Subject: Stateline LP Line Rupture - Eddy Co
Date: Monday, February 1, 2016 1:51:18 PM

Heather,

As we discussed earlier, attached are the photos of the release we found at our release site when we went back to take confirmation samples. This new release only overlaps the western edge of our release area and did not affect our confirmation sampling point. Our initial samples taken from this area came back non-detect from the first sampling event. I will let you know the operator of the well/tank battery on this location once I track it down.

Let me know if you have any questions.

Thanks!
