Workover

- Operator worked on the subject well and fished out approximately 1200 feet of 2 7/8" tubing
- We encounter a large amount of scale and the tubing is plugged with scale.
- Pressure test confirmed that the casing is in good condition. We tested at 4300' and the again at 6000' to 1000# and the casing held for 30 min both times.
- Due to the cost, we shut down operation and will come back to it.
- We spoke with Gary Robinson of the OCD and requested a 6 month extension to get the well in working order. Gary agreed and submitted the request.
