Steps and Actions to Prevent Waste	
For this event, this operator could not have reasonably anticipated the current event and it was beyond this operator's control.	True
Please explain reason for why this event was beyond this operator's control	A hydrate formed in the compressor fuel skid causing loss of compression.
Steps taken to limit the duration and magnitude of vent or flare	Chevron field personnel executed practicable measures to minimize emissions. The production team shut in well production until hydrate could be cleared and compressors could be brought back online.
Corrective actions taken to eliminate the cause and reoccurrence of vent or flare	Corrective measures focused on reducing gas production as quickly and safely as possible to minimize the duration and volume of gas flared.
