions:

- Contract Area being the S/2 of Section 33-16S-31E, limited to the Yeso formation
- Applies to horizontal well development only
- 100% / 300% / 300% non-consent penalties
- \$12,000 / \$1,200 drilling and producing monthly overhead rates

According to our title examination, **Oxy USA WTP LP** owns a working interest as to the proposed DSU. We respectfully request that you select one of the following three options with regard to your interest in the proposed wells:

Option 1 - Participate with your working interest in the proposed wells, pursuant to the terms of the HJOA

Option 2 – Elect to not participate in the proposed wells, pursuant to the terms of the HJOA (an election of "Non-Consent")

Option 3 - Assign all of your leasehold rights, and the existing wells (if any) associated with those rights, in the DSU area to Longfellow for \$2,000/net acre (delivering your existing Net Revenue Interest)

Please indicate your election as to the aforesaid three options in the space provided below, and execute and return a copy of this letter to the undersigned within 30 days of receipt of this proposal. Your election of Option 1 and 2, should be returned to Longfellow by U.S. mail to the letterhead address below or email to Stuart.Gaston@longfellowenergy.com. Upon receipt of your election, I will send the HJOA for your review and execution. Should you elect to assign your interest pursuant to Option 3, please return your election and I will send an Assignment for your review and execution. If you prefer to review the HJOA prior to making an election, please request a copy by email and I will furnish for your review.

August 1, 2025

Van Halen Federal Com 33CD 001H, 002H, 003H, 004H, 005H, 006H, 007H, 008H

Well Proposals

Longfellow looks forward to working with you on this proposal and I encourage you to contact me with any questions pertaining to the proposed wells. Please be advised, to facilitate timely development, Longfellow may file with the New Mexico Oil Conservation Division for compulsory pooling of any uncommitted working interest owners. Should you have any questions concerning this matter, please contact the undersigned by phone at 972-532-8205 or by e-mail to Stuart.Gaston@longfellowenergy.com.

Sincerely,

LONGFELLOW ENERGY, LP

Stuart Gaston
Senior Landman

Option 1. The undersigned elects to participate in the drilling and completion of the proposed wells. Enclosed please find the executed AFEs please forward me the HJOA for my execution.

Option 2. The undersigned elects to not participate in the drilling and completion of the proposed wells, pursuant to the non-consent provisions of the HJOA. Please forward me the HJOA for my execution.

Option 3. The undersigned elects to assign all of its leasehold rights, and the wells associated with those rights (if any), in the South Half (S/2) of Section 33-16S-31E to Longfellow for \$2,000 per net acre, delivering our existing Net Revenue Interest.

AGREED to and ACCEPTED this _____ day of _____, 2025.

Longfellow LH, LLC			
JR Oil, Ltd. PO BOX 53657 Lubbock, TX 79453			Initial Well Proposal sent Certified Mail on August 1, 2025 Delivered on August 5th, 2025 Spoke with representative from company on August 5th. Email correspondence on August 6th related to Leasehold Title. Followed up December 4th on the Well Proposals with Title Opinion Excerpt related to this interest, no election has been received, but representative indicated management was reviewing
BP America Production Company ** 501 Westlake Park Blvd. Houston, TX 77079			Initial Well Proposal sent Certified Mail on August 1, 2025 Delivered on August 5th, 2025 Received email from Land Representative on September 8th, 2025 confirming receipt of the Well Proposals. Also requested additional information on Leasehold Title. Responded back with information and documents related to Leasehold Title into BP on September 8th, 2025 Followed up December 4th on the Well Proposals with Title Opinion Excerpt related to this interest. On December 9th, 2025 sent a form of JOA for Land Representative to review. On December 17th, 2025 BP's landman reached out via email to inform Longfellow that through title review of Purchase and Sales Agreements between BP and Apache Corp. It was their belief that the Leasehold should have been conveyed to Apache, although this interest was not directly referenced in the Assignment.
Apache Corporation ** 2000 W Sam Houston Pkwy S, Suite 200, Houston, Texas 77042			Emailed Apache on December 17th, 2025 after being made aware of the possible ownership Notices of Application for CPO went out on December 18th, 2025
Hilcorp Energy 1, L.P. ** 1111 Travis St, Houston, TX 77002			On December 18th, 2025, called and discussed the well proposal with Hilcorp Energy1, L.P. as successor to Apache Corp. Sent Well Proposals via email to their Landman. Notice of Application for CPO sent out on December 18th, 2025
OXY USA WTP Limited Partnership 5 E Greenway Plaza Houston, TX 77046			Initial Well Proposal sent Certified Mail on August 1, 2025 Delivered on August 4th, 2025 Emailed Well Proposals on 8/01/2025 with WI & NRI, upon request sent over draft JOA for Review. Phone calls occurred after the initial well proposals to discuss timing of drilling and possible carry structure or assignment.

