

Well Name: BLACKHAWK 11 FED COM

Well Number: 2H

Lease Number: NMNM95630

US Well Number: 3001539887

Well Location: T16S / R28E / SEC 11 / NESW /

Type of Well: OIL WELL

Unit or CA Name: BLACKHAWK 11
FED COM 2H

Well Status: Producing Oil Well

County or Parish/State: EDDY / NM

Allottee or Tribe Name:

Unit or CA Number: NMNM133870

Operator: LEGACY RESERVES OPERATING LP

Accepted for record – NMOCD gc 3/12/2021

Notice of Intent

Type of Submission: Notice of Intent

Date Sundry Submitted: 01/18/2021

Date proposed operation will begin: 01/20/2021

Type of Action Temporary Abandonment

Time Sundry Submitted: 10:33

Procedure Description: We are requesting the subject well be placed in TA status for one year due to the current situation the oil industry is in. Procedure: POH with production equipment. RIH with CIBP. Set CIBP @ 6022' and cap with 35' of cement. Tag cement top. Circulate well and load casing with inert fluid. Notify BLM for MIT and perform MIT on well.

Surface Disturbance

Is any additional surface disturbance proposed?: No

Conditions of Approval for Temporary Abandonment of Wells

Definition: A temporarily abandoned well is a completion that is not capable of production in paying quantities, but which may have future value. Pursuant to 43 CFR 3162.3-4 (c), no well may be temporarily abandoned for more than 30 days without the prior approval of the authorized officer.

1. TA status will be effective for a period of up to one year from the date of sundry approval and can be renewed annually thereafter per IM NM-2016-017.
2. A bridge plug (CIBP) must be installed 50 to 100 feet above any open perforations or open hole. The CIBP must be capped with either a minimum of 25 sacks of cement if placed with tubing or 35 feet of cement if placed with a bailer. The top of the cement must be verified by tagging.
3. The wellbore must be filled with corrosion inhibited fluid and pressure tested to 500 psi. The casing shall be capable of holding this pressure for at least 30 minutes. If the well does not pass the casing integrity test, then the operator shall, within 30 days, submit a procedure to either repair the casing or to plug and abandon the well.
4. Contact the appropriate BLM office at least 24 hours prior to the scheduled Casing Integrity Test. For wells in Eddy County, 575-361-2822; Lea County 575-393-3612.
5. All downhole production/injection equipment (tubing, rods, etc.) shall be removed from the casing if it is not isolated by a packer.
6. A bradenhead test must be conducted. If the test indicates a problem, a remedial plan and time frame for remediation shall be submitted within ninety (90) days of the test.
7. Submit a subsequent Sundry Notice (Form 3160-5) with the following information:
 - a. A well bore diagram with all perforations, CIBP's, and tops of cement on CIBP's.
 - b. A description of the temporary abandonment procedure.
 - c. A clear copy or the original of the pressure test chart.
