FOR APPROVAL OF AN OVERLAPPING
HORIZONTAL WELL SPACING UNIT
AND COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO.**

CASE NO. 25998

APPLICATION

MRC Hat Mesa, LLC (“MRC” or “Applicant”), through its undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of NMSA 1978, § 70-2-17, for an order (1) approving a 560.05-acre, more or less, overlapping horizontal well spacing unit in the Bone Spring formation underlying the W/2 of Section 29, E/2 W/2 of Section 32, Township 21 South, Range 33 East, and Lot 3 and SE/4 NW/4 (E/2 NW/4 equivalent) of irregular Section 5, Township 22 South, Range 33 East, NMPM, Lea County, New Mexico, and (2) pooling all uncommitted interests in this acreage. In support of its application, MRC states:

1. Applicant is a working interest owner in the proposed overlapping horizontal spacing unit and has the right to drill thereon.
2. Applicant seeks to designate Matador Production Company (OGRID No. 228937) as the operator of the proposed horizontal spacing unit.
3. Applicant seeks to dedicate the above-referenced overlapping horizontal spacing unit to the proposed **Toddy Glosser State Com 110H** j-turn well, to be drilled from a surface hole location in the N/2 of irregular Section 5, T22S-R33E, to a first take point in the SE/4 NW/4 (Unit F) of irregular Section 5, T22S-R33E, and a last take point in the SW/4 NW/4 (Unit E) of Section 29, T21S-R33E.

BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico
Exhibit No. B
Submitted by: Matador Production Company
Hearing Date: March 26, 2026
Case No. 25998

4. This proposed horizontal well spacing unit will overlap the following existing spacing units in the Bone Spring formation:

- An existing 160-acre spacing unit in the Bone Spring formation underlying the E/2 W/2 of Section 29, T21S-R33E, currently dedicated to the Fruit Loop 29 State 501H (API No. 30-025-41518), operated by EOG Resources Inc; and
- An existing 160-acre spacing unit in the Bone Spring formation underlying the W/2 W/2 of Section 29, T21S-R33E, currently dedicated to the Fruit Loop 29 State 503H (API No. 30-025-44501) and Fruit Loop 29 State 602H (API No. 30-025-44500), operated by EOG Resources Inc.

5. Applicant has sought and been unable to obtain voluntary agreement for the development of these lands from all interest owners in the subject spacing unit.

6. The pooling of interests in the proposed horizontal well spacing unit will allow Applicant to obtain a just and fair share of the oil and gas underlying the subject lands, avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

WHEREFORE, Applicant requests that this matter be set for hearing before an Examiner of the Oil Conservation Division on March 26, 2026, and, after notice and hearing as required by law, the Division enter an order:

- A. Approving the proposed overlapping spacing unit and pooling all uncommitted interests therein;
- B. Designating Matador Production Company as operator of the overlapping horizontal spacing unit and the horizontal well to be drilled thereon;
- C. Authorizing Applicant to recover its costs of drilling, equipping, and completing the well;
- D. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and

- E. Imposing a 200% charge for the risk assumed by Applicant in drilling and completing the well against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

HOLLAND & HART LLP

**ATTORNEYS FOR MRC HAT MESA, LLC AND
MATADOR PRODUCTION COMPANY**

CASE _____: **Application of MRC Hat Mesa, LLC for Approval of an Overlapping Horizontal Well Spacing Unit and Compulsory Pooling, Lea County, New Mexico.** Applicant in the above-styled cause seeks an order (1) approving a 560.05-acre, more or less, overlapping horizontal well spacing unit in the Bone Spring formation underlying the W/2 of Section 29, E/2 W/2 of Section 32, Township 21 South, Range 33 East, and Lot 3 and SE/4 NW/4 (E/2 NW/4 equivalent) of irregular Section 5, Township 22 South, Range 33 East, NMPM, Lea County, New Mexico, and (2) pooling all uncommitted interests in this acreage. Applicant seeks to dedicate the above-referenced overlapping horizontal spacing unit to the proposed **Toddy Glosser State Com 110H** j-turn well, to be drilled from a surface hole location in the N/2 of irregular Section 5, T22S-R33E, to a first take point in the SE/4 NW/4 (Unit F) of irregular Section 5, T22S-R33E, and a last take point in the SW/4 NW/4 (Unit E) of Section 29, T21S-R33E. This proposed horizontal well spacing unit will overlap the following existing spacing units in the Bone Spring formation:

