

NM1-5 Draft Renewal Permit Proof of Public Notice

June 16, 2025

Ms. Leigh Barr
Supervisor – Administrative Permitting Program
EMNRD – Oil Conservation Division
1220 S. St. Francis Drive
Santa Fe, New Mexico 87505

Re: 43912.24 Basin Disposal
Documentation of Public Notice of Tentative Decision

Dear Ms. Barr:

On behalf of our client, Basin Disposal, Inc. (BDI), Parkhill is pleased to submit the enclosed documentation comprising proof of Notice of Tentative Decision per 19.15.36.9.F NMAC for the BDI Surface Waste Management Facility Application for Permit Renewal (NM1-5).

OCD issued the Tentative Decision for the BDI Permit Renewal NM1-5 on April 24, 2025. Upon receipt of the OCD's proposed decision to approve the Permit Renewal with conditions, the Applicant was required to provide written notice by certified mail, return-receipt requested, of the Division's proposed decision to surface owners within one-half mile of the facility boundary (19.15.36.9.C(1) NMAC).

The BDI facility is located in San Juan County, New Mexico (NM). The San Juan County Assessor maintains property records online at: <http://webmaps.sjcounty.net/portal/apps/webappviewer>. Parkhill reviewed the Assessor's records in order to update the list of surface owners within one-half mile of the BDI site (Attachment 1.A.1) and Attachment 1.A.2 lists "List of Entities Whom Notice was Mailed." A corresponding map, identifying the surface owners of record, is provided as Attachment 1.A.3.

The Notice language (per 19.15.36.9.D NMAC) is provided as Attachment 1.A.4. Per 19.15.36.9.E NMAC, Notice mailings (or email) to owners of record, governmental and tribal entities, and interested persons identified by OCD, were completed on May 14, 2025 as identified on Exhibits 1 and 2, and copies of the certified mailings, return receipts, and first class are provided as Attachment 1.A.5.

The Applicant is also required to publish notice in a newspaper of general circulation in the county where the surface waste management facility is or will be located (19.15.36.9.C(2) NMAC). Notice was published in the Tri-City Record a local newspaper, on May 16, 2025 A copy of the newspaper ads and Affidavit of Publication is provided as Attachment 1.A.6.

A list of persons (including email addresses) who have requested notification of application was provided by OCD as an Attachment 1.A. to the Tentative Decision dated 01/24/2020. Parkhill issued an email containing the Notice to these persons on May 14, 2025 (19.15.36.9.C(3) NMAC). A copy of this email Notice is provided as Attachment 1.A.7.

Ms. Leigh Bar

NOTICE OF APPLICATION BASIN DISPOSAL, INC. (BDI) – SURFACE WASTE MANAGEMENT FACILITY

Pursuant to 19.15.36, Oil Conservation Division Surface Waste Management Facilities regulations, Basin Disposal, Inc. (BDI) is providing notice that the Oil Conservation Division (OCD) has completed its technical review of the Application for Permit Renewal to an existing Surface Waste Management Facility Permit NM-01-0005 submitted by BDI. OCD has tentatively decided on Permit Approval (with conditions), and will be posting this decision along with the draft Permit on its website [<https://www.emnrd.nm.gov/OCD/applications-permits-notifications/>].

