Dear Ms. Proctor:

Enclosed are 4 samples of well cuttings that I would like made into thin sections. The cuttings should be impregnated with blue epoxy but no staining is necessary. Should you have any questions regarding this work, please feel free to call me. The finished thin sections should be sent to me at the address on the letterhead.

Sincerely,

Ronald F. Broadhead
Senior Petroleum Geologist

I sent off 4 samples from the
Labrador #1 Mesalero well,
for verification of my interpretation
of the cuttings.*
