R.L.P.

BEFORE THE OIL CONSERVATION COMMISSION
OF THE STATE OF NEW MEXICO

IN THE MATTER OF THE HEARING
CALLED BY THE OIL CONSERVATION
COMMISSION OF NEW MEXICO FOR
THE PURPOSE OF CONSIDERING:

CASE No. 4448
Order No. R-4060
NOMENCLATURE

APPLICATION OF MWJ PRODUCING COMPANY
FOR POOL REDELINEATION AND THE CREA-
TION OF A NEW POOL AND SPECIAL POOL
RULES, LEA COUNTY, NEW MEXICO.

ORDER OF THE COMMISSION

BY THE COMMISSION:

This cause came on for hearing at 9 a.m. on October 28, 1970, at Santa Fe, New Mexico, before Examiner Elvis A. Utz.

NOW, on this 10th day of November, 1970, the Commission, a quorum being present, having considered the testimony, the record, and the recommendations of the Examiner, and being fully advised in the premises,

FINDS:

(1) That due public notice having been given as required by law, the Commission has jurisdiction of this cause and the subject matter thereof.

(2) That the applicant, MWJ Producing Company, seeks the redelineation of the Mescalero Permo-Pennsylvanian Pool by the deletion therefrom of that portion of said pool contained in Sections 28 and 33, Township 10 South, Range 32 East, NMPM, Lea County, New Mexico.

(3) That the applicant further seeks the creation of a new pool for the production of oil from the Pennsylvanian formation for its Huber State Well No. 1, located in Unit K of said Section 33, with vertical limits comprising the Pennsylvanian formation, and with horizontal limits comprising the lands to be deleted from the Mescalero Permo-Pennsylvanian Pool.

-2-

CASE No. 4448

Order No. R-4060

(4) That the reservoir information presently available indicates that the horizontal limits of the Mescalero Permo-Pennsylvanian Pool, as presently designated, encompass more than one separate common source of supply.

(5) That the horizontal limits of the Mescalero Permo-Pennsylvanian Pool should, in order to prevent waste and protect correlative rights, be contracted by deleting therefrom the following-described lands in Lea County, New Mexico:

TOWNSHIP 10 SOUTH, RANGE 32 EAST, NMPM

Section 21: All

Section 28: All

Section 33: NW/4

(6) That in order to prevent waste and protect correlative rights, a new pool in Lea County, New Mexico, classified as an oil pool for Pennsylvanian production, should be created and designated the West Mescalero-Pennsylvanian Pool, with vertical limits comprising the Pennsylvanian formation, and horizontal limit comprising the following-described lands in Lea County, New Mexico:

TOWNSHIP 10 SOUTH, RANGE 32 EAST, NMPM

Section 33: W/2

(7) That the applicant further seeks the promulgation of special rules and regulations governing the newly created West Mescalero-Pennsylvanian Pool, including a provision for 160-acre spacing units and the assignment of an 80-acre proportional factor for allowable purposes.

(8) That in order to prevent the economic loss caused by the drilling of unnecessary wells, to avoid the augmentation of risk arising from the drilling of an excessive number of wells, to prevent reduced recovery which might result from the drilling of too few wells, and to otherwise prevent waste and protect correlative rights, temporary special rules and regulations providing for 160-acre spacing units and the assignment of 80-acre proportional factor of 4.00 should be promulgated for the West Mescalero-Pennsylvanian Pool.

(9) That the temporary special rules and regulations should provide for limited well locations in order to assure orderly development of the pool and protect correlative rights.

-3-

CASE No. 4448

Order No. R-4060

(10) That the temporary special rules and regulations should be established for a one-year period in order to allow the operators in the subject pool to gather reservoir information to establish the area that can be efficiently and economically drained and developed by one well.

(11) That this case should be reopened at an examiner hearing in October, 1971, at which time the operators in the subject pool should be prepared to appear and show cause why the West Mescalero-Pennsylvanian Pool should not be developed on less than 160-acre spacing units and to show cause why the 80-acre proportional factor of 4.00 assigned to the subject pool should or should not be retained.

