Steps and Actions to Prevent Waste	
For this event, this operator could not have reasonably anticipated the current event and it was beyond this operator's control.	True
Please explain reason for why this event was beyond this operator's control	The gas gatherer has taken the line out of service. Producing the oil volumes are critical to maintain the leases and preserve our fiduciary responsibilities to stakeholders. Work is in progress for a permanent solution to resolve flaring.
Steps taken to limit the duration and magnitude of vent or flare	Construction of on-site natural gas power generation is in progress. The generation will consume 100% of the flared natural gas. Amendment 2 to the ACO has been approved.
Corrective actions taken to eliminate the cause and reoccurrence of vent or flare	Completed the engineering design, project approval and procurement of materials. Construction is currently in progress.
