OTHER: <input type="checkbox"/>		OTHER: <input type="checkbox"/>	

13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Prepare well head, rig up pulling unit, and install BOP. Test casing for any possible leaks. Release packer and POOH with tubing. Visually inspect and lay down any bad tubing. PU and RIH with new packer with ON/OFF tool and profile nipple to 3350'. Hydrotest tubing to 5000 psi while running in hole, replacing any bad joints with 2-3/8" J-55 IPC tubing. Displace backside fluid with packer fluid. Set packer. Perform pressure test and report results to OCD.

Spud Date: 10/4/1979 Rig Release Date: 10/30/1979

I hereby certify that the information above is true and complete to the best of my knowledge and belief.

APPROVED BY: _____ TITLE _____ DATE _____
Conditions of Approval (if any): _____

I am submitting an additional C103-G for the following well:

- Kimmy K #002, API: 30-025-26490

We conceded our MIT on November 23, 2022 for this well. I originally submitted a C-103G application to repair this well on 1/9/2023 to restore the well into compliance, but the C-103G application was not approved until the first week of February, 2023.

As discussed with Million Gebremichael and his team, we are currently working on other wells in the area that are non-compliant and trying to do our best with rig availability, pricing, and timing. Because of this, I am requesting an extension of time (EOT) of 3 months for this well. After repairing the well as per the attached procedure and a successful pressure test is reported to the OCD, we will then re-establish injection.

Thank you,

Tyler D. Van Howe | *Production Engineer*