		Fullerton Oil & Gas Corporation 380 E. Green St. Pasadena, CA 91105	Notices of Application for Compulsory Pooling Order Sent out December 15, 2025

** Longfellow's Division Order Title Opinion for the proposed spacing unit in this matter indicated that BP Production Company ("BP") has 8.33% Working Interest in the proposed unit ("BP Interest"). In communicating with BP about this interest, Longfellow was informed by BP that the BP Interest was sold to Apache Corporation. Upon information and belief, the BP Interest was subsequently sold by Apache to Hilcorp Energy 1, L.P. ("Hilcorp"). Neither sale is currently reflected in record chain of title. Longfellow is working with BP, Apache, and Hilcorp to clarify the current ownership of the BP Interest. Upon resolution, Longfellow will attribute the BP Interest to the current owner. All parties have been provided notice of this proceeding.

STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION

APPLICATION OF LONGFELLOW ENERGY, L.P.
FOR COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO

CASE NO. 25804

SELF-AFFIRMED STATEMENT OF GEOLOGIST JACOB S. DEHAMER

I, Jacob S. DeHamer, do hereby state and affirm the following:

1. I am over the age of 18 and have the capacity to execute this statement, which is based on my personal knowledge.
2. I am a Geologist for Longfellow Energy, L.P. ("LFE") and am familiar with the subject applications and geology involved.
3. This testimony is submitted in connection with the filing by LFE of the above-referenced compulsory pooling application pursuant to 19.15.4.12(A)(1) NMAC.
4. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum geology matters. My credentials as a petroleum geologist have been accepted by the Division and made a matter of record. A summary of my education and work experience is as follows: I graduated from Calvin College in 2006 with a Bachelor's of Science in Geology and from Louisiana State University in 2010 with a Master's Degree in Applied Geology. I have worked as a petroleum geologist in the oil and gas industry for 17 years. I have been employed with LFE in its geology department since 2022 and have worked on New Mexico oil and gas matters since that time.
5. **Exhibit B-1** is a general location map indicating the location of the proposed horizontal spacing units ("HSU").

BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico
Revised Exhibit No. B
Submitted by: Longfellow Energy, L.P.
Hearing Date: February 5, 2026
Case No. 25804

6. **Exhibit B-2** is a subsea structure map and cross-section map showing the structure of the top of the Yeso formation. Contour interval is 50 feet. The Yeso structure dips W to E in the Van Halen 33CD unit. The cross section referenced in Exhibit B-3 is annotated.

7. **Exhibit B-3** is a stratigraphic cross section showing the gross stratigraphic section of the Paddock and Blinebry members of the Yeso formation. The total gross thickness of the Yeso section in the Van Halen 33CD unit is approximately 1,400 feet thick.

8. Based on my geologic study of the area, I conclude the following:

- a. The horizontal spacing unit is justified from a geologic standpoint.
- b. There are no structural impediments or faulting that will interfere with horizontal development.
- c. Each quarter-quarter section in the Yeso HSUs will contribute more or less equally to production.
- d. The planned W-E well orientation is consistent with horizontal development along the Yeso Trend.

12. The exhibits to this testimony were prepared by me or compiled from LFE's business records.

13. The granting of the Application is in the interests of conservation, the prevention of waste, and the protection of correlative rights.

14. The foregoing is correct and complete to the best of my knowledge and belief.

I affirm under penalty of perjury under the laws of the State of New Mexico that this statement is true and correct.

SELF-AFFIRMED STATEMENT OF
PAULA M. VANCE

1. I am attorney in fact and authorized representative of Longfellow Energy, LP (“Longfellow”), the Applicant herein. I have personal knowledge of the matter addressed herein and am competent to provide this self-affirmed statement.

