

# Epic Energy, LLC. Federal B #10,11,13,22 Tank Battery SITE SECURITY DIAGRAM

## **Attachment to the Site Security Diagram - Federal B #10,11,13,22 Tank Battery**

**Epic Energy, LLC.**

**Federal B #10,11,13,22 Tank Battery**

Lease# NM-6682

ULSTR: I-22-23N-07W

Footages: 2060 FSL 660 FEL

Sandoval County, New Mexico

## **Attachment to the Site Security Diagram - Federal B #10,11,13,22 Tank Battery**

### **Production phase:**

All drain valves (DV1) sealed closed.

All sales valves (SV1) sealed closed.

Fill Valve (FV1) open

### **Sales phase:**

The tank from which the sales are being made will be isolated by sealing closed the drain valve (DV1) and fill valve (FV1) and removing and recording the seal from (SV1) during the sale of the specified tank.

The sales valve will be sealed and recorded immediately following the sale.

### **Drain phase:**

The tank from which the drain is being made will be isolated by sealing closed the sales valve (SV1) and fill valve (FV1) during the water drain.

## Fuelgas Usage Calculations

Lease Name: Epic Energy, LLC.

Federal B #10,11,13,22 Tank Battery

Lease# NM-6682

ULSTR: I-22-23N-07W

Footages: 2060 FSL 660 FEL  
Sandoval County, New Mexico

## Pump Unit Engine Table

\*Fuel gas usage split between locations going into tank battery

## Fuel gas calculations methodology:

Fuel gas is calculated by using the BTU rating of the gas (wet rating) that has been determined via gas analysis, the elevation of the well (due to derating of HP), separator burner rating, natural gas engines located on location with the manufacturer HP rating at 80% load which is the maximum recommended continuous run rating HP from the manufacturers.

Main Burner gas usage calculation - (((burner BTU-hr/Actual BTU)\*24/1000)\*(Time % factor/100) = Gas used by main burner

Pilot Burner gas usage calculation - (((burner BTU-hr/Actual BTU)\*24/1000)\*(Time % factor/100) = Gas used by main burner

Pump unit engine - fuel usage per manufacturer specs if available, if not, calculated per HP calculations comparable to compressor calcs

Compressor fuel usage -

calculated by derating engine for the elevation - (HP Rating @ 80% Load)\*(1-((Elevation-2000)/1000))\*(Elevation derating factor for naturally aspirated or turbo charged engines)

then using the following formula - ((Engine fuel usage from manufacturer/BTU from gas analysis)\*Elevation derated HP)\*24/1000

Fuel usage for all equipment is then summed for the site.

**Fuel gas calculations methodology:**

Fuel gas is calculated by using the BTU rating of the gas (wet rating) that has been determined via gas analysis, the elevation of the well (due to derating of HP), separator burner rating, natural gas engines located on location with the manufacturer HP rating at 80% load which is the maximum recommended continuous run rating HP from the manufacturers.

Main Burner gas usage calculation -  $\left(\frac{\text{burner BTU-hr/Actual BTU} \times 24}{1000}\right) \times \left(\frac{\text{Time \% factor}}{100}\right) = \text{Gas used by main burner}$

Pilot Burner gas usage calculation -  $\left(\frac{\text{burner BTU-hr/Actual BTU} \times 24}{1000}\right) \times \left(\frac{\text{Time \% factor}}{100}\right) = \text{Gas used by main burner}$

Pump unit engine - fuel usage per manufacturer specs if available, if not, calculated per HP calculations comparable to compressor calcs

Compressor fuel usage -

calculated by derating engine for the elevation -

$(\text{HP Rating @ 80\% Load}) \times (1 - \left(\frac{\text{Elevation} - 2000}{1000}\right) \times (\text{Elevation derating factor for naturally aspirated or turbo charged engines}))$

then using the following formula -  $\left(\frac{(\text{Engine fuel usage from manufacturer/BTU from gas analysis}) \times \text{Elevation derated HP} \times 24}{1000}\right)$

Fuel usage for all equipment is then summed for the site.

QUESTIONS  
  
Action 77224

QUESTIONS

Operator: EPIC ENERGY, L.L.C. 332 Road 3100 Aztec, NM 87410	OGRID: 372834
	Action Number: 77224
	Action Type: [UF-FAC] TB Registration (TB-REG)

QUESTIONS

<b>Facility Details</b>	
Please answer all of the questions in this group.	
Name of the facility	Federal B #10, 11, 13, 22 TB
Date the facility was opened	Not answered.
Depth to ground water, if known	Not answered.

<b>Verification</b>	
Does the operator have other facilities with a matching name	No
Are there other facilites located within approximately 50 feet	No
