OXY USA INC requests approval to add the RED TANK; BONE SPRING, EAST (51687) pool to SENILE FELINES 18_7 STATE COM 31H (30-025-48751) as part of PLC-835. The additional pool and lease are currently approved as part of PLC-835. While drilling the well, a portion of the lateral entered the Bone Spring formation. A downhole commingle permit has been filed. Allocation will be by well test per frequency and duration required by Order R-14299. The C-102s are attached.

The facilities described in PLC-835 are unchanged - each facility has a sales-quality orifice meter (BLM gas FMP or equivalent meter) that continuously measures gas volume before it leaves the facility. Any commingling of wells upstream of these meters has been approved according to the Commingle Orders for each individual facility.

This request is for gas production only. Oil production will be handled through an amendment to PLC-596D.

Well Tests frequency and duration shall be conducted as stipulated by Order PLC-835

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
