QUESTIONS

| Date(s) and Time(s)                            |            |
|------------------------------------------------|------------|
| Date vent or flare was discovered or commenced | 05/06/2022 |
| Time vent or flare was discovered or commenced | 03:06 PM   |
| Time vent or flare was terminated              | 06:06 PM   |
| Cumulative hours during this event             | 3          |

| Measured or Estimated Volume of Vented or Flared Natural Gas              |                                                                                                              |
|---------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------|
| Natural Gas Vented (Mcf) Details                                          | Not answered.                                                                                                |
| Natural Gas Flared (Mcf) Details                                          | Cause: Other   Other (Specify)   Natural Gas Flared   Released: 246 Mcf   Recovered: 0 Mcf   Lost: 246 Mcf ] |
| Other Released Details                                                    | Not answered.                                                                                                |
| Additional details for Measured or Estimated Volume(s). Please specify    | Not answered.                                                                                                |
| Is this a gas only submission (i.e. only significant Mcf values reported) | Yes, according to supplied volumes this appears to be a "gas only" report.                                   |

| Venting or Flaring Resulting from Downstream Activity             |                                        |
|-------------------------------------------------------------------|----------------------------------------|
| Was this vent or flare a result of downstream activity            | Yes                                    |
| Was notification of downstream activity received by this operator | Yes                                    |
| Downstream OGRID that should have notified this operator          | [330291] 3 Bear Energy-Cottonwood, LLC |
| Date notified of downstream activity requiring this vent or flare | 05/06/2022                             |
| Time notified of downstream activity requiring this vent or flare | 02:00 PM                               |

| Steps and Actions to Prevent Waste                                                                                               |                                                                                                                      |
|----------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------|
| For this event, this operator could not have reasonably anticipated the current event and it was beyond this operator's control. | True                                                                                                                 |
| Please explain reason for why this event was beyond this operator's control                                                      | Our gas buyer (3 Bear) had compressor failure issue and stopped taking our gas, which resulted to this flaring event |
| Steps taken to limit the duration and magnitude of vent or flare                                                                 | We shut in the well and limited the production                                                                       |
| Corrective actions taken to eliminate the cause and reoccurrence of vent or flare                                                | Our gas buyer (3 Bear) had compressor failure issue                                                                  |