- An existing 160-acre spacing unit in the Bone Spring formation underlying the E/2 W/2 of Section 29, T21S-R33E, currently dedicated to the Fruit Loop 29 State 501H (API No. 30-025-41518), operated by EOG Resources Inc; and
- An existing 160-acre spacing unit in the Bone Spring formation underlying the W/2 W/2 of Section 29, T21S-R33E, currently dedicated to the Fruit Loop 29 State 503H (API No. 30-025-44501) and Fruit Loop 29 State 602H (API No. 30-025-44500), operated by EOG Resources Inc.

Also to be considered will be the cost of drilling and completing the well, the allocation of the cost thereof, as well as actual operating costs and charges for supervision, designation of Matador Production Company as operator, and a 200% charge for risk involved in drilling and completing the well. Said area is located approximately 25 miles east of Eunice, New Mexico.

CASE NO. 25998

SELF-AFFIRMED STATEMENT OF CLAY WOOTEN

1. My name is Clay Wooten. I work for MRC Energy Company, an affiliate of MRC Hat Mesa, LLC (“MRC”), as a Vice President - Land.
2. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum land matters. My credentials as a petroleum landman have been accepted by the Division and made a matter of public record.
3. I am familiar with the application filed by MRC in this case, and I am familiar with the status of the lands in the subject area.
4. In this case, MRC is seeking an order (a) approving a 560.05-acre, more or less, overlapping horizontal well spacing unit in the Bone Spring formation underlying the W/2 of Section 29, E/2 W/2 of Section 32, Township 21 South, Range 33 East, and Lot 3 and SE/4 NW/4 (E/2 NW/4 equivalent) of irregular Section 5, Township 22 South, Range 33 East, NMPM, Lea County, New Mexico; and (b) pooling the uncommitted interest owners in this spacing unit, and initially dedicate this spacing unit to the proposed **Toddy Glosser State Com 110H** j-turn well, to be drilled from a surface hole location in the N/2 of irregular Section 5, T22S-R33E, to a first take point in the SE/4 NW/4 (Unit F) of irregular Section 5, T22S-R33E, and a last take point in the SW/4 NW/4 (Unit E) of Section 29, T21S-R33E.

BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico
Exhibit No. C
Submitted by: Matador Production Company
Hearing Date: March 26, 2026
Case No. 25998

5. Attached as **MRC Exhibit C-1** is a map showing the proposed spacing unit under this application and the existing spacing unit that it overlaps.

6. **MRC Exhibit C-2** contains a draft Form C-102 for the proposed initial well.

7. MRC understands this well will be placed in the WC-025 G-07 S213330F; BONE SPRING [97927] pool (for the Section 29 acreage) and the LEGG;BONE SPRING [37870] pool (for the Sections 32 and 5 acreage).

8. The completed intervals for the proposed well will remain within the standard setbacks required by the statewide rules set forth in 19.15.16.15 NMAC.

9. **MRC Exhibit C-3** identifies the tracts of land comprising the proposed horizontal spacing unit. The land in the proposed spacing unit is comprised of state lands.

10. **MRC Exhibit C-4** identifies the working interest owners that MRC is seeking to pool, as well as the overriding royalty owners that MRC seeks to pool. The first pages of Exhibit C-4 shows the parties MRC is seeking to pool on a unit basis. Behind the unit analysis, there are additional pages showing the working interest owners that MRC seeks to pool, on a tract by tract basis, along with their ownership interest in each of the tracts in the proposed horizontal spacing unit. The parties that MRC is seeking to pool are highlighted yellow.

11. While MRC was working to put this unit together, MRC proposed the above well to the working interest parties it seeks to pool. **MRC Exhibit C-5** contains a representative copy of the forms of well proposal letters that were sent to the working interest owners, along with the AFE that was sent for the well. The costs reflected in the AFE are consistent with what other operators have incurred for drilling similar horizontal wells in the area.