1. **Applicant's name and address:** Mr. Jerry Sandel, President Basin Disposal, Inc., P.O. Box 100, Aztec, NM 87410. Contact Mr. Brett Lanier, General Manager, Telephone: 505.632.8936
2. **Facility location and address:** The Basin Disposal, Inc. Facility is located approximately 3 miles north of the intersection of State Roads 550 and 64, 200 Montana Street, Bloomfield, NM 87413
3. **Brief description of surface waste management facility:** The existing 27.77 acre facility includes Evaporation Ponds #1 and #3, 12 receiving tanks, 4 oily water receiving tanks, 3 skimmed oil tanks, 3 oil heating tanks, 2 separation tanks, 3 settling tanks, 7 oil sales tanks, 3 filtered water tanks, 4 bleach tanks, 1 concrete solidification basin, 2 covered below-grade tanks, 1 injection well, various support facilities including office, maintenance building, roads, and detention basin. Future facilities, previously approved but not yet constructed, include an additional evaporation pond (approximately 2 acres) constructed with 60-mil high density polyethylene (HDPE) primary liner, leak detection, and secondary liner systems. In addition, 6 additional oil field waste liquid receiving tanks and 2 oil sales tanks will be installed at the facility.
4. **Depth and quality of shallowest aquifer:** The depth to the perched water zone beneath the site ranges from 29.25 feet in assessment well (AW) AW-1 to 42 feet in AW-2 with the total dissolved solids (TDS) determined to be 38,000 mg/l and 24,000 mg/l, respectively. Fresh water beneath the site is projected at a depth of at least 105' below the lowest elevation on-site. The on-site monitor wells are completed within the Nacimiento Formation. Chemical analyses from these wells generally indicate a total dissolved solids concentration of approximately 24,000 milligrams per liter (mg/L) and a maximum concentration of approximately 38,000 mg/L.
5. **The Division's Proposed Decision:** (with conditions as appropriate) is made available on the Division's website [<https://www.emnrd.nm.gov/OCD/applications-permits-notifications/>]; and can be requested from the Division Clerk at:

Ms. Freya Tschantz
Oil Conservation Division
1220 S. St. Francis Drive
Santa Fe, NM 87505
505.469.5527

Freya.tschantz@emnrd.nm.gov

Interested parties may contact Ms. Leigh Barr, Administrative Permitting Program Supervisor, Oil Conservation Division at 505.795.1722 or via email at leighp.barr@emnrd.nm.gov for further information.

6. The following list is a description, considered by the Division, of **alternatives, exceptions** or waivers in accordance with 19.15.36.19 NMAC "Exceptions and Waivers":

A. In a surface waste management facility permit application, the applicant may propose alternatives to requirements of 19.15.36 NMAC, and the division may approve such alternatives if it determines that the proposed alternatives will provide equivalent protection of fresh water, public health and the environment.

Basin Disposal, Inc. is requesting to continue the use of the following alternatives:

- Bird Control Alternatives per 19.15.36.13.I and 19.15.36.17.C(3) NMAC (Volume II.6):
BDI requests an exemption to not place screening material over ponds for migratory bird protection. BDI will inspect the evaporation ponds daily for birds and Should BDI discover migratory bird activity, inspection and scare tactics frequency will be increased to alleviate the roosting of the birds. Should migratory bird landings become an ongoing concern, BDI will implement more aggressive techniques, such as netting or screening, after review and discussion with OCD and qualified wildlife experts.

- Evaporation, Storage, Treatment, and Skimmer pond construction standards 19.15.36.17.B(9) NMAC (Volume III, Sections 1 and 3):
BDI requests to utilize a 200 mil geonet instead of a 2-foot-thick compacted soil leak detection system. With a design transmissivity of $1 \times 10^{-3} \text{ m}^2/\text{sec}$, it will provide fluid flow potential superior to the prescriptive leak detection layer of 2 ft of pervious soils
- Setback to Watercourse Criteria 19.15.36.13.B(1) NMAC (Volume IV, Section 1):
An ephemeral (intermittent) watercourse does exist immediately south of the facility fence line. Documentation regarding the locations of water courses, lakebeds, sinkholes, and playa lakes with respect to the BDI site is provided in Volume IV.1 of the Application, including on-site reconnaissance by qualified experts. The operations maintenance and inspections program instituted at BDI provide protection of fresh water, public health and the environment equivalent to the required separation from a watercourse, lakebed, sinkhole or playa described in 19.15.36.13.B(1). Existing measures are proven to be effective in preventing runoff from the facility impacting the arroyo. Therefore, BDI is requesting an exception to the 200-foot separation requirements for watercourses.

Demonstrations and justifications have been provided in the referenced sections and associated technical documentation.

