UNITED STATES
DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT

ASSIGNMENT AFFECTING RECORD TITLE
TO OIL AND GAS LEASE

FORM APPROVED
OMB NO. 1004-0034

Lease Serial No. NM 47173

Lease effective date

FOR BLM OFFICE USE ONLY

New Serial No.

PART I

1. Assignee's Name
URIAH EXPLORATION, INC.

Address (include zip code)
Suite 322, Bldg. of S.W., Midland, TX 79701

The undersigned, as owner of 100 percent of the record title of the above-designated oil and gas lease, hereby transfers and assigns to the assignee shown above, the record title interest in and to such lease as specified below.

2. Describe the lands affected by this assignment

East-Half (E/2) of the Southwest Quarter (SW/4) of Section 13, T.-22-S., R.-24-E., NMPM
80.00 Total Acres
Eddy County, New Mexico

Assignment approved as to lands described below

BEFORE THE
OIL CONSERVATION COMMISSION
Santa Fe, New Mexico
Case No. 8393 Exhibit No. 2
Submitted by: Uriah
Hearing Date 2-2-82

3. Specify interest or percent of assignor's record title interest being conveyed to assignee	100%
4. Specify interest or percent of record title interest being retained by assignor, if any	None
5. Specify overriding royalty being reserved by assignor	None
6. Specify overriding royalty previously reserved or conveyed, if any	None

7. If any payments out of production have previously been created out of this lease, or if any such payments are being reserved under this assignment, attach statement giving full details as to amount, method of payment, and other pertinent terms as provided under 43 CFR 3106.

It is agreed that the obligation to pay any overriding royalties or payments out of production of oil created herein, which, when added to overriding royalties or payments out of production previously created and to the royalty payable to the United States, aggregate in excess of 17½ percent, shall be suspended when the average production of oil per well per day averaged on the monthly basis is 15 barrels or less.

I CERTIFY That the statements made herein are true, complete, and correct to the best of my knowledge and belief and are made in good faith.

Executed this 9th day of December, 1981.

THE 18 U.S.C., Section 1001, makes it a crime for any person knowingly and willfully to make to any department or agency of the United States any false, fictitious, or fraudulent statements or representations as to any matter within its jurisdiction.

INSTRUCTIONS

1. *Use of Form* – Use only for assignment of record title interest in oil and gas leases. If more than one assignment is made out of a lease, a separate instrument of transfer is required for each assignment.
2. *Filing and Number of Copies* – File three (3) completed and executed signed copies in the appropriate BLM office. A $25.00 nonrefundable filing fee must accompany the assignment. The assignment within ninety (90) days after date of final execution.
3. *Effective Date of Assignment* – Assignment, if approved, takes effect on the first day of the month following the date of filing of all required papers. Assignee's qualifications must be in full compliance with the regulations (43 CFR 3102). If land is necessary, it must be furnished prior to approval of the assignment.
4. *Statement of Interests of Other Parties* – If assignee is not the sole party in interest in the assignment, assignee must submit, at the time assignment is filed, a signed statement giving the names of any other parties in interest and the interest in the lease. Other parties must also file their qualifications statements with the BLM and all such other interested parties must submit, together with evidence of their qualifications to hold the lease interest, separate statements showing the nature of their interest, the percent of such, the nature of agreement between them, if oral; and a copy of the agreement, if written.
5. *Effect of Assignment* – Approval of assignment of a definitely described portion of the leased lands creates a separate lease of the retained and the assigned lands. Rentals and royalties may be apportioned between the lands or the lands may be considered only for purposes of payment of annual rental.
6. A copy of the lease bid of which this assignment is made should be obtained from the assignor.

NOTICE

The Privacy Act of 1974 and the regulation in 43 CFR 2.48(d) provide that you be furnished the following information in connection with information required by this assignment and request for approval:

AUTHORITY: 30 U.S.C. 181 et. seq.

PRINCIPAL PURPOSE – The information is to be used to process the assignment and request for approval.

ROUTINE USES:
(1) Adjudication of the assignee's rights to the land or resources.
(2) Documentation for public information in support of notations made in the official records of the BLM with respect thereto.
(3) Disclosure to the public of lands and resources.
(4) Transfer to appropriate Federal agencies when concurrence is required prior to granting a right in public lands or resources.
(5) Information from the record and/or the record will be transferred to appropriate Federal, State, local or foreign agencies, when relevant to civil, criminal or regulatory investigations or prosecutions.

