Form C-147 Revised October 11, 2022

https://www.emnrd.nm.gov/ocd/ocd-e-permitting/

Recycling Facility and/or Recycling Containment
Type of Facility: Recycling Facility Type of action: Permit Registration Annual Extension Request from Closure Other (explain) Recycling Containment* Registration Registration Annual Extension Request from 4/23/2025-4/23/2026
* At the time C-147 is submitted to the division for a Recycling Containment, a copy shall be provided to the surface owner.
Be advised that approval of this request does not relieve the operator of liability should operations result in pollution of surface water, ground water or the environment. Nor does approval relieve the operator of its responsibility to comply with any other applicable governmental authority's rules, regulations or ordinances.
Operator: DKL Field Services, LLC (For multiple operators attach page with information) OGR1D #: 372603 Address: 7102 Commerce Way, Brentwood, TX 37027
Facility or well name (include API# if associated with a well): Carlsbad 960/Dark Canyon Recycle Facility East Pit (30-015-45033) OCD Permit Number: 2RF-139 (For new facilities the permit number will be assigned by the district office) U/L or Qtr/Qtr SE/4 Section 23 Township 23S Range 26E County: Eddy Surface Owner: Federal State Private Tribal Trust or Indian Allotment
Recycling Facility: Location of recycling facility (if applicable): Latitude 32.285944 Longitude -104.258426 NAD83 Proposed Use: Drilling* Completion* Production* Plugging * *The re-use of produced water may NOT be used until fresh water zones are cased and cemented Other, requires permit for other uses. Describe use, process, testing, volume of produced water and ensure there will be no adverse impact on groundwater or surface water. Fluid Storage Above ground tanks Recycling containment Activity permitted under 19.15.17 NMAC explain type Activity permitted under 19.15.36 NMAC explain type: Other explain
☐ For multiple or additional recycling containments, attach design and location information of each containment ☐ Closure Report (required within 60 days of closure completion): ☐ Recycling Facility Closure Completion Date:
Recycling Containment: Annual Extension after initial 5 years (attach summary of monthly leak detection inspections for previous year) Center of Recycling Containment (if applicable): Latitude 32.287004 Longitude -104.256592 NAD83 For multiple or additional recycling containments, attach design and location information of each containment Lined Liner type: Thickness 40 Mil mil LLDPE HDPE PVC Other *40 Mil (secondary) 60-Mil (primary) String-Reinforced Liner Seams: Welded Factory Other Field Welds Volume: 500,000 bbl Dimensions: 485' x w 450' x D 14.5' Recycling Containment Closure Completion Date:

Bonding: Covered under heading agreement to 10.15.9 NIMAC and 10.15.24.15(AV2) NIMAC (These containments are limited to only the wells	awad a
Covered under bonding pursuant to 19.15.8 NMAC per 19.15.34.15(A)(2) NMAC (These containments are limited to only the wells	owned or
operated by the owners of the containment.)	-Ail barding
Bonding in accordance with 19.15.34.15(A)(1). Amount of bond \$ (work on these facilities cannot commence u	ntii bonding

Re: Extension Request of Permit 2RF-139, Carlsbad 960/Dark Canyon Water Recycling and

Containment Facility,

FACILITY ID [fBGB1911347430] East Pit

OGIRD [372603]

Delek Field Services, LLC (DKL FS) is respectfully submitting Form C-147 for the Carlsbad 960/Dark Canyon Water Recycling Facility. We are requesting an Annual Extension for the period from April 23, 2025 through April 23, 2026.

On July 10, 2025 the OCD approved an Annual Extension for this facility for the period from April 23, 2024 through April 23, 2025.

The Carlsbad 960/Dark Canyon Water Recycling Containment Facility was initially approved by the OCD on April 29, 2019. The original applicant, 3Bear Energy, indicated in its initial application that two pits were to be constructed at this facility, an "East Pit" and a "West Pit".

DKL FS assumed ownership and operation of the Carlsbad 960/Dark Canyon Recycling and Containment Facility on March 1, 2023 from 3Bear Field Services.

DKL FS states that the proposed "West Pit" at the facility was never constructed by 3Bear Energy.

Please note that in its prior C-147 filing, DKL FS incorrectly stated that there were two existing pits at the facility. This corrected filing for an April 23, 2026 extension correctly indicates that the only pit at the facility is the East Pit, the location of which is cited on the attached Form C-147.

DKL FS has audited this facility finding significantly higher recycle rates and is requesting this extension as well as providing revised C-148 information for this facility based on new information. This facility is essential for the reduction of freshwater usage and demand in Eddy County from oil and gas drilling operations and meets water recycling requirements for operation. We provide produced water in place of freshwater for drilling operations, in turn preserving the fresh water for agriculture, livestock and other types of human consumption. This process provides much needed relief for the withdrawal of groundwater in Eddy County.

Outside of market conditions, DKL FS continues to show good cause in operating this facility. DKL FS and the previous facility owner, (3Bear Field Services), as previously communicated, have invested millions of dollars in equipment, engineering services and geologic analysis to operate this facility since 2019. It is a key piece of DKL FS's recycling operations.

Allowing this facility to remain in operation also ensures the safe transportation, disposal, and recycling of produced water in Eddy County.

With regards to the requirement to provide the OCD with detailed inspection records for the requested permit extension, we state the following for your consideration:

- 1. Detailed inspection reports for this requested annual extension would normally be required for the period from April, 2024 through April, 2025;
- 2. Attached for your review are inspection reports produced by DKL FS for the period from April, 2024 through December, 2024. Please note that during this period, inspections of the containment were conducted, however, the inspection results were not documented;
- 3. Also attached for your review are **Detailed Inspection Reports** for the Carlsbad 960/Dark Canyon Containment for the period from January, 2025 through April, 2025.