12. **MRC Exhibit C-6** contains a summary of MRC's contacts with the uncommitted working interest owners we seek to pool in this case. As indicated on MRC Exhibit C-6, it appears

MRC has been able to locate each of the working interest owners we seek to pool, and has been able to have discussions with each of the working interest owners we seek to pool except for one owner. In my opinion, MRC has undertaken good faith efforts to reach an agreement with the uncommitted working interest owners that MRC seeks to pool in this case.

13. MRC has made an estimate of overhead and administrative costs for drilling and producing the proposed well. It is \$10,000/month while drilling, and \$1,000/month while producing. These costs are consistent with what other operators are charging in this area for these types of wells. MRC respectfully requests that these administrative and overhead costs be incorporated into any order entered by the Division in this case.

14. I provided MRC's outside counsel, Holland & Hart, a list of names and addresses for the parties that MRC is seeking to pool for whom MRC was able to locate an address or potential address, as well as those parties being notice of overlapping spacing unit purposes. In compiling this notice list, MRC conducted a diligent search of all public records in the county where the proposed wells are located, including computer searches.

15. **MRC Exhibit C-7** contains a chart showing the owners in the spacing unit and whether those owners are already committed to the unit or not and, if so, the type of commitment.

16. **MRC Exhibits C-1 through C-7** were either prepared by me or compiled under my direction and supervision.

17. I affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statements are true and correct. I understand that this self-affirmed statement will be used as written testimony in this case. This statement is made on the date next to my signature below.

Clay Wooten

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

Re: Toddy Glosser State Com #110H, #113H, #114H, #200H, #203H & #204H (the "Wells")
 REVISED Participation Proposal
 N2 of Section 5, Township 22 South, Range 33 East and All of Sections 32 and 29, Township 21 South,
 Range 33 East Lea County, New Mexico

Dear Sir/Madam:

MRC Permian Company ("MRC") previously sent well proposals, dated August 27, 2025, related to the Toddy Glosser State Com #112H, #113H, #114H, #202H, #203H, and #204H. MRC is hereby withdrawing its previous proposal as it relates to only the Toddy Glosser State Com #112H and Toddy Glosser State Com #202H ("Rescinded Wells").

MRC now proposes the Toddy Glosser State Com #110H and Toddy Glosser #200H to replace the Rescinded Wells.

For clarification, the prior proposals for the Toddy Glosser State Com #113H, #114H, #203H, and #204H are unchanged and are included in the below for reference.

Well Name	SHL	FTP	LTP	TVD	TMD	Formation	Orientation
Toddy Glosser State Com #110H	N2 5-22S- 33E	2,310' FWL & 2540' FNL 5-22S-33E	990' FWL & 2540' FNL 29-21S-33E	~10,100'	~28,895'	Bone Spring	U-Turn
Toddy Glosser State Com #113H	N2 5-22S- 33E	1650' FEL & 2540' FNL 5-22S-33E	1650' FEL & 100' FNL 29-21S-33E	~10,000'	~22,934'	Bone Spring	HZ
Toddy Glosser State Com #114H	N2 5-22S- 33E	330' FEL & 2540' FNL 5-22S-33E	330' FEL & 100' FNL 29-21S-33E	~10,000'	~22,934'	Bone Spring	HZ
Toddy Glosser State Com #200H	N2 5-22S- 33E	2,310' FWL & 2540' FNL 5-22S-33E	660' FWL & 2540' FNL 29-21S-33E	~12,100'	~31,092'	Wolfcamp	U-Turn
Toddy Glosser State Com #203H	N2 5-22S- 33E	2145' FEL & 2540' FNL 5-22S-33E	2145' FEL & 100' FNL 29-21S-33E	~12,100'	~25,034'	Wolfcamp	HZ
Toddy Glosser State Com #204H	N2 5-22S- 33E	660' FEL & 2540' FNL 5-22S-33E	990' FEL & 100' FNL 29-21S-33E	~12,100'	~25,034'	Wolfcamp	HZ

