Nelson,

Hello, the reason for the cancellation request is because when the spill was originally reported to our internal system, I received the notification and made the NOR and C141 the same day. After it was entered into our spill database, I received a call from the Manager of the pumper who reported the spill telling me it was entered incorrectly and was actually a Non Recordable spill. The pumper entered a "0" on the end of the amount instead of just "1"-The amount was changed internally, and I submitted the Request for Cancelation.

If you have any questions, please reach out.
