13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Franklin Mountain Energy, LLC (FME), Operator, respectfully submits for record the following changes to the proposed drilling plan for the above referenced well:

12 1/4" hole was drilled to 5,435'. 9 5/8" casing ran to 5,425' where pipe sat down and rig was unable to pull up or circulate. Multiple attempts were unsuccessful. NMOCDD was notified and wireline was called in to determine free point. Wireline ran Free Point tool which indicated the pipe is free from 5,318' up, approx. 10' above float shoe. Geo and drilling details were discussed with Paul Kautz and FME was granted verbal approval to proceed as outlined below.

Perforate casing in place in effort to reestablish circulation. Initial perf as low as possible with potential for a second set of perfs if required. Conditions of approval: FME must cement to surface on 2nd intermediate job. A detailed subsequent report of the work will be submitted once complete.

Spud Date: 10/17/2020

Rig Release Date:

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
