IV.

The above described leases owned by applicant cover the entire E/2 of said Section 10 with the exception of certain lands covered by the following described lease which is owned by C. M. Paul and Josephine Bay Paul, Midland, Texas, who have executed an Operating Agreement in favor of Applicant and have voluntarily agreed to commit their acreage to the formation of a unit consisting of said E/2 of Section 10:

Lessor: F. F. McCarty, et ux.

Lessee: Adobe Oil Company

Date of Lease: May 9, 1960

Recorded:

insofar as said lease covers the following described lands, to-wit:

SE/4 SE/4 of said Section 10, excepting a tract of 5.51 acres conveyed to John McDermott by deed recorded in Book 23, Page 71, Records of San Juan County, New Mexico.

V.

Applicant, as Operator, on or about April 17, 1961, commenced drilling a test well for oil and gas, said well being located in the SW/4 NE/4 of said Section 10, 1850 feet south of the north line and 1550 feet from the east line, which acreage is covered by Tract No. 2 above described.

VI.

By letter dated April 27, 1961, and received by Applicant on April 28, 1961, Oscar L. Donisthorpe, 2611 Highland Place, Farmington, New Mexico, notified the Applicant that he was asserting title to all or a part of the minerals underlying the following described land, upon which said test well is located, free of the leasehold estate created by any oil and gas lease:

Township 31 North, Range 13 West, N.M.P.M.

Section 10: A tract of land in the Southwest quarter Northeast quarter and Northwest Southeast described as: commencing 250 feet south of the Northeast corner of the Southwest quarter of Northeast quarter of said Section 10; thence South 1787.15 feet; thence North 89° 54', 499.64 feet to a point on the East Right of Way Line of State Highway No. 17; thence North 8° 40' West, 1807.70 feet along the said East Right of Way Line of State Highway No. 17; thence South 89° 54' East 771.44 feet to the point of beginning, containing 26.074 acres, more or less.

VII.

In order that said drilling operations might be continued and the correlative rights of the other interested parties in the proposed unit might be protected, pending a determination of said dispute, Applicant has made a diligent effort to obtain a voluntary agreement of Oscar L. Donisthorpe

to pool and unitize his mineral interests, if any, in order that a unit could be formed voluntarily consisting of the E/2 of said Section 10 and in conformity with the Rules and Regulations of the Oil Conservation Commission of the State of New Mexico. Despite these efforts, said Oscar L. Donisthorpe has refused to so commit his interest, if any, and unless he is required to so commit his acreage to the formation of the Unit, the rights of the other interested parties involved will be prejudiced including those of Applicant whose leases will soon expire unless production is obtained from Unit to which said leases have been formally committed. Further, the relief sought in this Application is necessary for the prevention of waste and as indicated above to protect and enforce the correlative rights of all other owners in said Unit and to avoid the drilling of unnecessary wells.

VIII.

The Commission has jurisdiction to hear and determine this cause,

WHEREFORE, Applicant respectfully requests that this matter be set for hearing before the Commission as soon as possible because of the relatively short time remaining before certain of the above-described leases will expire, all as prescribed by law and that upon due notice and hearing, the Commission issue its order requiring said Oscar L. Donisthorpe to pool and unitize his interests, if any, in order that a drilling unit of 320 acres, more or less, may be formed consisting of the E/2 of Section 10, Township 31 North, Range 13 West, N.M.P.M., San Juan County, New Mexico.