MRC is proposing to drill the Well(s) under the terms of the modified 1989 AAPL form of Operating Agreement dated August 1, 2025, by and between Matador Production Company, as Operator and MRC Permian Company et al as Non-Operators covering All of Sections 29 and 32, 21S-33E and N/2 of Section 5, 22S-33E, Lea County, New Mexico (the JOA”) that includes the following general provisions:

- 100/300/300 Non-Consenting Party risk penalty
- \$10,000/\$1,000 Drilling and Producing rate
- Matador Production Company named as Operator

The Exhibit “A” to the JOA included with the well proposals dated August 27, 2025, has been amended to encompass the new Toddy Glosser State Com #110H and Toddy Glosser #200H wells. If you previously executed the JOA, please see the First Amendment to Operating Agreement dated August 1, 2025, included herein, for your review and signature.

In connection with the above, please note the estimated cost of drilling, testing, completing, and equipping of the Toddy Glosser State Com #110H and Toddy Glosser State Com #200H are set forth on the two (2) enclosed AFEs dated February 9, 2026. The AFEs for Toddy Glosser State Com #113H, #114H, #203H, and #204H, which were included in the prior August 27, 2025 proposals, are unchanged, and included herewith again for reference.

MRC reserves the right to modify the locations and drilling plans described above in order to address topography, cultural or environmental concerns, among other reasons. MRC or its designated Operator will advise you of any such modifications.

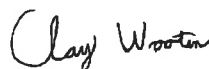

MRC requests that you indicate your election to participate, or not participate, in the drilling and completion of the proposed Wells in the space provided below. Accordingly, please sign and return one (1) copy of this letter to the undersigned.

If your election is to participate in the drilling and completion of the Well(s), please sign and return a copy of the enclosed AFEs within thirty (30) days of receipt of this notice. Please be aware that the enclosed AFEs are only an estimate of costs to be incurred and by electing to participate in the Well(s), each working interest owner shall be responsible for its proportionate share of all costs incurred.

Thank you for your consideration of this proposal. Please contact me if you have any questions.

Sincerely,

MRC PERMIAN COMPANY

Clay Wooten

R. Miller Houghton hereby elects to:

_____ Participate for its proportionate share of the costs detailed in the enclosed AFE associated with Matador Production Company's **Toddy Glosser #110H** well.

_____ Not to participate in the **Toddy Glosser #110H**.

_____ Participate for its proportionate share of the costs detailed in the enclosed AFE associated with Matador Production Company's **Toddy Glosser #113H** well.

_____ Not to participate in the **Toddy Glosser #113H**.

_____ Participate for its proportionate share of the costs detailed in the enclosed AFE associated with Matador Production Company's **Toddy Glosser #114H** well.

_____ Not to participate in the **Toddy Glosser #114H**.

_____ Participate for its proportionate share of the costs detailed in the enclosed AFE associated with Matador Production Company's **Toddy Glosser #200H** well.

_____ Not to participate in the **Toddy Glosser #200H**.

_____ Participate for its proportionate share of the costs detailed in the enclosed AFE associated with Matador Production Company's **Toddy Glosser #203H** well.

_____ Not to participate in the **Toddy Glosser #203H**.

_____ Participate for its proportionate share of the costs detailed in the enclosed AFE associated with Matador Production Company's **Toddy Glosser #204H** well.

_____ Not to participate in the **Toddy Glosser #204H**.

Summary of Communications – W2 Toddy Glosser

Working Interest Owner:

1. EOG Resources, Inc.

In addition to sending well proposals, Matador has had multiple communications with EOG regarding their interest in these spacing units.

2. Attwell Interests, LLC

In addition to sending well proposals, Matador has had communications with the manager of the entity regarding their interest and will continue to discuss voluntary joinder.

3. Royal Oak Oil and Gas Inc.

Matador sent well proposals to Royal Oak Oil and Gas Inc., which are shown to have been delivered. I have also attempted to contact this owner via email and phone but have so far been unable to speak with this owner.

4. Siana Oil and Gas Company, LLC

In addition to sending well proposals, Matador has had multiple communications with the party assisting in the estate of the entity as well as the Trustee handling the entity.