EFFECT OF NOT PROVIDING INFORMATION – If all the information is not provided, the assignment may be rejected.

Re: Letter Agreement
South half of Sec.
12-T22S-R24E
Eddy County, New Mexico

Dear Mr. Bryant:

This letter is to confirm my agreement with you regarding the above referenced land.

By virtue of this agreement, farming-out of this acreage will be subject to the following terms:

1) Acreage farmed-out will consist only of the Strawn, Atoka, and Morrow rights on 320 acres, more or less, in the S/2 of Sec. 12-T22S-R24E, Eddy County, New Mexico.

2) The 320 acres affected by this agreement will be farmed-out for a consideration of $50.00 per acre, with a one (1) year seventy-five percent (75%) net revenue interest option.

3) In the absence of a test well, this Letter Agreement, in all its terms and conditions, will automatically terminate one year after execution date.

4) The referenced acreage will be assigned only upon completion of a producing commercial well. This assignment will be for a seventy-five percent (75%) net lease, with Jeanne Fields Shelby retaining an Overriding Royalty interest equal to the difference between existing royalties and twenty-five percent (25%).

5) Spudding of the initial test well must occur on or before anniversary date of executed Letter Agreement.

U.S.G.S. RECORDS

BEST AVAILABLE COPY

6) Upon cessation of production, all rights referred to above will revert back to Assignor.

If the above meets with your approval, please execute the acknowledgement below, and return it to this office at your earliest convenience.

Your very truly,

Jeanne Fields Shelby

To Interest Owners:

In Re: Proposed Morrow Test
W/2 Section 13, T-22-S,
R-24-E, Eddy County,
New Mexico

Uriah Exploration, Inc. has acquired an 80 acre lease covering the E/2 of the SW/4 of Section 13, T-22-S, R-24-E, Eddy County, New Mexico.

Uriah proposes to form a 320 acre proration unit covering the W/2 of the section and drill a 10,700' Morrow test to be located 1980' FNL and 1501' FWL of Section 13. A proration unit covering the W/2 of the section, as opposed to a proration unit covering the S/2 of the section, has been proposed because the Cisco-Canyon and Morrow potential has been condemned in the E/2 of the section by the Shelby Federal #1 well.

According to our records the lease ownership in the proposed proration unit is as follows:

SUPRON	- 50%
Mark Wilson	- 12½%
Rio Pecos Corporation	- 12½%
Uriah Exploration, Inc.	- 25%

If you wish to participate in the proposed test we will submit an AFE and operating agreement. If, however, you choose not to participate, we will accept a farm-in of your interest which delivers a 75% NRI till payout with a 1/16 ORI converting to a 1/3 BI at payout.

Re: Section 13, Te22-S, R-24-E,
Eddy County, New Mexico
EC-300X Prospect

Dear Mr. Reishus:

Uriah Exploration and Mark Wilson, each, own an 80 acre leasehold in the SW/4 of Section 13, T-22-S, R-24-E. Uriah submitted to Supron a proposed unit covering the W/2 of Section 13 to drill a 10,700' Morrow test. Supron's response was that they planned to drill in the NW/4 of the section on a proration unit covering the W/2 of the section. Subsequently, Uriah filed a pooling application for the W/2 of Section 13 which will be heard in Santa Fe October 21, 1981.

We can appreciate your position of wanting a 100% owned proration unit, but we also feel that it makes good sense to communitize the W/2 of the section. The east half of the section has been condemned for the Morrow and Cisco-Canyon by the Supron Shelby Federal No. 1. If the west half of the section is developed by two horizontal proration units it will create 160 acre drainage for the south half of the Cisco-Canyon reservoir. This in turn will cause each operator to absorb the cost of a well to capture and share an amount of gas that could otherwise be captured with a 50% well cost.

We are now appealing to you to form a proration unit covering the W/2 of the section, with Supron to be the operator. We are prepared to pay our share of the costs and to participate as quickly as you can get the well started. This action will eliminate the time and expense

U.S.G.S. RECORDS
BEST AVAILABLE COPY

for both parties to plead their case to the New Mexico Oil and Gas Commission and would also let the Cisco-Canyon reservoir be drained in an orderly, controlled fashion.

Thank you for considering this proposal.

Sincerely,

Dean C. Boundy
