Large Exhibits

(3) That the wells in the project area ^{the first are} ~~are in an advanced~~ state of depletion and should properly be classified as "~~water~~" wells. ^{water}

(5) That the subject application should be approved and the project should be governed by the provisions of Rules 701, 702, and 703 of the Commission Rules and Regulations.

(1) That the applicant, Tipperary Land and Exploration Corporation, is hereby authorized to institute a waterflood project in the North Eagle Pennsylvania Pool Area, North Eagle Pennsylvania Pool, by the injection of water into the straw possibly other formations through the Bess Well No. 1, located 60 feet from the North line and 1980 feet from the East line of section 20, Township 11 South, Range 33 East, N24W, Lea County, New Mexico.

(3) That monthly progress reports of the ~~waterflood~~ project herein authorized shall be submitted to the Commission in accordance with Rules 704 and 1120 of the Commission Rules and Regulations.

The Board of Review is held, and it is to appear regarding them if the subject will need additional ground in the showing of material with notice and hearing. To obtain such approval, the applicant shall file proper application with the Commissioner, which application shall include the following:

(4) A schematic drawing of the well which fully describes the casing, tubing, perforated intervals and depth showing that the injection of gas water will be confined to the steam formation.

The local Divulga may approve the application if, within 30 days after receiving the application, no objection is received. The local Divulga may grant immediate approval, provided sources of objection are relieved from said operation.
