A

RAMSEY PRODUCER

Performance into poorly developed Oids reservoir, believed not contributing to oil production.

Top 14' of Oids is impervious. Oids reservoir is water bearing by core.

DEPARTMENT OF THE INTERIOR

WORKSHEET BY John B. Lee

OLDS PRODUCER

Oids reservoir is developed at the top, affording a trap between O'Neil and Olds Reservoir.

* All stratigraphic Bell Canyon (Cretaceous) production demonstrates a tilted water "level".
