---

Calen,

You have verbal to move forward as planned. Please submit a subsequent sundry within 5 days of the verbal approval. Please plan to bring cement to surface on the next casing. If cement does reach surface please contact the appropriate BLM office.

**Subject:** [EXTERNAL] Pure Gold MPD1 29\_17 Fed Com 175H - sidetrack

**This email has been received from outside of DOI - Use caution before clicking on links, opening attachments, or responding.**

Long,

As discussed, H&P 479 left tools in the hole while drilling 8-3/4" intermediate section on the Pure Gold MPD1 29\_17 Fed Com 175H. We will have to sidetrack the original wellbore around the fish to complete the section as per plan.

Current status:

- 9-5/8" casing set at 4292'

- Original hole drilled to 7365'
- Top of fish at 7299'
- TAM open hole packer set at 6300'

Plan forward:

- Pump 600' cement plug on top of packer from 6300'-5700'
- Sidetrack wellbore in the 5700' – 5800' range
- Continue drilling 8-3/4" intermediate hole as per plan

Please see attached wellbore schematic that summarizes current state and plan forward. Please let me know if you need anything else from me.