2. I conferred with Sharon T. Shaheen, with the law firm Spencer Fane, regarding notice for this matter completed by her office and reviewed the associated materials. Attached is her statement of notice (previously filed), along with the notice information completed by her office.

3. I affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statements are true and correct. I understand that this self-affirmed statement will be used as written testimony in this case. This statement is made on the date next to my signature below.

AFFIRMATION OF NOTICE

I, Sharon T. Shaheen, attorney for LONGFELLOW ENERGY, L.P. ("Longfellow"), Applicant in the above-captioned matter, state and affirm the following:

I caused notice of the application to be sent by certified mail through the United States Postal Service on December 15, 2025 and December 18, 2025, to all interest owners sought to be pooled in this proceeding. Sample notice letters to all interested parties are attached hereto as Exhibit C-1. A chart showing the results of certified mailing is attached as Exhibit C-2, and the certified mailing receipts and returns are attached as Exhibit C-3. Notice was also directed by publication in the Carlsbad Current Argus on December 18, 2025, to all such owners whose interest was evidenced by a written conveyance document either of record or known to the applicant at the time the applicant filed the application, as shown in the Notice attached hereto as Exhibit C-4. In addition, notice was provided by electronic mail to Hilcorp Energy 1, LP ("Hilcorp"), which thereafter indicated in writing that Hilcorp does not oppose this application so long as Hilcorp can sign a joint operating agreement after hearing in this matter. *See* Exhibit C-5, attached hereto. The attached exhibits demonstrate to my satisfaction that all owners sought to be pooled were properly served.

Longfellow has conducted a good faith, diligent effort to find the names and correct addresses for the interest-owners entitled to receive notice of the Application filed herein.

I affirm under penalty of perjury under the laws of the State of New Mexico that this statement is true and correct.

Re: Case No. 25804 – Application of Longfellow Energy, L.P. for Compulsory Pooling, Eddy County, New Mexico – Van Halen 33CD Fed Com 001H through Van Halen 33CD Fed Com 008H Wells

Dear Interest Owner:

This will advise that pursuant to NMSA 1978, § 70-2-17, LONGFELLOW ENERGY, L.P. has filed an application with the New Mexico Oil Conservation Division seeking an order pooling all uncommitted interests in the proposed wells described below. You are receiving this notice because you may have an interest in these wells.

Case No. 25804. Application of Longfellow Operating Partners, LLC for Compulsory Pooling, Eddy County, New Mexico. Applicant in the above-styled cause seeks an order from the Oil Conservation Division approving a standard ~320-acre horizontal spacing and proration unit (“HSU”), with proximity tracts, comprised of the South Half of Section 33, Township 16 South, Range 31 East in Eddy County, New Mexico and pooling all mineral interests in the Yeso formation (CEDAR LAKE; GLORIETA-YESO [96831]) underlying the HSU. Applicant proposes to drill the following 1.0-mile wells in the HSU: Van Halen 33CD Fed Com 001H, well, to be horizontally drilled from a surface hole location (“SHL”) approximately 1,802' FEL & 2,251' FSL of Section 32-16S-31E and a bottomhole location (“BHL”) approximately 20' FEL & 2,310' FSL of Section 33-16S-31E; Van Halen 33CD Fed Com 002H well, to be horizontally drilled from a SHL approximately 1,800' FEL & 2,231' FSL of Section 32-16S-31E and a BHL approximately 20' FEL & 2,158' FSL of Section 33-16S-31E; Van Halen 33CD Fed Com 003H well, to be horizontally drilled from a SHL approximately 1,798' FEL & 2,211' FSL of Section 32-16S-31E and a BHL approximately 20' FEL & 1,784' FSL of Section 33-16S-31E; Van Halen 33CD Fed Com 004H well, to be horizontally drilled from a SHL approximately 1,796' FEL & 2,191' FSL of Section 32-16S-31E and a BHL approximately 20' FEL & 1,409' FSL of Section 33-16S-31E; Van Halen 33CD Fed Com 005H well, to be horizontally drilled from a SHL approximately 1,780' FEL & 1,117' FSL of Section 32-16S-31E and a BHL approximately 20' FEL & 1,249' FSL of Section 33-16S-31E; Van Halen 33CD Fed Com 006H well, to be horizontally drilled from a SHL approximately 1,791' FEL & 1,101' FSL of Section 32-16S-31E and a BHL approximately 20' FEL & 874' FSL of Section 33-16S-31E; Van Halen 33CD Fed Com 007H well, to be horizontally drilled from a SHL approximately 1,803' FEL & 1,084' FSL of Section 32-16S-31E and a BHL approximately 20' FEL & 500' FSL of Section 33-16S-31E; and Van Halen 33CD Fed Com 008H well, to be horizontally drilled from a SHL approximately 1,814' FEL & 1,068' FSL of Section 32-16S-31E and a

