Please explain reason for why this event was beyond this operator's control	Leased Tank Battery compressor went down requiring parts and maintenance. This caused the facility to pressure up due to high line pressure.
Steps taken to limit the duration and magnitude of vent or flare	Mechanic was notified immediately and tasked with getting the unit repaired and operational.
Corrective actions taken to eliminate the cause and reoccurrence of vent or flare	We keep a compressor mechanic in the field during the week to service and maintain the compressors due to normal high line pressure.
