|----------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------|
| For this event, this operator could not have reasonably anticipated the current event and it was beyond this operator's control. | True                                                                                         |
| Please explain reason for why this event was beyond this operator's control                                                      | This incident was caused by a pipeline leak, which cannot be reasonably foreseen or avoided. |
| Steps taken to limit the duration and magnitude of vent or flare                                                                 | Pipeline was isolated and blown down for repair.                                             |
| Corrective actions taken to eliminate the cause and reoccurrence of vent or flare                                                | The closest isolation valves were used to minimize the amount of gas flared.                 |