FOR APPROVAL OF A STANDARD OVERLAPPING
HORIZONTAL WELL SPACING UNIT AND
COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO.**

CASE NO. 25998

SELF-AFFIRMED STATEMENT OF LIZ OLSON

1. My name is Liz Olson. I work for MRC Energy Company, an affiliate of MRC Hat Mesa, LLC (“MRC”), as an Area Geology Manager.

2. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum geology. My credentials as a petroleum geologist have been accepted by the Division and made a matter of record.

3. I am familiar with the application filed by MRC in this case, and I have conducted a geologic study of the lands in the subject area.

4. **MRC Exhibit D-1** is a locator map outlining the horizontal spacing unit with a black box shaded in yellow, with the larger area identified in a red box.

5. In this case, MRC intends to develop the First Bone Spring within the Bone Spring formation.

6. **MRC Exhibit D-2** is a subsea structure map prepared off the top of the Bone Spring formation. The contour interval is 50 feet. The structure map shows the Bone Spring formation gently dipping to the southeast. The structure appears consistent across the proposed wellbore path. I do not observe any faulting, pinchouts, or other geologic impediments to horizontal drilling.

7. Also included on MRC Exhibit D-2 is a line of cross section from A to A’.

**BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico
Exhibit No. D
Submitted by: Matador Production Company
Hearing Date: March 26, 2026
Case No. 25998**

8. **MRC Exhibit D-3** is a structural cross-section prepared displaying open-hole logs run over the Bone Spring formation from the three representative wells denoted from A to A'. For each well in the cross-section, the following logs are included: gamma ray, caliper, resistivity, and porosity, where available. The proposed target interval for the proposed well is labeled and marked with a yellow shaded area. The logs in the cross-section demonstrate that the targeted interval, within the Bone Spring formation, is consistent in thickness, across the entirety of the proposed spacing unit.

9. In my opinion, the standup orientation is the preferred orientation for development in this area for Bone Spring wells based on the maximum horizontal stress in this area.

10. Based on my geologic study of the area, I have not identified any geologic impediments to drilling horizontal wells within the Bone Spring formation in the area of the spacing unit proposed in this case.

11. In my opinion, each quarter-quarter section will be productive and contribute more-or-less equally to production from the horizontal spacing unit.

12. In my opinion, horizontal drilling will be the most efficient method to develop this acreage, to prevent the drilling of unnecessary wells, and to result in the greatest ultimate recovery.

13. Approving MRC's application will be in the best interest of conservation, the prevention of waste, and protection of correlative rights.

14. **MRC Exhibits D-1 through D-3** were either prepared by me or compiled under my direction and supervision.

15. I affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statements are true and correct. I understand that this self-affirmed statement will be

used as written testimony in this case. This statement is made on the date next to my signature below.

Re: Application of MRC Hat Mesa, LLC for Approval of an Overlapping Horizontal Well Spacing Unit and Compulsory Pooling, Lea County, New Mexico: *Toddy Glosser State Com 110H Well*

Ladies & Gentlemen:

This letter is to advise you that MRC Hat Mesa, LLC has filed the enclosed application with the New Mexico Oil Conservation Division. A hearing has been requested before a Division Examiner on March 26, 2026, and the status of the hearing can be monitored through the Division’s website at <https://www.emnrd.nm.gov/ocd/>.

It is anticipated that hearings will be held in a hybrid format with both in-person and virtual participation options. The meeting will be held in the Pecos Hall Hearing Room at the Wendall Chino Building, 1st Floor, 1220 South St. Francis Dr., Santa Fe, New Mexico. To participate virtually in the hearing, see the instructions posted on the OCD Hearings website: <https://www.emnrd.nm.gov/ocd/hearing-info/>.

You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date. Parties appearing in cases are required to file a Pre-hearing Statement four business days in advance of a scheduled hearing that complies with the provisions of NMAC 19.15.4.13.B.

If you have any questions about this matter, please contact Clay Wooten at (972) 587-4624, or at clay.wooten@matadorresources.com.

