Violations:

Known or anticipated acute or chronic health risks associated with the emergency:

Medical attention advised for exposed individuals:

Cause of the upset:

West Turkey Track booster Catco malfunction in turn cause temperature to drop on fuel gas coming into station freeze up on fuel meter. Lost compression causing field pressure to climb resulting in release. Fitz Booster shares gathering system with West Turkey Track booster.

Actions taken to correct the upset and minimize emissions:

Catco was replaced on West Turkey Track booster station fuel bring temperature and pressure back into optimal range. Compression was brought back on line bring down field pressure.

Precautions taken as a result of the release:
