Please explain reason for why this event was beyond this operator's control	Freezing temperatures caused our lines to freeze and we were unable to predict events like this.
Steps taken to limit the duration and magnitude of vent or flare	We sent field employees to location as soon as our alarms sounded. They were able to open a hot gas valve that thawed our lines.
Corrective actions taken to eliminate the cause and reoccurrence of vent or flare	We still have a second compressor on order to install as a redundant equipment to avoid future failures.
