

Surface Reclamation Complete Report

Well Name: ABBY BLF STATE #001

API: 30-025-38951

Well Location: N-10-9S-33E

Surface Owner: STATE OF NM

Reclamation Complete Date: 12/13/22

Total Acres reclaimed: 2.25 acres

Seed Mix:

Mix	Species	lb/acre (Drilled)	lb/acre (Broadcast)
NMSLO - Sandy Loam (SL)	Galleta Grass	5.0	10.0
"	Little Bluestem	5.0	10.0
"	Blue Grama	4.0	8.0
"	Sideoats grama	4.0	8.0
"	Sand Dropseed	2.0	4.0
"	Indian blanketflower	1.0	2.0
"	Parry penstemon	1.0	2.0
"	Blue Flax	1.0	1.0
"	Desert globemallow	1.0	2.0
"	Fourwing Saltbush	2.0	4.0
"	Common winterfat	1.0	2.0
"	Apache plumb	0.75	1.5

Weights should be as pounds of pure live seed.

Note:

EOG will conduct an annual surface reclamation monitoring field visit in 2023 to determine if successful vegetation regrowth is established.

3RD party risers on W side of pad by road.

On-Site Regulatory Reclamation Inspection							Date: 12 / 13 / 2022	
Site Name: Abby BFL State Com #001								
API Number: 30-0 25 - 38951		Plug Date: 05 / 23 / 2022		Program: Initial		Monitoring		
				Final		Corrective		
Was this the last remaining or only well on the location?							YES	NO
Are there any abandoned pipelines that are going to remain on the location?							✓	
Is there any production equipment or structure (not including steel marker, poured onsite concrete bases, or pipelines) that are going to remain on location?							✓	✓
If any production equipment or structure (including 3rd party) is to remain on location, please specify. 3rd party risers on west side of pad by road.								
Site Evaluation								
Recontoured back to original State/Topsoil Replaced							YES	NO
Have the rat hole and cellar been filled and leveled?							✓	
Have the cathodic protection holes been properly abandoned & reclaimed?							✓	
Rock or Caliche Surfacing materials have been removed?							✓	
Section Comments:								
All Facilities Removed for Final Reclamation								
Have all of the pipelines & production equipment been cleared? (other than the listed above)							✓	
Has all of the required junk and trash been cleared from the location?							✓	
Have all of the required anchors, dead men, tie downs and risers have been cut off at least two feet below ground level?							✓	
Have all of the required metal bolts and other materials have been removed?							✓	
Have all the required portable bases been removed?							✓	
Section Comments:								
Dry Hole Marker							YES	NO
Has a steel marker been installed per COA requirements?								
Check One: <input checked="" type="checkbox"/> Buried <input type="checkbox"/> Above Ground

George, according to ROW we don't need to remove out down leg at any of these sites but we can remove the measurement equipment. I can not at this time give you any kind of time frame of when this will happen. If you could send me a list of the higher priority leases for you. Then I can possibly squeeze in our crew between other maintenance projects. Just let me know. Thanks

Thank you Jennifer! If there are any questions please let me know.

Nikki/Diane please see Jennifer's email below. If these meters are active please move forward with TA. I can have Alfredo pull the meters if need be.

K'Lee, please add these locations below to our list of meter run removals.

Subject: [EXTERNAL] Measurement Equipment Removal - additional locations

CAUTION: This email originated from outside of Targa. Do not click links or open attachments unless you recognize

the sender and know the content is safe.

Good Morning Alex,

I've 4 additional locations that have been or are being P&A that need to have Targa meters removed.

They are as follows:

Rokesmith BDI State Com #1: 33.3923569,-103.475029

Mattea BFA State #1: 33.398571,-103.4379272

Hummingbird ADM State #1: 32.9381714,-103.2655716, quick note on this one: EOG sold this well effective 5/2021 but took it back over effective 6/2022.

Kemnitz South AFL State #1: 32.8730278,-103.5981293, quick note on this one: EOG sold this well effective 5/2021 but took it back over effective 6/2022. Also, my field production technician that has

been working on decommissioning this location indicated that the meter # is unreadable but the line

on the downstream side of the meter run has been marked so he was able to tell it's a Targa meter.

Please let me know if you have any questions.

Have a great weekend!!!

Jen

Morning Jennifer, we have removed and ATD' d each of the actual meters on location. We have not removed any of the physical meter runs. Our tracking list for removal has been updated and our crew(s) will get to each of them as they come up on the list.

QUESTIONS

Operator: EOG RESOURCES INC P.O. Box 2267 Midland, TX 79702	OGRID: 7377
	Action Number: 169536
	Action Type: [C-103] Sub. Release After P&A (C-103Q)

QUESTIONS

Subsequent Report of: Location Ready For OCD Inspection After P&A	
Was this the last remaining or only well on the location	Yes
Are there any abandoned pipelines that are going to remain on the location	No
Is there any production equipment or structure (not including steel marker, poured onsite concrete bases, or pipelines) that is going to remain on the location	Yes
If any production equipment or structure is to remain on the location, please specify	3rd party risers on West side of pad by road

Site Evaluation

Please answer all the questions in this group.

Have all the required pits been remediated in compliance with OCD rules and the terms of the Operator's pit permit and closure plan	Yes
Have the rat hole and cellar been filled and leveled	Yes
Have the cathodic protection holes been properly abandoned	Yes
Has a steel marker, at least 4 inches in diameter and at least 4 feet above ground level, been set in concrete	No
The (concrete-set) steel marker shows: Must attach marker photograph(s). *	THE OPERATOR NAME, LEASE NAME AND WELL NUMBER AND LOCATION, INCLUDING UNIT LETTER, SECTION, TOWNSHIP AND RANGE, SHALL BE WELDED, STAMPED OR OTHERWISE PERMANENTLY ENGRAVED INTO THE MARKER'S METAL.
Has the location been leveled as nearly as possible to original ground contour	Yes
Have all the required pipelines and other production equipment been cleared	Yes
Has all the required junk and trash been cleared from the location	Yes
Have all the required anchors, dead men, tie downs and risers have been cut off at least two feet below ground level	Yes
Have all the required metal bolts and other materials have been removed	Yes

Poured onsite concrete bases do not have to be removed.

Have all the the required portable bases been removed	Yes
Have all other environmental concerns have been addressed as per OCD rules	Yes
If any environmental concerns remain on the location, please specify	Not answered.

* Proof of the site marker (photograph) is required.

Please submit any other site photographs that would assist in documenting the above answers, site features, additional concerns, or other nearby / remaing structures and equipment.
