Please explain reason for why this event was beyond your operator's control	Not answered.
Steps taken to limit the duration and magnitude of venting and/or flaring	Lucid Energy, our midstream provider, saw high line pressure across the LEA field. Due to this Tap Rock flare numbers spiked larger than regulated volumes. Once Lucid can solve their issue, Tap Rock should see normal operations.
Corrective actions taken to eliminate the cause and reoccurrence of venting and/or flaring	Lucid Energy, our midstream provider, saw high line pressure across the LEA field. Due to this Tap Rock flare numbers spiked larger than regulated volumes. Once Lucid can solve their issue, Tap Rock should see normal operations. Tap Rock is analyzing how to capture all of this excess gas to remain compliant.
