Subject: 30-007-20892 VPR "A" SWD Well No. 500
Date: Tuesday, September 24, 2019 8:25:46 AM

Good Morning William,

We did a MIT on the VPR A-500 WDW in July, it did not catch or held pressure. We diverted water to two other disposal wells, and not pumping into the VPR A-500. We are evaluating different options at this time to fix the well.
