Case No. 4996

DOCKET: REGULAR HEARING - WEDNESDAY - JUNE 20, 1973

OIL CONSERVATION COMMISSION - 9 A.M. - MORGAN HALL, STATE LAND OFFICE
BUILDING, SANTA FE, NEW MEXICO

CASE 4990: In the matter of the hearing called by the Oil Conservation Commission of New Mexico upon its own motion to consider the application of Thriftway Company, operator of a petroleum refinery in Bloomfield, New Mexico, for certification to the Commissioner of Public Lands as a small business enterprise within the state not having an adequate supply of charge stocks and eligible to be granted a preference, pursuant to Chapter 34, New Mexico Laws of 1967, for the purchase of state royalty oil. The Commission will consider the application and such pertinent evidence as may be submitted concerning the capacity of the refinery, the source and grade of all refinery charge stocks currently available to the applicant, the minimum amount and grade of additional refinery charge stocks needed to meet existing refinery commitments or existing refinery capacity, and the efforts made by applicant to purchase refinery charge stocks on the open market.

CASE 4991: Application of El Paso Natural Gas Company for the amendment of the prorated gas pool rules promulgated by Order No. R-1670, as amended.

Applicant, in the above-styled cause, seeks the amendment of the General Rules and Regulations for the Prorated Gas Pools of Northwest New Mexico and Southeast New Mexico, as promulgated by Commission Order No. R-1670, as amended. Applicant proposes:

1. That Rule 9 (B) of the Northwest New Mexico Gas Proration Rules and 10 (A) of the Southeast New Mexico Gas Proration Rules each be amended to provide that the monthly allowable assigned to a marginal well would be equal to its latest available monthly production.

2. That Rule 13 of the Northwest New Mexico and Southeast New Mexico Gas Proration Rules be amended to provide that the proration period would be the 12-month period from 7:00 a.m. April 1 of each year to 7:00 a.m. April 1 of the following year. (The current proration period, due to terminate at 7:00 a.m. January 1, 1974, would be extended to 7:00 a.m. April 1, 1974).

3. That Rule 16 (A) of the Northwest New Mexico and Southeast New Mexico Gas Proration Rules be amended to provide that each proration period consist of four classification periods for the purpose of classifying wells marginal, each such classification period being of three months duration; and to provide that after production data is available for the last month of each such classification period, any well which had an underproduced status at the beginning of the gas proration period would be classified marginal

(Case 4991 continued from Page 1)

if its highest single month's production during the classification period is less than its average monthly allowable for the classification period, unless within 15 days after receipt of notice of classification of a well as marginal, the operator of the well or other interested person presents satisfactory evidence to the Commission showing that the well is not of marginal character and should not be so classified.

Applicant, in addition to the above-requested specific rule changes, further requests such additional word changes in other orders and/or Rules of the Commission (including but not limited to Order No. R-333-F-1) as may be necessary to effectuate the substantive rule changes proposed herein.

- CASE 4992: In the matter of the hearing called by the Oil Conservation Commission on its own motion to permit Corinne Grace and the Travelers Indemnity Company and all other interested parties to appear and show cause why the Ranger Lake Wells Nos. 1 and 3 located in Unit N of Section 11, Township 12 South, Range 34 East, Lea County, New Mexico should not be plugged and abandoned in accordance with a Commission-approved plugging program.
- CASE 4993: In the matter of the hearing called by the Oil Conservation Commission on its own motion to permit Corinne Grace and the Travelers Indemnity Company and all other interested parties to appear and show cause why the T. P. Docket No. 16-73

CASE 4989: (Continued from the June 6, 1973, Examiner Hearing)

In the matter of the hearing called by the Oil Conservation Commission upon its own motion to consider the amendment of the general rules governing prorated gas pools in Northwest and Southeast New Mexico as promulgated by Order No. R-1670, as amended. Rule 15 of the aforesaid general rules would be amended to provide that if a well is overproduced in an amount exceeding six times its average monthly allowable for the preceding twelve months (or, in the case of a newly connected well or a well in a newly prorated pool, six times its average monthly allowable for the months available), it shall be shut in during that month and each succeeding month until it is overproduced in an amount less than six times its average monthly allowable, as determined above.

Rule 15 would be further amended to permit the Secretary-Director of the Commission to grant a pool-wide moratorium of up to three months on the shutting in of gas wells during periods of high demand emergency if a significant number of the wells in the pool are subject to being shut in.

Dear Bill:

Please include on the docket we have scheduled for show-cause hearings as to why wells should not be plugged and abandoned the following well: C. H. Brockett, Inc. Lazy J State "A" Well No. 1 located in Unit A of Section 3, T-14-S, R-33-E. We have written Mr. Brockett on several occasions requesting that a cleanup be made of the location so that we could approve his plugging and abandoning report, but have received no cooperation from him. We did receive a letter from The Travelers Insurance Company stating they had contacted Mr. Brockett and he had advised them that he would clean up the location as soon as possible. The date of the Travelers' letter is August 4, 1972, and if Mr. Brockett was going to clean the location, he should have had it done by now.

I am attaching copies of the correspondence we have had with Mr. Brockett, and am sending copies of this letter to Mr. Brockett and The Travelers.

Your Lazy J State No. 1 located in Unit A of Section 3, T-14-S, R-33-E was plugged and abandoned in July of 1965. Since that time we have made five trips to this location and have written letters in January of '67 and February of '68, and to date the location still will not pass inspection because of junk on the location.

Please inspect this location and do the necessary work immediately. If we do not hear from you by May 1, 1971, then we will request that your bonding company make the necessary cleanup.

Dear Sir:

We find that the below listed well was plugged in 1965, but the Commission has not been notified that this well is ready for final surface inspection, although an inspection on September 9, 1967 shows this well location to need additional surface work.

We cannot release your plugging bond on this well until said well location passes surface inspection.

Please attend to this matter as soon as possible. Notify us when the well is ready for inspection.