The detailed inspection reports provided herein demonstrate that even though all detailed inspection reports for the requested extension are not available, the Carlsbad 960/Dark Canyon Recycling Containment has maintained integrity prior to, and during the period from April 23, 2024 through April 23, 2025.

We appreciate your consideration of the Annual Extension Request and are grateful for your assistance in this matter. We look forward to continued operation of this facility. Please contact Mr. Hector Sanchez at (432) 238-6465 or at hector.sanchez a deleklogistics.com if you have any questions.

Respectfully,

Kerry Mackey

Subject: 2RF-139 - Carlsbad 960/Dark Canyon Produced Water Impound Facility

[fBGB1911347430]

Attachments: C-147 2RF-139 - CARLSBAD 960-DARK CANYON PRODUCED WATER IMPOUND

FACILITY [FBGB1911347430] 10.15.2025.pdf

2RF-139 - Carlsbad 960/Dark Canyon Produced Water Impound Facility [fBGB1911347430]

Good morning Mr. Mackey.

NMOD has reviewed the registration/permit annual extension request for 2RF-139 - CARLSBAD 960/DARK CANYON PRODUCED WATER IMPOUND FACILITY [FBGB1911347430], received from [372603] DKL Field Services, LLC on 09/11/2025, Application ID **505234**. The registration/permit extension request is approved with the following conditions of approval:

- 2RF-139 CARLSBAD 960/DARK CANYON PRODUCED WATER IMPOUND FACILITY [FBGB1911347430] is approved for one (1) year of operation from the date of the previous registration/permit expiration date of April 23, 2025. The new registration/permit expiration date is April 23, 2026.
- [372603] DKL Field Services, LLC will continue to operate, maintain, and close the 2RF-139 CARLSBAD 960/DARK CANYON PRODUCED WATER IMPOUND FACILITY [FBGB1911347430] in compliance with 19.15.34 NMAC, to include but not limited to the performance of weekly inspections regardless of fluid levels in the containment; recording of detailed inspection reports; removal of debris, foreign objects and oil from the containment; and monthly reporting of recycling and reuse of produced water, drilling fluids, and liquid oil field waste via from C-148.
- [372603] DKL Field Services, LLC will maintain a liquid level in the containment that is at least equal to the weight of the liner plus 20%. [372603] DKL Field Services, LLC may maintain a higher liquid level if they choose.
- If less than 20% of the total fluid capacity is utilized every consecutive six months, operation of the facility is considered ceased and notification of cessation of operations should be sent electronically to OCD Permitting. An extension to extend the cessation of operations, not to exceed six months, may be submitted using a C-147 Long to OCD Permitting. However, if after this 6-month period, the containment was not utilized at a minimum of 20% fluid capacity, no additional extensions would be granted, and the operator would be directed to remove all fluids and proceed with the closure requirements.
- A minimum of 3-feet freeboard must be maintained in the recycling containment at all times.
- [372603] DKL Field Services, LLC will comply with 19.15.29 NMAC Releases in the event of any release of
 produced water or produced water or other oil field wastes at 2RF-139 CARLSBAD 960/DARK CANYON
 PRODUCED WATER IMPOUND FACILITY [FBGB1911347430]. [372603] DKL Field Services, LLC will comply
 with all other OCD rules.
- [372603] DKL Field Services, LLC must perform weekly inspections of the containment and leak detection system.
- If [372603] DKL Field Services, LLC wishes to extend the registration/permit past April 23, 2026, a registration/permit extension request must be submitted to OCD. Extension requests are reviewed on a case-by-case basis and evaluated on their merit. Extensions are considered for a maximum length of one year. Additional requests must be submitted to OCD on a Form C-147 as an Extension request and should include a formal extension request letter, a summary of the prior registration/permit period inspection

reports, and the copies of the detailed inspection records for the prior permit period. <u>The extension request should be submitted no later than March 23, 2026.</u>

Please let me know if you have any additional questions. Regards,

Victoria Venegas • Senior Environmental Scientist EMNRD - Oil Conservation Division 506 W. Texas Ave. Artesia, NM 88210 575.909.0269 | Victoria.Venegas@emnrd.nm.gov

The Oil Conservation Division (OCD) has approved the application, Application ID: 478848

From OCDOnline@state.nm.us < OCDOnline@state.nm.us >

Date Thu 7/10/2025 12:15 PM

To catanach_david@comcast.net < catanach_david@comcast.net >

To whom it may concern (c/o David Catanach for DKL Field Services, LLC),

The OCD has approved the submitted *Permit or Registration for Recycling and Re-use of Produced Water, Drilling Fluids and Liquid Oil Field Waste (Including Recycling Containment)* (C-147L), for facility ID (f#) fBGB1911347430, with the following conditions:

• 2RF-139 - CARLSBAD 960/DARK CANYON PRODUCED WATER IMPOUND FACILITY
[FBGB1911347430] is approved for one (1) year of operation from the date of the previous
registration/permit expiration date of April 23, 2024. The new registration/permit
expiration date is April 23, 2025. • If [372603] DKL Field Services, LLC wishes to extend the
registration/permit past April 23, 2025, a registration/permit extension request must be
submitted to OCD no later than March 23, 2025.

The signed C-147L can be found in the OCD Online: Imaging under the facility ID (f#).

If you have any questions regarding this application, please contact me.

Thank you,
Victoria Venegas
