Ninty degree "L" on water leg came loose. Fluid was picked up and hauled to disposal.

Describe Area Affected and Cleanup Action Taken.*
Fluid spilled on location and ran into pasture. Fluid was picked up and hauled to disposal. Impacted soil was excavated and disposed of at a NMOCD approved facility. One area was covered with a 20 mil plastic liner, then backfilled with clean soil per Chris Williams approval. The remaining areas were backfilled with clean soil. Site pictures of the liner installation are attached. Site has been closed.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