Page 2

BHL approximately 20' FEL & 339' FSL of Section 33-16S-31E. The Van Halen 33CD Fed Com 005H well is a proximity well. With proximity tracts, the completed intervals will meet standard setback requirements. The first and last take points will meet the setback requirements set forth in the statewide rules for horizontal oil wells. Additional considerations will be the cost of drilling and completing the well and allocation of such costs, the designation of Applicant as operator of the HSU and wells to be drilled thereon, and a 200% charge for the risk involved in drilling and completing the well. The well and lands are located approximately 6 miles West of Maljamar, New Mexico.

The attached application will be set for hearing before a Division Examiner at the New Mexico Oil Conservation Division on **January 8, 2026**, beginning at 9:00 a.m. Hearings are currently conducted in a hybrid fashion, both in-person at the Energy, Minerals, Natural Resources Department, Wendell Chino Building, Pecos Hall, 1220 South St. Francis Drive, 1st Floor, Santa Fe NM 87505 and via a virtual meeting platform. To participate in the electronic hearing, see the instructions posted on the docket for the hearing date at <https://www.emnrd.nm.gov/ocd/hearing-info/>. You are not required to attend this hearing, but as an owner of an interest that may be affected, you may appear and present testimony.

Failure to appear at that time and become a party of record will preclude you from challenging these applications at a later time. If you intend to present testimony or evidence at the hearing, you must enter your appearance **eight days prior to the hearing**, no later than **December 31, 2025**, and serve the Division, counsel for the Applicant, and other parties with a pre-hearing statement **seven days prior to the hearing**, no later than **January 1, 2026**, in accordance with Division Rule 19.15.4.13 NMAC.

Please feel free to contact me if you have any questions about this application.

Very truly yours,

/s/ Sharon T. Shaheen

NOTICE

To the following entities, individuals, their heirs, personal representatives, trustees, successors or assigns, and any other uncommitted mineral owners:

JR Oil, Ltd.; BP America Production Company; OXY USA WTP Limited Partnership; XTO Holdings, LLC; ExxonMobil EMHC; R.L. Tayloe-Richard Lee Tayloe, Jr. Trust Estate, Bank of America, NA, Trustee; John W.R. Boyle Trust, John W.R. Boyle and Bank of America, NA, Co-Trustees; Fullerton Oil & Gas Corporation; and Bureau of Land Management, United States of America.

Longfellow Operating Partners, LLC has filed an application with the New Mexico Oil Conservation Division as follows:

Case No. 25804. Application of Longfellow Operating Partners, LLC for Compulsory Pooling, Eddy County, New Mexico. Applicant in the above-styled cause seeks an order from the Oil Conservation Division approving a standard ~320-acre horizontal spacing and proration unit (HSU), with proximity tracts, comprised of the South Half of Section 33, Township 16 South, Range 31 East in Eddy County, New Mexico and pooling all mineral interests in the Yeso formation (CEDAR LAKE, GLORIETA-YESO [96831]) underlying the HSU. Applicant proposes to drill the following 1.0-mile wells in the HSU: Van Halen 33CD Fed Com 001H well, to be horizontally drilled from a surface hole location (SHL) approximately 1,802' FEL & 2,251' FSL of Section 32-16S-31E and a bottomhole location (BHL) approximately 20' FEL & 2,310' FSL of Section 33-16S-31E; Van Halen 33CD Fed Com 002H well, to be horizontally drilled from a SHL approximately 1,800' FEL & 2,231' FSL of Section 32-16S-31E and a BHL approximately 20' FEL & 2,158' FSL of Section 33-16S-31E; Van Halen 33CD Fed Com 003H well, to be horizontally drilled from a SHL approximately 1,798' FEL & 2,211' FSL of Section 32-16S-31E and a BHL approximately 20' FEL & 1,784' FSL of Section 33-16S-31E; Van Halen 33CD Fed Com 004H well, to be horizontally drilled from a SHL approximately 1,796' FEL & 2,191' FSL of Section 32-16S-31E and a BHL approximately 20' FEL & 1,409' FSL of Section 33-16S-31E; Van Halen 33CD Fed Com 005H well, to be horizontally drilled from a SHL approximately 1,780' FEL & 1,117' FSL of Section 32-16S-31E and a BHL approximately 20' FEL & 1,249' FSL of Section 33-16S-31E; Van Halen 33CD Fed Com 006H well, to be horizontally drilled from a SHL approximately 1,791' FEL & 1,101' FSL of Section 32-16S-31E and a BHL approximately 20' FEL & 874' FSL of Section 33-16S-31E; Van Halen 33CD Fed Com 007H well, to be horizontally drilled from a SHL approximately 1,803' FEL & 1,084' FSL of Section 32-16S-31E and a BHL approximately 20' FEL & 500' FSL of Section 33-16S-31E; and Van Halen 33CD Fed Com 008H well, to be horizontally drilled from a SHL approximately 1,814' FEL & 1,068' FSL of Section 32-16S-31E and a BHL approximately 20' FEL & 339' FSL of Section 33-16S-31E. The Van Halen 33CD Fed Com 005H well is a proximity well. With proximity tracts, the completed intervals will meet standard setback requirements. The first and last take points will meet the setback requirements set forth in the statewide rules for horizontal oil wells. Additional considerations will be the cost of drilling and completing the well and allocation of such costs, the designation of Applicant as operator of the HSU and wells to be drilled thereon, and a 200% charge for the risk involved in drilling and completing the well. The well and lands are located approximately 6 miles West of Maljamar, New Mexico.

This application will be set for hearing before a Division Examiner at the New Mexico Oil Conservation Division on **January 8, 2026**, beginning at 9:00 a.m. Hearings are currently conducted in a hybrid fashion, both in-person and at the Energy Minerals, Natural Resources Department, Wendell Chino Building, Pecos Hall, 1220 South St. Francis Drive, 1st Floor, Santa Fe NM 87505 and via a virtual meeting platform. To participate in the electronic hearing, see the instructions posted on the docket for the hearing date: <https://www.emnrd.nm.gov/ocd/hearing-info/>. You are not required to attend this hearing, but as an owner of an interest that may be affected, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging these applications at a later time. If you intend to present testimony or evidence at the hearing, you must enter your appearance by **December 31, 2025**, eight (8) days before the hearing, and serve the Division, counsel for the Applicant, and other parties with a pre-hearing statement by **January 1, 2026**, seven days before the hearing in accordance with Division Rule 19.15.4.13 NMAC. For further information, contact the applicants attorney, Sharon T. Shaheen, Spencer Fane, LLC, 325 Paseo de Peralta, Santa Fe, New Mexico 87501, (505) 986-2678.

76800-Published in Carlsbad Current Argus Dec. 18, 2025.

Subject: RE: [EXTERNAL] Van Halen 33CD Fed Com Unit Well Proposals

Jack,

I hope you had a Merry Christmas as well! We're still reviewing to confirm this was part of the PSA between BP and Apache, but it more than likely is Hilcorp's now.

I can confirm we've received the well proposals and have no intention of protesting your compulsory pooling application if we still can sign a JOA after Longfellow's hearing.

Thanks,

Alyssa Hume

Alyssa/Curtis,

Hope yall had a Merry Christmas and were able to enjoy some time off! I'm reaching out regarding the subject well proposals in the S/2 Sec. 33, T16S, R31E, Eddy County, NM. Our title initially reflected BP owning a 1/3rd interest in an 80-acre tract within the proposed unit but after discussions with BP we believe this title now vests with Hilcorp via Apache. An updated certified letter has been sent to Hilcorp but the tracking shows "In Transit, Arriving Late".

We are hoping to get confirmation ASAP from Hilcorp on the following:

- That you have received the proposals via this email
- That yall will not protest our hearing set for January 8th

We're on a tight time schedule and need to have the hearing at the beginning of January to be able to drill these wells. Longfellow does not want to force pool Hilcorp and will execute a mutually agreeable JOA, term assignment, etc.. Whichever agreement Hilcorp believes works best; we're open to anything mutually beneficial.

Please review at your earliest convenience and give me a call if you have any questions.

Thank you,

Jack Mercer
Landman
