**1RF-12 - SOUTH RED HILLS REUSE WATER FACILITY AND CONTAINMENT PIT [fTO1716429249].**

Good afternoon Ms. Donald,

NMOCD has reviewed the permit annual extension request for 1RF-12 - South Red Hills Reuse Water Facility and Containment Pit Facility ID [fTO1716429249], received from EOG RESOURCES INC [7377] on 04/16/2025 Application ID 452594. The registration/permit extension request is approved with the following conditions of approval:

- The 1RF-12 - South Red Hills Reuse Water Facility and Containment Pit Facility ID [fTO1716429249] is approved for one (1) year of operation from the date of the previous registration/permit expiration date of May 5, 2025. The new registration/permit expiration date is May 5, 2026.
- EOG RESOURCES INC [7377] will continue to operate, maintain, and close the 1RF-12 - South Red Hills Reuse Water Facility and Containment Pit Facility ID [fTO1716429249] in compliance with 19.15.34 NMAC, to include but not limited to the performance of weekly inspections regardless of fluid levels in the containment; recording of detailed inspection reports; removal of debris, foreign objects and oil from the containment; and monthly reporting of recycling and reuse of produced water, drilling fluids, and liquid oil field waste via from C-148.
- EOG RESOURCES INC [7377] will maintain a liquid level in the containment that is at least equal to the weight of the liner plus 20%. EOG RESOURCES INC [7377] may maintain a higher liquid level if they choose.
- If less than 20% of the total fluid capacity is utilized every consecutive six months, operation of the facility is considered ceased and notification of cessation of operations should be sent electronically to OCD Online. An extension to extend the cessation of operations, not to exceed six months, may be submitted using a C-147 form through OCD Online. However, if after that 6-month period, the containment was not utilized at a minimum of 20% fluid capacity, no additional extensions would be granted, and the operator would be directed to remove all fluids and proceed with the closure requirements.
- The recycling containment is bonded pursuant to 19.15.8 NMAC per 19.15.34.15(A)(2) NMAC. Water reuse and recycling from 1RF-12 - South Red Hills Reuse Water Facility and Containment Pit Facility ID [fTO1716429249] is limited to wells owned or operated by EOG RESOURCES INC [7377].
- A minimum of 3-feet freeboard must be maintained in the recycling containment at all times.
- EOG RESOURCES INC [7377] will comply with 19.15.29 NMAC Releases in the event of any release of produced water or produced water or other oil field wastes at 1RF-12 - South Red Hills Reuse Water Facility and Containment Pit Facility ID [fTO1716429249]. EOG RESOURCES INC [7377] will comply with all other OCD rules.
- EOG RESOURCES INC [7377] must perform weekly inspections of the containment and leak detection system.
- If EOG RESOURCES INC [7377] wishes to extend the registration/permit past May 5, 2026, a registration/permit extension request must be submitted to OCD. Extension requests are reviewed on a case-by-case basis and evaluated on their merit. Extensions are considered for a maximum length of one year. Additional requests must be submitted to OCD through the OCD Online system on a Form C-147 (long form) as an Extension request and should include a formal extension request letter, a summary of the prior

registration/permit period inspection reports, and the copies of the detailed inspection records for the prior permit period. The extension request should be submitted no later than April 5, 2026.

Please let me know if you have any additional questions.

Regards,
