DOCKET: REGULAR HEARING - WEDNESDAY - JUNE 14, 1961

OIL CONSERVATION COMMISSION - 9 A.M. MORGAN HALL, STATE LAND OFFICE
BUILDING, SANTA FE, NEW MEXICO

- ALLOWABLE:**
- (1) Consideration of the oil allowable for July, 1961.
 - (2) Consideration of the allowable production of gas for July, 1961, for ten prorated pools in Lea County, New Mexico. Consideration of the allowable production of gas for nine prorated pools in San Juan, Rio Arriba and Sandoval Counties, New Mexico, for July, 1961 and also presentation of purchaser's nominations for the six-month period beginning August 1, 1961 for that area.
- CASE 2304:** Application of the Oil Conservation Commission on its own motion to amend Rules 1209 and 1216 to conform to Section 65-3-11.1 of the New Mexico Statutes Annotated, 1953 compilation, as amended.
- CASE 2305:** Application of Texaco Inc. for permission to market stock tank liquids approximately 11.5 percent in excess of top unit allowable plus such other liquids, including propane, which may be recovered by the installation of an extraction and stabilization plant on its Little Lucky Lake Unit, Little Lucky Lake-Devonian Pool, Chaves County, New Mexico.
- CASE 2306:** Application of El Paso Natural Gas Company for an exception to Order No. R-333-C and D, as amended. Applicant, in the above-styled cause, seeks an exception to Order No. R-333-C and D, as amended, to provide for an administrative procedure whereby the time may be extended for conducting and reporting initial deliverability tests on gas wells in the Basin-Dakota Gas Pool, San Juan and Rio Arriba Counties, New Mexico, when the taking of such tests would prevent the full production of allowable from Pictured Cliffs wells connected to the same pipeline facility. Applicant further seeks an extension of time for conducting and reporting such tests for all Dakota wells without initial deliverability tests which, prior to October 1, 1961, are connected to a low-pressure pipeline facility servicing Pictured Cliffs wells. It is further requested that provision be made for assigning allowables based upon such delayed initial deliverability tests, effective retroactively to the date of connection of the Dakota well to the low-pressure pipeline facility.
