13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be perfonned or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has detennined that the site is ready for final inspection.)

9/19/2024 - 9/23/2024

MIRU for rod repair. Rod pump could not be unseated so rod string had to be backed off. 234 out 333 rods came free and were pulled and stand back.

TAC was released and 4 joints of tubing were then- pulled.

An attempt to flush the casing/tubing backside was then performed but it pressured up to 2500 psi.

4 joints of tubing initially pulled were ran back in hole along with the 234 rods that had come free. Rods were hanged off and rig moved off.

Shut in well. RDMO.
