RE: Concurrence with Revised Final Grading Plan for Commercial Surface Waste Management Facility (Permit NM1-3) Located in the South ½ of Section 29, Township 21 South, Range 38 East NMPM, in Lea County, New Mexico

Mr. Mussani,

The Oil Conservation Division (OCD) has reviewed the *First Quarter 2019 Progress Report* dated April 8, 2019 submitted on your behalf by Gordon Environmental/PSC regarding the Sundance Services, Inc. facility east of Eunice, New Mexico. The report provides a revised final grading plan in Attachment B asking for OCD's review and concurrence.

Jordan Engineering, LLC undertook a review on behalf of the OCD and has confirmed the revised grading plan is needed to facilitate adjustments to the volume of waste materials both in place and accepted at this time requiring solidification prior to disposal. The revision does not constitute a modification as it is the result of actual conditions typically encountered in operation and closure of such a facility. The intent of the revised plan is consistent with that of the closure plan previously approved by the OCD.

The OCD concurs with the revised final grading plan with the following conditions: 1) Sundance Services, Inc. must confirm the previously agreed schedule for closure has not changed, 2) an updated estimate of closure/post closure costs must be submitted along with any indicated adjustment in financial assurance, and 3) you must continue to consult with the OCD on closure progress.

If you have any questions, please contact me at (505) 476-3465 or by email at jim.griswold@state.nm.us.

Respectfully,

Jim Griswold
Environmental Bureau Chief
