Actual Procedure: It has been determined that during the Wellbore Pep, the holes in casing were not reported correctly. Please update the records to reflect that the approved hole in casing is from 4742’ – 4801’ based on hole hunting operations conducted on 4/16/2019 and 4/17/2019. Approval was received from Brandon Powell/NMOCD to count the holes in csg as perforations as they are still within the legal Mesaverde. A passing/witnessed MIT was conducted on 4/17/2019, which was previously attached to the WB Prep Subsequent that was approved on 9/23/2019. An updated wellbore diagram is attached.