7. The procedures for requesting a hearing on the Application are outlined in 19.15.4 NMAC, as enumerated below:

TITLE 19 NATURAL RESOURCES AND WILDLIFE
CHAPTER 15 OIL AND GAS
PART 4 ADJUDICATION

19.15.4.1 ISSUING AGENCY: Oil Conservation Commission.
 [19.15.4.1 NMAC - Rp, 19.15.14.1 NMAC, 12/1/2008; A, 6/26/2018]

19.15.4.8 INITIATING AN ADJUDICATORY HEARING:

- A. The division, attorney general, an operator or producer or other person with standing may file an application with the division for an adjudicatory hearing. The director, upon receiving a division examiner's recommendation, may dismiss an application for an adjudicatory proceeding upon a showing that the applicant does not have standing. The person applying for the hearing or an attorney representing that person shall sign the application requesting an adjudicatory hearing. The application shall include:
 - (1) the applicant's name;
 - (2) the applicant's address, or the address of the applicant's attorney, including an e-mail address and fax number if available;
 - (3) the name or general description of the common source or sources of supply or the area the order sought affects;
 - (4) briefly, the general nature of the order sought;
 - (5) a proposed legal notice for publication; and
 - (6) any other matter division rules or a division order requires.
- B. Applicants for adjudicatory hearings shall file written applications with the division clerk at least 30 days before the application's scheduled hearing date.
 [19.15.4.8 NMAC - Rp, 19.15.14.1206 NMAC, 12/1/2008]

NOTICE OF APPLICATION BASIN DISPOSAL, INC. (BDI) – SURFACE WASTE MANAGEMENT FACILITY

Pursuant to 19.15.36, Oil Conservation Division Surface Waste Management Facilities regulations, Basin Disposal, Inc. (BDI) is providing notice that the Oil Conservation Division (OCD) has completed its technical review of the Application for Permit Renewal to an existing Surface Waste Management Facility Permit NM-01-0005 submitted by BDI. OCD has tentatively decided on Permit Approval (with conditions), and will be posting this decision along with the draft Permit on its website [<https://www.emnrd.nm.gov/OCD/applications-permits-notifications/>].

1. **Applicant's name and address:** Mr. Jerry Sandel, President Basin Disposal, Inc., P.O. Box 100, Aztec, NM 87410. Contact Mr. Brett Lanier, General Manager, Telephone: 505.632.8936
2. **Facility location and address:** The Basin Disposal, Inc. Facility is located approximately 3 miles north of the intersection of State Roads 550 and 64, 200 Montana Street, Bloomfield, NM 87413
3. **Brief description of surface waste management facility:** The existing 27.77 acre facility includes Evaporation Ponds #1 and #3, 12 receiving tanks, 4 oily water receiving tanks, 3 skimmed oil tanks, 3 oil heating tanks, 2 separation tanks, 3 settling tanks, 7 oil sales tanks, 3 filtered water tanks, 4 bleach tanks, 1 concrete solidification basin, 2 covered below-grade tanks, 1 injection well, various support facilities including office, maintenance building, roads, and detention basin. Future facilities, previously approved but not yet constructed, include an additional evaporation pond (approximately 2 acres) constructed with 60-mil high density polyethylene (HDPE) primary liner, leak detection, and secondary liner systems. In addition, 6 additional oil field waste liquid receiving tanks and 2 oil sales tanks will be installed at the facility.
4. **Depth and quality of shallowest aquifer:** The depth to the perched water zone beneath the site ranges from 29.25 feet in assessment well (AW) AW-1 to 42 feet in AW-2 with the total dissolved solids (TDS) determined to be 38,000 mg/l and 24,000 mg/l, respectively. Fresh water beneath the site is projected at a depth of at least 105' below the lowest elevation on-site. The on-site monitor wells are completed within the Nacimiento Formation. Chemical analyses from these wells generally indicate a total dissolved solids concentration of approximately 24,000 milligrams per liter (mg/L) and a maximum concentration of approximately 38,000 mg/L.
5. **The Division's Proposed Decision:** (with conditions as appropriate) is made available on the Division's website [<https://www.emnrd.nm.gov/OCD/applications-permits-notifications/>]; and can be requested from the Division Clerk at:

Ms. Freya Tschantz
Oil Conservation Division
1220 S. St. Francis Drive
Santa Fe, NM 87505
505.469.5527
Freya.tschantz@emnrd.nm.gov

Interested parties may contact Ms. Leigh Barr, Administrative Permitting Program Supervisor, Oil Conservation Division at 505.795.1722 or via email at leighp.barr@emnrd.nm.gov for further information.

