Draw-Morrow Gas Pool, Eddy County, New Mexico

Gentlemen:

On behalf of Hanagan Petroleum Corporation we hereby object to the subject application of Atlantic Richfield Company for administrative approval of a 340.94 acre non-standard proration unit in the Catclaw Draw-Morrow Gas Pool, Eddy County, New Mexico, as proposed by Atlantic Richfield Company's application to the Commission dated March 9, 1973.

Hanagan Petroleum Corporation objects to the formation of any non-standard gas proration unit for the subject well which would comprise less than all of Section 11, Township 21 South, Range 25 East, Eddy County, New Mexico, as contemplated by the Special Rules and Regulations for the Catclaw Draw-Morrow Gas Pool promulgated by Order No. R-4157.

It should be noted that any application for administrative approval should be made pursuant to the said Order No. R-4157 rather than under the general rules of the Commission as requested by Atlantic Richfield Company's application of March 9, 1973.

Union-Atlantic Applications

Dear Mr. Nutter:

This letter will confirm our telephone conversation to you of April 5 wherein we requested, on behalf of our client Union Oil Company of California, with the consent of attorney Paul Eaton in behalf of Atlantic Richfield Company, to continue both of the captioned cases to the examiner hearing to be held May 9, 1973.

You are advised that our client reports that the overriding royalty ownership is common throughout all of Section 11, Township 21 South, Range 25 East, and since all of the lands involved are federal lands we do not believe there are any other interested parties to the Applications.

We appreciate your consideration in the foregoing respects.

Sincerely,

Gentlemen:

Atlantic Richfield Company respectfully requests administrative approval under rule 104-D (II) of a 340.94-acre non-standard proration unit for the captioned well, said unit to comprise the W/2 of Section 11, Township 21 South, Range 25 East, Eddy County, New Mexico, as shown on the attached form C-102. In support of this request, Atlantic Richfield offers the following information:

1. The Pure Federal No. 1 well was completed 2-4-66 as an undesignated Morrow producer from an open-hole interval 10327-47'. A non-standard proration unit identical to the one requested above was granted 3-16-66 by Administrative Order NSP-750. The well was subsequently placed in Golden Eagle Morrow Gas Pool.
2. Golden Eagle Morrow Gas Pool was abolished by the New Mexico Oil Conservation Commission in Case No. 4838, Order No. R-4421, effective 11-1-72, and the Catclaw Draw Morrow Gas Pool was expanded to include the acreage formerly in Golden Eagle Pool, including Section 11, T-21S, R-25E.
3. Order No. R-4421 requires all operators within the expanded Catclaw Draw Pool to obtain acceptable standard or non-standard proration units.
4. The requested non-standard unit consists of quarter-quarter sections contiguous by a common bordering side.
5. The requested non-standard unit lies wholly within a single governmental half-section.

6. A plat of the proposed unit showing offset well locations and ownership of adjoining acreage is attached. Also attached is an amended form C-102 describing the well and location and proposed unit.
7. All offset operators have been duly notified of intent to form a non-standard unit.
