For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.<br>MIRU, Spud 12/12/2017. Drill 17.5" hole to 490', run 13 5/8" csg, cement casing, NU BOP, pressure test annular (250/1500), valves (250/5000), Drive Back to pumps (250/5000), HCR (250/5000), choke manifold (250/5000), blind rams (250/5000). Pressure test casing to 1500 psi for 30 min, held, test good. Drill 12 1/4" hole to TD 1976', run 9 5/8" csg, cement casing, pressure test casing to 1500 psi for 30 minutes, held, test good. Drill 8 3/4" hole to 15,863', run 5 1/2" casing, cement casing. PU equipment, RDMO. 1/4/2018. Pressure test 5 1/2" casing to 9500 psi for 30 min, 300 psi drop, test good. 12/12/2017 Spudded well.                                                                                                                                                                                                                      |                                                                                                                                                                               |                                                                                                                                                                                                                                      |                                             |                              |                              |                                             |                                                |                                           |                                        |                                       |                                              |                                          |                                                  |                                           |                                               |                                         |                                            |           |              |      |                                                                   |      |        |      |     |    |     |     |     |   |  |      |   |   |          |      |       |      |       |    |       |    |      |     |      |   |  |      |   |   |          |      |          |      |     |    |        |    |       |      |      |   |  |      |     |   |