6. The following list is a description, considered by the Division, of **alternatives, exceptions** or waivers in accordance with 19.15.36.19 NMAC "Exceptions and Waivers":
 - A. **In a surface waste management facility permit application, the applicant may propose alternatives to requirements of 19.15.36 NMAC, and the division may approve such alternatives if it determines that the proposed alternatives will provide equivalent protection of fresh water, public health and the environment.**

Basin Disposal, Inc. is requesting to continue the use of the following alternatives:

- Bird Control Alternatives per 19.15.36.13.I and 19.15.36.17.C(3) NMAC (Volume II.6):

BDI requests an exemption to not place screening material over ponds for migratory bird protection. BDI will inspect the evaporation ponds daily for birds and Should BDI discover migratory bird activity, inspection and scare tactics frequency will be increased to alleviate the roosting of the birds. Should migratory bird landings become an ongoing concern, BDI will implement more aggressive techniques, such as netting or screening, after review and discussion with OCD and qualified wildlife experts.

- Evaporation, Storage, Treatment, and Skimmer pond construction standards 19.15.36.17.B(9) NMAC (Volume III, Sections 1 and 3): BDI requests to utilize a 200 mil geonet instead of a 2-foot-thick compacted soil leak detection system. With a design transmissivity of 1×10^{-3} m²/sec, it will provide fluid flow potential superior to the prescriptive leak detection layer of 2 ft of pervious soils

- Setback to Watercourse Criteria 19.15.36.13.B(1) NMAC (Volume IV, Section 1):

An ephemeral (intermittent) watercourse does exist immediately south of the facility fence line. Documentation regarding the locations of water courses, lakebeds, sinkholes, and playa lakes with respect to the BDI site is provided in Volume IV.1 of the Application, including on-site reconnaissance by qualified experts. The operations maintenance and inspections program instituted at BDI provide protection of fresh water, public health and the environment equivalent to the required separation from a watercourse, lakebed, sinkhole or playa described in 19.15.36.13.B(1). Existing measures are proven to be effective in preventing runoff from the facility impacting the arroyo. Therefore, BDI is requesting an exception to the 200-foot separation requirements for watercourses.

Demonstrations and justifications have been provided in the referenced sections and associated technical documentation.

7. The procedures for requesting a hearing on the Application are outlined in 19.15.4 NMAC, as enumerated below:

TITLE 19 NATURAL RESOURCES AND WILDLIFE

CHAPTER 15 OIL AND GAS

PART 4 ADJUDICATION

19.15.4.1 ISSUING AGENCY: Oil Conservation Commission.

[19.15.4.1 NMAC - Rp, 19.15.14.1 NMAC, 12/1/2008; A, 6/26/2018]

19.15.4.8 INITIATING AN ADJUDICATORY HEARING:

- A. The division, attorney general, an operator or producer or other person with standing may file an application with the division for an adjudicatory hearing. The director, upon receiving a division examiner's recommendation, may dismiss an application for an adjudicatory proceeding upon a showing that the applicant does not have standing. The person applying for the hearing or an attorney representing that person shall sign the application requesting an adjudicatory hearing. The application shall include:

- (1) the applicant's name;
- (2) the applicant's address, or the address of the applicant's attorney, including an e-mail address and fax number if available;
- (3) the name or general description of the common source or sources of supply or the area the order sought affects;
- (4) briefly, the general nature of the order sought;
- (5) a proposed legal notice for publication; and
- (6) any other matter division rules or a division order requires.