Sincerely,

Paula M. Vance

Legal Notice March 10, 2026			
<p>Case No. 25998: Application of MRC Hat Mesa, LLC for Approval of an Overlapping Horizontal Well Spacing Unit and Compulsory Pooling, Lea County, New Mexico. Notice to all affected interest owners, including all heirs, devisees and successors of: 1979 Royalties, LP; AEPXCON Management; Attwell Interests, Inc. c/o Kathy Gibson; Brett D. Taylor; Charis Royalty F, LP; CrownRock Minerals, L.P.; EOG Resources Inc.; HH&P Energy, LLC; John Kyle Thoma, Successor Trustee of the Cornerstone Family Trust dtd 6/9/2016; Nearburg Exploration Company, LLC; Oxy USA Inc.; Royal Oak Oil and Gas Inc.; Siana Oil & Gas Company, LLC Chapter 7 Bankruptcy Trustee, Allison Byman, c/o Byman & Associates PLLC; Siana Oil & Gas Company, LLC Chapter 7 Bankruptcy Trustee, Allison Byman, c/o Jameson J. Watts; Siana Oil & Gas Company, LLC Chapter 7 Bankruptcy Trustee, Allison Byman, c/o Ryan A. Burgett; Siana Oil & Gas Company, LLC Chapter 7 Bankruptcy Trustee, Allison Byman, c/o Timothy A. Million; State of New Mexico; Wellington Hotwells I, LP; and West Bend Energy. The State of New Mexico, Energy Minerals and Natural Resources Department, Oil Conservation Division ("Division") hereby gives notice that the Division will hold public hearing 8:30 a.m. on March 26, 2026, to consider this application. The hearing will be conducted in a hybrid fashion, both in-person at the Energy, Minerals, Natural Resources Department, Wendell Chino Building, Pecos Hall, 1220 South St. Francis Drive, 1st Floor, Santa Fe, NM 87505 and via the WebEx virtual meeting platform. To participate in the hearings electronically, see the instructions posted on the docket for the hearing date: https://www.emnrd.nm.gov/ocd/hearing-info/ or contact Freya Tschantz, at Freya.Tschantz@emnrd.nm.gov. Applicant in the above-styled cause seeks an order (1) approving a 560.05-acre, more or less, overlapping horizontal well spacing unit in the Bone Spring formation underlying the W/2 of Section 29, E/2 W/2 of Section 32, Township 21 South, Range 33 East, and Lot 3 and SE/4 NW/4 (E/2 NW/4 equivalent) of irregular Section 5, Township 22 South, Range 33 East, NMPM, Lea County, New Mexico, and (2) pooling all uncommitted interests in this acreage. Applicant seeks to dedicate the above-referenced overlapping horizontal spacing unit to the proposed Toddy Glosser State Com 110H j-turn well, to be drilled from a surface hole location in the N/2 of irregular Section 5, T22S-R33E, to a first take point in the SE/4 NW/4 (Unit F) of irregular Section 5, T22S-R33E, and a last take point in the SW/4 NW/4 (Unit E) of Section 29, T21S-R33E. This proposed horizontal well spacing unit will overlap the following existing spacing units in the Bone Spring formation:</p> <ul style="list-style-type: none"> - An existing 160-acre spacing unit in the Bone Spring formation underlying the E/2 W/2 of Section 29, T21S-R33E, currently dedicated to the Fruit Loop 29 State 501H (API No. 30-025-41518), operated by EOG Resources Inc; and - An existing 160-acre spacing unit in the Bone Spring formation underlying the W/2 W/2 of Section 29, T21S-R33E, currently dedicated to the Fruit Loop 29 State 503H (API No. 30-025-44501) and Fruit Loop 29 State 602H (API No. 30-025-44500), operated by EOG Resources Inc. <p>Also to be considered will be the cost of drilling and completing the well, the allocation of the cost thereof, as well as actual operating costs and charges for supervision, designation of Matador Production Company as operator, and a 200% charge for risk involved in drilling and completing the well. Said area is located approximately 25 miles east of Eunice, New Mexico.</p> <p>#00308935</p>
