13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

COG OPERATING LLC respectfully requests to extend the SI status of this well. This well is capable of producing in paying quantities but is temporarily not producing due to a combination of a backlog in well work and a long lead time to get the required pumping unit. The pumping unit was ordered in August 2020 but has been delayed due to Covid 19. The pumping unit is scheduled to be set by Monday November 2nd, 2020 and rig work is scheduled to begin Thursday November 5, 2020. The well is expected to be back on production by December 1, 2020.

14. I hereby certify that the foregoing is true and correct.