- B. Applicants for adjudicatory hearings shall file written applications with the division clerk at least 30 days before the application's scheduled hearing date. [19.15.4.8 NMAC - Rp, 19.15.14.1206 NMAC, 12/1/2008]

Interested parties may contact Ms. Leigh Barr, Administrative Permitting Program Supervisor, Oil Conservation Division at 505.795.1722 or via email at leighp.barr@emnrd.nm.gov for further information.

- The following list is a description, considered by the Division, of **alternatives, exceptions** or waivers in accordance with 19.15.36.19 NMAC “*Exceptions and Waivers*”:
- A. In a surface waste management facility permit application, the applicant may propose alternatives to requirements of 19.15.36 NMAC, and the division may approve such alternatives if it determines that the proposed alternatives will provide equivalent protection of fresh water, public health and the environment.**

Basin Disposal, Inc. is requesting to continue the use of the following alternatives:

- Bird Control Alternatives per 19.15.36.13.I and 19.15.36.17.C(3) NMAC (**Volume II.6**):
- BDI requests an exemption to not place screening material over ponds for migratory bird protection. BDI will inspect the evaporation ponds daily for birds and Should BDI discover migratory bird activity, inspection and scare tactics frequency will be increased to alleviate the roosting of the birds. Should migratory bird landings become an ongoing concern, BDI will implement more aggressive techniques, such as netting or screening, after review and discussion with OCD and qualified wildlife experts.
- Evaporation, Storage, Treatment, and Skimmer pond construction standards 19.15.36.17.B(9) NMAC (Volume III, Sections 1 and 3):
- BDI requests to utilize a 200 mil geonet instead of a 2-foot-thick compacted soil leak detection system. With a design transmissivity of 1 x 10⁻³ m²/sec, it will provide fluid flow potential superior to the prescriptive leak detection layer of 2 ft of pervious soils
- Setback to Watercourse Criteria 19.15.36.13.B(1) NMAC (Volume IV, Section 1):

An ephemeral (intermittent) watercourse does exist immediately south of the facility fence line. Documentation regarding the locations of water courses, lakebeds, sinkholes, and playa lakes with respect to the BDI site is provided in Volume IV.1 of the Application, including on-site reconnaissance by qualified experts. The operations maintenance and inspections program instituted at BDI provide protection of fresh water, public health and the environment equivalent to the required separation from a watercourse, lakebed, sinkhole or playa described in 19.15.36.13.B(1). Existing measures are proven to be effective in preventing runoff from the facility impacting the arroyo. Therefore, BDI is requesting an exception to the 200-foot separation requirements for watercourses.

Demonstrations and justifications have been provided in the referenced sections and associated technical documentation.

- The procedures for requesting a hearing on the Application are outlined in 19.15.4 NMAC, as enumerated below:

TITLE 19 NATURAL RESOURCES AND WILDLIFE
CHAPTER 15 OIL AND GAS
PART 4 ADJUDICATION

19.15.4.1 ISSUING AGENCY: Oil Conservation Commission.
[19.15.4.1 NMAC - Rp, 19.15.14.1 NMAC, 12/1/2008; A, 6/26/2018]

19.15.4.8 INITIATING AN ADJUDICATORY HEARING:

A. The division, attorney general, an operator or producer or other person with standing may file an application with the division for an adjudicatory hearing. The director, upon receiving a division examiner’s recommendation, may dismiss an application for an adjudicatory proceeding upon a showing that the applicant does not have standing. The person applying for the hearing or an attorney representing that person shall sign the application requesting an adjudicatory hearing. The application shall include:

- (1) the applicant’s name;
- (2) the applicant’s address, or the address of the applicant’s attorney, including an e-mail address and fax number if available;
- (3) the name or general description of the common source or sources of supply or the area the order sought affects;
- (4) briefly, the general nature of the order sought;
- (5) a proposed legal notice for publication; and
- (6) any other matter division rules or a division order requires.

B. Applicants for adjudicatory hearings shall file written applications with the division clerk at least 30 days before the application’s scheduled hearing date.
