Good morning,

Attached is the CBL pulled on 9/6 for the San Juan 29-7 Unit 128 MV/MC recomplete prep. **The witnessed MIT has not been conducted.** We failed to pass a preliminary MIT and have identified a potential leak from **4039'-4070'**. We plan to spot a cement plug to remediate according to the procedure attached above. Once we receive your approval, we will move forward with the cement operation. Afterwards, we will complete the witnessed MIT and submit the subsequent CBL.

Let me know if you need anything else. Thank you!
