Please explain reason for why this event was beyond your operator's control	Inlet gas was flared when the facility lost third party purchase power. Inlet gas was flared to protect personnel and equipment. The facility was being properly operated when the facility lost third party purchase power.
Steps taken to limit the duration and magnitude of venting and/or flaring	Inlet gas was flared until the third party purchase power could be restored.
Corrective actions taken to eliminate the cause and reoccurrence of venting and/or flaring	There was no corrective action required by Targa; this was a third party event outside Targa's control. When third party purchase power was restored, normal operations resumed and flaring ceased.
