In the matter of Case 4352 being reopened by the Oil Conservation Commission upon its own motion to give all interested persons an opportunity to appear and present evidence as to whether the Double L-Queen and Suble-Queen Pools, Chaves County, New Mexico, are in fact separate reservoirs or one common reservoir. Further, in the event it is found that the two pools comprise one common reservoir, the Commission will consider the adoption of special rules and regulations to provide for the classification of oil and gas wells, spacing and well location requirements for oil and gas wells, and an allocation formula for withdrawals from the gas wells and oil wells.

CASE 4523: Application of Texas Pacific Oil Company, Inc., for the re-dedication of acreage, Lea County, New Mexico. Applicant, in the above-styled cause, seeks the rededication of a 160-acre non-standard gas proration unit in the Jalmat Gas Pool comprising the SE/4 of Section 31, Township 25 South, Range 37 East, Lea County, New Mexico, to its legal wells Nos. 1 and 2, located, respectively, in Units B and I of said Section 31. Applicant further seeks authority to produce the allowable assigned to said unit from either of said wells in any proportion.

CASE 4524: Application of Texaco Inc. for reinstatement of cancelled underproduction, Lea County, New Mexico. Applicant, in the above-styled cause, seeks an exception to the general rules and regulations for the prorated gas pools of Southeastern New Mexico to permit the reinstatement of accumulated underproduction cancelled for its Blinberry "A" Federal (NCT-1) Well No. 2 located in Unit I, Section 31, Township 23 South, Range 37 East, Jalmat Gas Pool Lea County, New Mexico.

CASE 4525: Application of Wolfson Oil Company for a non-standard gas proration unit, Lea County, New Mexico. Cities-Federal Well No. 1 located 2310 feet from the South line and 330 feet from the West line of said Section 20.

CASE 4526: Application of Pennzoil United, Inc., for the creation of a new pool and promulgation of special pool rules, Roosevelt County, New Mexico. Applicant, in the above-styled cause, seeks the creation of a new pool for the production of gas from the San Andres formation for its Superior State Well No. 1 located in Unit L of Section 8, Township 7 South, Range 35 East, Roosevelt County, New Mexico, and for the promulgation of special rules therefor, including a provision for 320-acre spacing units.

CASE 4527: Application of Big "6" Drilling Company for salt water disposal, Lea County, New Mexico. Applicant, in the above-styled cause, seeks authority to dispose of produced salt water into the Bone Springs formation in the interval from 10,062 feet to 10,119 feet in its Ora Jackson "A" Well No. 1 located in Unit M of Section 5, Township 19 South, Range 35 East, Scharb-Bone Springs Pool, Lea County, New Mexico.
