Steps and Actions to Prevent Waste	
For this event, this operator could not have reasonably anticipated the current event and it was beyond this operator's control.	True
Please explain reason for why this event was beyond this operator's control	Lucid's Red Hills Plant was shut in today due to an O2 excursion from a producer receipt point in the field. The source has been identified and shut in. Lucid personnel are currently in progress on purging the residue line and getting our downstream markets fully opened up and the Red Hills plant back to full rate ASAP. Lucid field personnel will be bringing compression online as pressures allow. We currently expect this process to take 3-4 hours. Lucid field personnel will be reaching out to producer field personnel as we progress.
