13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

ConocoPhillips Company respectfully requests approval to perform the work outlined below. When field crew went to remove wellhead, it was noted that fluid and gas was around cellar. We proposed to:

Excavate around wellhead to +/- 10'.

Excavation needs to allow for 5'+ for use of hot tap

• Cudd Well Control will hot tap 9-5/8", 36# surface casing

• Bleed off pressure. Monitor for any pressure build

If Pressure Does Not Build

• Cut off wellhead per NMOCD P&A requirements

If Pressure Does Build

• Take gas sample off hot tap

• Install wellhead, MIRU WSU and drill out cement

• Run CBL and determine best path forward

All results of the well re-entry and testing be submitted electronically attached to the C-103 Subsequent for this NOI
