Figure 1 consists of three examples of data sheets for neutron monitors.
 Sheet (a) is a schematic diagram of a neutron monitor, showing the layout of the detector and the location of the data recording unit.
 Sheet (b) is a data sheet for a neutron monitor, containing fields for company name, date, time, location, and various data points.
 Sheet (c) is a detailed data sheet for a neutron monitor, showing a grid of data points and a summary section. The grid contains numerical data points, and the summary section includes fields for total count, average count, and other statistical data.
