**Subsequent Report**

**Sundry ID:** 2674783

**Type of Submission:** Subsequent Report

**Type of Action:** Reclamation

**Date Sundry Submitted:** 06/02/2022

**Time Sundry Submitted:** 04:48

**Date Operation Actually Began:** 09/20/2021

**Actual Procedure:** P&A Reclamation and re-seeding was completed on 9/20/21. Please see attached completed reclamation report. EOG will conduct annual monitoring beginning in 2023 and will submit a sundry advising of the status of reclamation success. Upon meeting BLM's success criteria, a Final Abandonment Notice will be submitted.

BLM Completed  
Reclamation Plan

## I. Objectives

The long-term objective of reclamation and remediation is to set the course for eventual ecosystem restoration, including the restoration of the natural vegetation community, hydrology, and wildlife habitats. In most cases, this means returning the land to a condition approximating or equal to that which existed prior to the disturbance. The operator is generally not responsible for achieving full ecological restoration of the site. Instead, the operator must achieve the short-term stability, visual aesthetic, hydrological, and productivity objectives of the Bureau of Land Management and take the steps necessary to ensure that long-term objectives will be reached through natural processes.

## II. Background

The surface owner is Private-Brantley, John Draper Jr & Bettie Anne per the Eddy County Assessor's Office (Sidwell's Portico).

## III. Scope of Work

1. The drilling pit/old P&A location is vegetated (see diagram, yellow) and requires no reclamation.
2. Scrape approximately 6" -8" of UNVEGITATED surface materials and deep bury (4') at SW corner of pad (See Diagram). Push the West and North edges of the well pad towards the South, fill small cuts corner. Mound/recontour material pushed from edges to match south edge of pad.
3. Rip the well pad SW or NE, follow the natural sloping. Disk or Harrow the vegetated area, this area is included in the total number of acres to seed. Flip the access road, cross rip and match grade/contour of existing edges. Ditch cut along access road, approximately 100' X 2' X 2'.
4. The reclamation was completed on **September 20, 2021**. The total area (See Diagram), of the reclamation is 2.0 acres (Well Pad: 1.75, Drilling Pit: 0.0, Access Road: 0.25). The site was seeded, **September 20, 2021** to take advantage of monsoonal rains with below listed mix. Seeding can be broadcast or planted with a seed drill (see table below).

Mix	Species	lb/acre (Drilled)	lb/acre (Broadcast)
BLM #1 (For Loamy Soils)	Plains lovegrass	1.0	2.0
"	Sand dropseed	2.0	4.0
"	Sideoats grama	10.0	20.0
"	Plains Bristlegrass	4.0	8.0

A Bureau of Land Management, Subsequent Report, 'Reclamation', will be submitted via the Bureau of Land Management WIS System.
