Re: Notification and Verification of a Standard Well Location for the Icy 18 Fed
753H (30-025-51867), Sec 18, T25S, R33E, Lea County, NM

Dear Mr. Lowe:

Included with this letter are the following documents demonstrating that the above referenced well will be drilled at a standard oil well location:

- C-102 Plat dated December 20, 2023 showing the proposed location of the Icy 18 Fed 753H, respectively;
- "Area of Common Ownership Plat" separately showing the spacing units for the well; and
- Certification of Ownership demonstrating the outlined area on the plat is comprised of one federal lease, with uniform ownership.

19.15.16.15.C(7) NMAC provides that in area of common ownership (here, one federal lease) the setback requirements only apply to the outer boundary of the area of uniform ownership, not the spacing unit within the area of uniform ownership. Since the area to the east towards which this well encroaches is within the documented "area of common ownership," this well is at a standard location and approval of a non-standard location for the well is not necessary.

Please place this Notification and Verification of a Standard Well Location in the well files for Icy 18 Fed 753H (30-025-51867).

Respectfully submitted,

A handwritten signature in black ink that reads "Lisa Youngblood".

Certification of Ownership

I have reviewed the ownership of the oil and gas leasehold (BLM Lease USA NM-110838) covering Section 18 and N/2 of Section 19 both in Township 25 South, Range 33 East, Lea County, New Mexico, for purposes of identifying an “area of common ownership” as set forth in NMAC 19.15.16.15.B(8) and C(7). As of this date below, the ownership in the above described leases and lands is identical ownership as defined in 19.15.12.7 B. NMAC.
