Re: Plant Outage Associated with Moisture Breakthrough and Blockage in Cryo

Dear Bill,

The purpose of this notice is to provide information regarding the recent outage at the Campo Viejo Plant (the "Plant").

In July of 2022, Stakeholder brought online its recent capacity expansion. During this period, Stakeholder identified that a moisture breakthrough had occurred from the dehydration beds, and that a small amount of water was introduced to the cryogenic process. At the time, it was determined that the impact of the moisture was de minimis to the current operations and could safely be addressed at a later date.

In August, Stakeholder became aware of a blockage in the process that had an impact on the operating efficiency of the plant, but did not impact overall utilization or present a safety concern. Stakeholder decided to maintain operations while closely monitoring the situation, noting that at some point in the future, an outage would be required to address the blockage.

On Saturday, September 10th, Stakeholder observed a notable change in the operating condition of the plant, indicating a shift of the blockage to another phase of the process, and began reviewing options to mitigate the potential risk. On Monday, September 12th, Stakeholder determined that the best course of action would be to address the blockage immediately to avoid a greater impact and longer plant downtime by waiting to address the issue in the future.

The following steps were taken to address the blockage:

- 9/13 – Received nitrogen waiver for the outage in order to minimize downtime
- 9/14, 7:00a – Shut down Campo Viejo to begin warmup and depressuring of cryo tower
- 9/15, 3:30p – Completed cleanout and reintroduced field gas and began plant startup process; total inlet flow limited to 40MMcfd due to residue market limitations
- 9/16, 10:30a – Plant restored to full capacity

We appreciate your patience and business. If you have any questions, please do not hesitate to contact me at 210-888-5087.

Respectfully,

A handwritten signature in blue ink, appearing to read "Josh Roberts".

QUESTIONS

Action 146320

QUESTIONS

Operator: STEWARD ENERGY II, LLC 2600 Dallas Parkway Frisco, TX 75034	OGRID: 371682
	Action Number: 146320
	Action Type: [C-129] Venting and/or Flaring (C-129)

QUESTIONS**Prerequisites**

Any messages presented in this section, will prevent submission of this application. Please resolve these issues before continuing with the rest of the questions.

Incident Well	[30-025-45933] SALAMANCA STATE #001H
Incident Facility	Not answered.

Determination of Reporting Requirements

Answer all questions that apply. The Reason(s) statements are calculated based on your answers and may provide additional guidance.

Was this vent or flare caused by an emergency or malfunction	Yes
Did this vent or flare last eight hours or more cumulatively within any 24-hour period from a single event	Yes
Is this considered a submission for a vent or flare event	Yes, minor venting and/or flaring of natural gas.

An operator shall file a form C-141 instead of a form C-129 for a release that, includes liquid during venting and/or flaring that is or may be a major or minor release under 19.15.29.7 NMAC.

Was there at least 50 MCF of natural gas vented and/or flared during this event	Yes
Did this vent or flare result in the release of ANY liquids (not fully and/or completely flared) that reached (or has a chance of reaching) the ground, a surface, a watercourse, or otherwise, with reasonable probability, endanger public health, the environment or fresh water	No
Was the vent or flare within an incorporated municipal boundary or withing 300 feet from an occupied permanent residence, school, hospital, institution or church in existence	No

Equipment Involved

Primary Equipment Involved	Not answered.
Additional details for Equipment Involved. Please specify	Not answered.

Representative Compositional Analysis of Vented or Flared Natural Gas

Please provide the mole percent for the percentage questions in this group.

Methane (CH4) percentage	69
Nitrogen (N2) percentage, if greater than one percent	5
Hydrogen Sulfide (H2S) PPM, rounded up	0
Carbon Dioxide (CO2) percentage, if greater than one percent	5
Oxygen (O2) percentage, if greater than one percent	0

If you are venting and/or flaring because of Pipeline Specification, please provide the required specifications for each gas.

Methane (CH4) percentage quality requirement	Not answered.
Nitrogen (N2) percentage quality requirement	Not answered.
Hydrogen Sulfide (H2S) PPM quality requirement	Not answered.
Carbon Dioxide (CO2) percentage quality requirement	Not answered.
Oxygen (O2) percentage quality requirement	Not answered.

QUESTIONS, Page 2

Action 146320

QUESTIONS (continued)

Operator: STEWARD ENERGY II, LLC 2600 Dallas Parkway Frisco, TX 75034	OGRID: 371682
	Action Number: 146320
	Action Type: [C-129] Venting and/or Flaring (C-129)

QUESTIONS

Date(s) and Time(s)	
Date vent or flare was discovered or commenced	09/15/2022
Time vent or flare was discovered or commenced	12:00 AM
Time vent or flare was terminated	03:30 PM
Cumulative hours during this event	16

Measured or Estimated Volume of Vented or Flared Natural Gas	
Natural Gas Vented (Mcf) Details	Not answered.
Natural Gas Flared (Mcf) Details	Cause: Equipment Failure Gas Well Natural Gas Flared Released: 176 Mcf Recovered: 0 Mcf Lost: 176 Mcf]
Other Released Details	Not answered.
Additional details for Measured or Estimated Volume(s). Please specify	Not answered.
Is this a gas only submission (i.e. only significant Mcf values reported)	Yes, according to supplied volumes this appears to be a "gas only" report.

Venting or Flaring Resulting from Downstream Activity	
Was this vent or flare a result of downstream activity	No
Was notification of downstream activity received by this operator	Yes
Downstream OGRID that should have notified this operator	[371874] STAKEHOLDER GAS SERVICES, LLC
Date notified of downstream activity requiring this vent or flare	09/13/2022
Time notified of downstream activity requiring this vent or flare	04:30 PM

Steps and Actions to Prevent Waste	
For this event, this operator could not have reasonably anticipated the current event and it was beyond this operator's control.	True
Please explain reason for why this event was beyond this operator's control	Please see letter from Stakeholder Midstream
Steps taken to limit the duration and magnitude of vent or flare	Please see letter from Stakeholder Midstream
Corrective actions taken to eliminate the cause and reoccurrence of vent or flare	Please see letter from Stakeholder Midstream