IT IS THEREFORE ORDERED:

(1) That, effective November 15, 1970, the horizontal limits of the Mescalero Permo-Pennsylvanian Pool, Lea County, New Mexico, are hereby contracted by the deletion therefrom of the following-described lands:

TOWNSHIP 10 SOUTH, RANGE 32 EAST, NMPM

Section 21: All

Section 28: All

Section 33: NW/4

(2) That, effective November 15, 1970, a new pool in Lea County, New Mexico, classified as an oil pool for Pennsylvanian production, is hereby created and designated the West Mescalero-Pennsylvanian Pool, with vertical limits comprising the Pennsylvanian formation and horizontal limits comprising the following-described lands:

TOWNSHIP 10 SOUTH, RANGE 32 EAST, NMPM

Section 33: W/2

(3) That, effective November 15, 1970, temporary Special Rules and Regulations for the West Mescalero-Pennsylvanian Pool, Lea County, New Mexico, are hereby promulgated as follows:

SPECIAL RULES AND REGULATIONS
FOR THE
WEST MESCALERO-PENNSYLVANIAN POOL

RULE 1. Each well completed or recompleted in the West Mescalero-Pennsylvanian Pool or in the Pennsylvanian formation

-4-

CASE No. 4448

Order No. R-4060

within one mile thereof, and not nearer to or within the limits of another designated Pennsylvanian oil pool, shall be spaced, drilled, operated, and produced in accordance with the Special Rules and Regulations hereinafter set forth.

RULE 2. Each well shall be located on a standard unit containing 160 acres, more or less, substantially in the form of a square, which is a quarter section being a legal subdivision of the United States Public Land Surveys.

RULE 3. The Secretary-Director of the Commission may grant an exception to the requirements of Rule 2 without notice and hearing when an application has been filed for a non-standard unit consisting of less than 160 acres or the unorthodox size or shape of the tract is due to a variation in the legal subdivision of the United States Public Land Surveys. All operators offsetting the proposed non-standard unit shall be notified of the application by registered or certified mail, and the application shall state that such notice has been furnished. The Secretary-Director may approve the application upon receipt of written waivers from all offset operators or if no offset operator has entered an objection to the formation of the non-standard unit within 30 days after the Secretary-Director has received the application.

RULE 4. Each well shall be located within 150 feet of the center of a governmental quarter-quarter section or lot.

RULE 5. The Secretary-Director may grant an exception to the requirements of Rule 4 without notice and hearing when an application has been filed for an unorthodox location necessitated by topographical conditions or the recompletion of a well previously drilled to another horizon. All operators offsetting the proposed location shall be notified of the application by registered or certified mail, and the application shall state that such notice has been furnished. The Secretary-Director may approve the application upon receipt of written waivers from all operators offsetting the proposed location or if no objection to the unorthodox location has been entered within 20 days after the Secretary-Director has received the application.

RULE 6. A standard proration unit (158 through 162 acres) shall be assigned an 80-acre proportional factor of 4.00 for allowable purposes, and in the event there is more than one well on a 160-acre proration unit, the operator may produce the allowable assigned to the unit from the wells on the unit in any proportion.

-5-

CASE No. 4448

Order No. R-4060

The allowable assigned to a non-standard proration unit shall bear the same ratio to a standard allowable as the acreage in such non-standard unit bears to 160 acres.

IT IS FURTHER ORDERED:

(1) That the locations of all wells presently drilling to or completed in the West Mescalero-Pennsylvanian Pool or in the Pennsylvanian formation within one mile thereof are hereby approved; that the operator of any well having an unorthodox location shall notify the Hobbs District Office of the Commission in writing of the name and location of the well on or before December 1, 1970.

(2) That, pursuant to Paragraph A. of Section 65-3-14.5, NMSA 1953, contained in Chapter 271, Laws of 1969, existing wells in the West Mescalero-Pennsylvanian Pool shall have dedicated thereto 160 acres in accordance with the foregoing pool rules; or, pursuant to Paragraph C. of said Section 65-3-14.5, existing wells may have non-standard spacing or proration units established by the Commission and dedicated thereto.

Failure to file new Forms C-102 with the Commission dedicating 160 acres to a well or to obtain a non-standard unit approved by the Commission within 60 days from the date of this order shall subject the well to cancellation of allowable. Until said Form C-102 has been filed or until a non-standard unit has been approved, and subject to said 60-day limitation, each well presently drilling to or completed in the West Mescalero-Pennsylvanian Pool or in the Pennsylvanian formation within one mile thereof shall receive no more than one-fourth of a standard allowable for the pool.

(3) That this case shall be reopened at an examiner hearing in October, 1971, at which time the operators in the subject pool may appear and show cause why the West Mescalero-Pennsylvanian Pool should not be developed on less than 160-acre spacing units and to show cause why the 80-acre proportional factor of 4.00 assigned to the subject pool should or should not be retained.

-6-

CASE No. 4448

Order No. R-4060

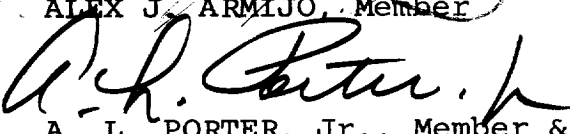

(4) That jurisdiction of this cause is retained for the entry of such further orders as the Commission may deem necessary.

DONE at Santa Fe, New Mexico, on the day and year hereinabove designated.
