You don't often get email from dterry@targaresources.com. [Learn why this is important](#)

I think meters are pulled but meter tubes are still on locations.

Subject: RE: [EXTERNAL] Lovington Meter Closeout

It looks like the below meters were "disconnected" a couple of years ago, but may not have been removed from location. I do not show any other meters in our area for CrownQuest. I will have our technician go out and pull those meters.

Thank you

Good morning Alex,

Happy New Year! Can you help us discontinue and remove the following meters at your earliest convenience?

New Mexico AN State #6: Meter # 2005
State 26-5: Meter # 959

CQ has plugged and divested of all projects in the area. Do you see any active meters in your records that we can add to this list?

We greatly appreciate your help.

Thanks

Sure, thing Saul. I've CC'd Diane and Nikki from our measurement group. They can assist in TA'ing these meters.

Diane/Nikki looks like the BG state is meter 146-0914 which already shows to be TA'd. I'll add it to our list for meter runs removal. 146-941 is still showing active on the maps. Can we get the process moving for Crownquest? Thanks

Good afternoon Alex,

Can you assist us in discontinuing the meters at the State 32-3 and BG Satellite. All the wells using that meter have been plugged.

State 32-3: 146-0941

BG Satellite: Meter is illegible.

	Action Type: [C-103] Sub. Release After P&A (C-103Q)

QUESTIONS

Subsequent Report of: Location Ready For OCD Inspection After P&A	
Was this the last remaining or only well on the location	Yes
Are there any abandoned pipelines that are going to remain on the location	No
Is there any production equipment or structure (not including steel marker, poured onsite concrete bases, or pipelines) that is going to remain on the location	No
If any production equipment or structure is to remain on the location, please specify	Not answered.

Site Evaluation*Please answer all the questions in this group.*

Have all the required pits been remediated in compliance with OCD rules and the terms of the Operator's pit permit and closure plan	Yes
Have the rat hole and cellar been filled and leveled	Yes
Have the cathodic protection holes been properly abandoned	Yes
Has a steel marker, at least 4 inches in diameter and at least 4 feet above ground level, been set in concrete	Yes
The (concrete-set) steel marker shows: <i>Must attach marker photograph(s). *</i>	THE OPERATOR NAME, LEASE NAME AND WELL NUMBER AND LOCATION, INCLUDING UNIT LETTER, SECTION, TOWNSHIP AND RANGE, SHALL BE WELDED, STAMPED OR OTHERWISE PERMANENTLY ENGRAVED INTO THE MARKER'S METAL.
Has the location been leveled as nearly as possible to original ground contour	Yes
Have all the required pipelines and other production equipment been cleared	Yes
Has all the required junk and trash been cleared from the location	Yes
Have all the required anchors, dead men, tie downs and risers have been cut off at least two feet below ground level	Yes
Have all the required metal bolts and other materials have been removed	Yes

Poured onsite concrete bases do not have to be removed.

Have all the the required portable bases been removed	Yes
Have all other environmental concerns have been addressed as per OCD rules	Yes
If any environmental concerns remain on the location, please specify	Not answered.

** Proof of the site marker (photograph) is required.**Please submit any other site photographs that would assist in documenting the above answers, site features, additional concerns, or other nearby / remaing structures and equipment.*
